Hospital Governors Decide to Ask City to Submit Bylaw for

Hamilton, Sept. 13 .- (Special.)-The Ontario Lantern Company, corner of Cannon and Ashley-streets, suffered severe loss from fire this evening. The hands had hardly dispersed when the fire broke out. It started in a twostorey wing on Ashley-street, and worked its way into the main threestorey building facing Cannon-street. The firemen, under the direction of Acting Chief Teneyck, did splendid work, and cut the fire off just where they found it in the main building. they found it in the main building. The two-storey wing was gutted, however. Some valuable machinery was damaged by water. Some lacquer exploded with alarming report, but no one was hurt. The firemen were called out at 6.15, and worked for over two hours. The loss will amount to over \$10,000. Walter Grose is sole proprietor. He was in Toronto when the fire started.

The hospital governors practically decided this afternoon to ask the city council to submit a bylaw next January to raise \$30,000 or \$35,000 for an addition to the hospital. The details have not been decided upon yet. Some of the governors are in favor of add-ing another storey to one or both of the hospital wings, and to the jubilee wings. Others favor the erection of a new wing in rear of the main build-

Not Considered Final.

Not Considered Final.

Mr. Mackenzie has evidently not yet eccepted as final the Grand Trunk's purchase of the C.A.R. He is at Ottawa now, in all probability, making his last appeal. If he is beaten a new situation will be created. He must either fight the C.P.R. and the Grand Trunk, or form an alliance with one of them. It may be that he will be driven to identify his interests with the C.P.R., either as a merger or a joint arrangement, probably the latter.

It is possible that the C.P.R. will be induced to abandon its Toronto-Sudbury line, and that the old proposition for an exchange of running rights will be accepted. If the C.P.R. builds from Midland to Montreal it could give the Canadian Northern running rights over that line in return for running rights over the James Bay Railway from Toronto to Sudbury. The Canadian Northern could proceed with the James Bay road while the C.P.R. is building from Midland to Montreal, and the result of this arrangement would be to undermine the Grand Trunk's chances of capturing any considerable portion of the western traffic. There is enough of capturing any considerable portion of the western traffic. There is enough traffic in the west to satisfy both the C.P.R. and Mackenzie & Mann. The C.P.R., with its thru railway line and c.P.R., with its thru railway line and the C.P.R. and the Canadian Northern connecting up their western systems by water with Midland, and thence to Montreal, would carry western traffic by a channel from which the Grand Trunk, when finally prepared to com-pete, could not easily divert it.

What the Globe Says.

The Globe's Ottawa correspondent, under date of Sept. 12, says: "There has been no call issued for a cabinet meeting as yet, and perhaps none will be held until Wednesday. Public curlosity as to whether there will or will not be a general election this fall is very keen. Little doubt exists in the minds of those who carefully watch the trend of events that an early dissolution is impending, and that an appeal to the country will not be delayed beyond November."

Greatest Shock of All.

The latest and by far the most important development of the Canadian railway situation was the acquisition of the Canada Atlantic Railway by the Grand Trunk. To both the C.P.R. and Mackenzie & Mann this move came as a rude surprise. The C.P.R. saw at once it was acquiring the Canada Atlantic as a means of hastening its entrance into the west. Mackenzie & Mann were anxious to get the Canada Atlantic, which would have given them at once a summer line of transportation between Winnipeg and Quebec. They had counted on getting the road, and believed that they had the cooperation of the government in their plans for taking over Mr. Booth's road.

Then suddenly the announcement came that the Grand Trunk had acquired the line. The C.P.R. responded by projecting a railway from Midland to Montreal, a line which will practically parallel the Canada Atlantic. Mackenzie & Mann do not appear to have found their bearings yet. They were Greatest Shock of All.
