DETAILED STOCK GOSSIP.

Information is favorable to bullish operations in Un. Pac. National Lead continues to exhibit a strong upward trend. The same may be said of Reading. Amal. should be bought. The same may be said of Loco. Fair profits should not be refused. Smelting is being tipped for higher prices. A pool is being distilled. We would prefer to buy it on a reaction. Bullish reports are received still on Mo. Pac. and the Gould stock. At present we cannot sympathize with bullish tips on Steel. Professionals sell it toward 40 with stop order protection. The big Sunday crowds may help B. R. T. to the point where some opposition appears around 38. Offerings at upper limits were not entirely removed by the Saturday strength in Atch. around 88, Erie 55, N. Y. 110, Nor. Pac. 122, So. Pac. 83, and G. Q. 137 and 138. Until they are removed by cancellation or absorption, approaches to the levels indicated will be followed by reactions. If the stock is taken higher prices may be seen at once. There is much talk of a further drive at St. Paul shorts, but we would be a little cautious in this stock, which has had a big advance. C. P. R. Ill. Central and N. Y. Air Brk. are being bought by pools. Low priced issues are generally tipped for higher prices. We regard K. T. as one of the best of the low priced stocks to buy and hold.

N. Y. FINANCIAL BUREAU.
Bullish operations seem likely in the stock market today. They may tend more this week toward specialties alone. Purchases should be made chiefly on profit taking, declines like those of Saturday. We would not neglect fair profits on bulges if in the daily trading position. The technical position of the market is as follows:

BANK CLEARINGS
Montreal bank clearings had a severe slump in July, while for the seven months the decrease amounts to no less than \$86,042,735.
This is a big falling off, but not greater than the decreases shown by some of the cities in the States of about Montreal's size.
The comparative figures are as follows:

Month	1908	1907
January	\$116,108,737	\$128,194,689
February	\$5,031,138	\$10,764,640
March	\$18,282,282	\$15,041,640
April	\$11,092,633	\$17,054,498
May	\$17,650,019	\$18,357,770
June	\$12,360,919	\$12,860,767
July	\$12,804,681	\$12,258,069

Total \$793,338,702 \$879,379,457
It will be noted that March, May and July were responsible for the biggest decreases.
Clearings of Toronto banks in the month of July totalled \$94,205,847, an increase over the preceding month of \$5,317,004, but a decrease as compared with July last year of \$12,856,651.
The figures in the seven months of the year are \$814,541,409, a decrease of \$64,660,816, as compared with the same period last year.

BIG COAL OUTPUT
All records were smashed by the Dominion Coal Co. last month. Mr. J. K. L. Ross wiring from Sydney that the July output would be in the vicinity of 380,000 tons. This, he said, eclipsed all previous records by 18,000 tons. The company, for the seven months of the year, shows an output of 2,292,000 tons, or 37,000 tons ahead of a year ago.
The output in detail follows:

Month	1908	1907
January	314,108	222,348
February	280,640	222,869
March	346,529	212,831
April	298,745	316,384
May	332,582	327,209
June	347,000	319,090
July	380,000	321,000

Total tons 2,292,019 1,974,720
It is generally understood that the company is getting a better price for coal this year than last.
