

TWO STOCKS IN MONTREAL AT NEW HIGH PEAKS

Power and Tramways Attain Records—Brazilian Most Active Issue

PRICES IRREGULAR IN WALL STREET

Industrials and Rails Show Only Minor Changes at Opening.

MONTREAL, Aug. 11.—Prices continued to advance during the early trading on the local stock market today. Power and Tramways rising to new high levels. The former at 205 1/2 was up the fraction, and the latter, at 176 was up 3 1/2. Brazilian was the most active issue at the opening and rose 3/4 to 89 1/2, while half point advances were scored by Consolidated Steel at 114 1/2, and Dominion Bridge at 85 1/2. Price Bros., Thompson and Winnipeg Ralls sold unchanged at 54, 20 1/2 and 51 1/2 respectively. Other leaders were quiet.

NEW YORK, Aug. 11.—Irregular price movements characterized the opening of today's stock market, with most of the standard industrials and rails showing only minor changes in initial transactions.

U. S. Realty, General Electric and Radio Corporation opened 1/2 to 1 1/2 points higher and Norfolk and Western and Frisco common, each duplicated their year's highs in initial sales. Jersey Central jumped four points.

Morning Stock Letter

NEW YORK, Aug. 11.—Activity and strength should increase in the market today. Selling was again taken in good shape yesterday and stocks in the afternoon moved ahead again. The market is dangerous, but looks higher. Some rails were the feature yesterday, outside of American Can. Stocks in the Nickel Plate moved 1/2 point. The U. S. Steel undisturbed statement is out of the way and steel stocks should look higher. Price Bros., KN and Ray Cons. General Baking is up 1/2 point on the movement. The feature is the fact that numerous houses continue to advance the sale of stocks and that the market goes up in spite of it. That these bullish moves have a profitable basis in the high prices for stocks and the heavy brokerage loans make the action of the market more impressive. LIVINGSTON & CO.

Brokers' Opinions

NEW YORK, Aug. 11.—Tobey & Kirk: "Many stocks are high and profit-taking is to be expected. G.M.O. looks cheap." J. S. Bach & Co.: "It appears as if we only a matter of a short while before the rally will begin where the industrial left off." Clark Childs: "Bulls, steels, coppers and oils afford sound basis for optimistic belief in security prices."

Current Events

MONTREAL, Aug. 11.—Wabasso Cotton statement shows earnings higher. Operating profits \$285,749, against \$265,118 in preceding year. The surplus shows \$18,735. Net working capital shows \$28,323, against \$41,648 in previous report.

revival of interest took place in the market yesterday. An improvement in the market has been, to an extent, a disposition to view the stock in a more optimistic light. That Brazilian as a whole is on a much more profitable and satisfactory basis is indicated, first by a much more settled political situation and, second, by the great improvement in the foreign trade position of the country.

HERE FROM TORONTO.

Reuben Butcher, editor of "The Canadian Disciple" in Toronto, the official organ of the Church of Christ in Canada, accompanied by M. M. Malby, of Toronto, treasurer of the church, motored to the Maritime some time ago and have completed a trip to Prince Edward Island. They are charmed with the beauty of the scenery they said and with the accommodation of roads and hotels as they traveled.

Bank Director

J. W. McConnell, appointed to the board of directors of the Bank of Montreal. Mr. McConnell is president of the St. Lawrence Sugar Refineries, Ltd. He has been a large shareholder in the Bank of Montreal for many years.

R E - ORGANIZATION PLAN FOR AMOSKEAG

Special Meeting of Shareholders Called For 25th to Deal With Proposal.

BOSTON, Aug. 11.—A special meeting of shareholders of the Amoskeag Manufacturing Company has been called for Aug. 25 at Manchester, N. H. to pass upon a proposed reorganization plan.

The plan, the notice calling the meeting said, contemplates the sale to a new voluntary association or trust created under the laws of New Hampshire, of all the manufacturing plants of the present company, together with all its manufacturing assets, current bills and accounts receivable and cash for working capital to the amount of \$6,000,000, excepting and reserving all cash above that amount and all investments and securities of the company.

It also contemplates that the new organization shall acquire the plant of Park Hill Manufacturing Co. of Fitchburg, a Massachusetts corporation and all its assets.

The new association will have a present authorized capital of \$25,000,000, and \$30,000 shares common, all without par value and the proposed basis for the issue of shares is that the plants of both companies are to be paid for on the basis of one common share for each \$100 of their value.

The present Amoskeag Company on that basis would receive 264,720 preferred shares and 390,000 common shares and Park Hill Manufacturing Co. would receive 20,280 preferred and 38,000 common shares.

Making a Will.

(Chicago Journal of Commerce.) Too many men who ought to know better regard the making of a will as one of the closing acts of a lifetime. It is, on the contrary, a thing to be done whenever accumulations become sufficient to make their distribution to heirs worth while. A will is not an irrevocable instrument. It may be changed from time to time, as conditions warrant. At 40 or 50 men dislike to make what is designated as a "last will and testament." It carries to many the idea of death near at hand. That is an erroneous view. As a matter of fact a will made is an aid to recovery when a man is stricken with a fever or disease that disturbs his thinking. Worry over the distribution of his estate, unprovided for, is a dangerous irritant in a severe illness.

Some men postpone drawing their wills because their affairs have not been liquidated and they are unable to designate specific amounts for beneficiaries. That need not be done. One may dispose of his estate justly to all entitled to consideration by fixing percentages; for instance, 50 per cent to his wife, 20 per cent to a daughter and so on.

The big duty is to make the will, to do it now, and to be righteous in its provisions. A new one may be written every five years if conditions change, and the earlier ones destroyed. But the will should be made. It is a wholesome test of a man's willingness to face his duty.

CANADIAN PRODUCE SALE DRIVE SOUGHT

Imperial Committee Would Stimulate Use In Old Country.

Canadian Press Despatch. OTTAWA, Aug. 10.—National effort to stimulate the consumption of Empire produce in the markets of Great Britain is recommended in the first report of the Imperial Economic Committee which arose from the Imperial Conference of 1923.

The scheme would rest on legislation by the British Government for the identification of Empire produce and on financial assistance for comprehensive educational work and publicity. Although not specifically mentioned in the summary of the report suggested as likely to benefit chiefly from the proposed publicity scheme. At present Britain uses considerable American fruit and Danish bacon. Use of the Canadian produce in each case, it is felt, is likely to be stimulated.

DORCHESTER HENS LEAD IN CONTEST

Laid 5.8 Eggs in Week—Rolling Dam Birds Have Biggest Total.

FREDERICTON, Aug. 10.—The 290 hens in the New Brunswick egg laying contest which is conducted at the Experimental Station, Fredericton, laid 586 eggs during the week ending Aug. 7, which brings the total to date since Nov. 1 up to 30,010.

The pen owned by W. E. B. Tait, Dorchester, led in production for the week with 58 eggs. A. S. C. Stevens, who is in second position with a total of 50 eggs.

The pen owned by A. T. Reed, Rollington, still continues to lead in total production with 1,757 eggs. Second position is occupied by A. S. C. Stevens' pen with 1,707 eggs. W. E. B. Tait, Dorchester, owns the leading hen, which has a record of 227 eggs. A. S. C. Stevens owns the hen in second position, which has a record of 223 eggs.

TRAFFIC ON RIVER

Steamers Have Many Passengers But Not Large Freight at Indiantown Monday.

Large numbers of passengers and comparatively small freights came to the Indiantown wharves on the river steamers yesterday. The three boats, Hampton, Majestic and Premier came in. Amongst the passengers were a number going to take the Harvesters' excursion and some Saint John voters coming in to vote for the election.

The Majestic, from the Washadeau, brought some bulky lath material for the Wilson Bros. Co. Ltd., which was shipped from the company's former plant at the Narrows.

Other cargo on the Majestic included 50 bushels of potatoes and 20 crates of berries. The Hampton, from the Bellisle route, brought 50 bushels of potatoes, 10 crates of blueberries, 10 crates of raspberries, a few bags of peas and beans and some barreled fish, presumably sturgeon which was shipped from Victoria where it was to be sent to United States destinations.

The Premier, from the Grand Lake route, brought 200 bushels of potatoes, 100 bags of beans and peas, 25 bags of cucumbers, six crocks of butter and some blueberries.

SCHOONER IS FREED

Carleton A. Smith is Picked Off Cape Cod Rocks by Cutter.

Canadian Press. HIGHLAND LIGHT, Mass., Aug. 11.—The two masted fishing schooner Carleton A. Smith, of Portland, Maine, which went aground in a fog Monday, and one half mile south of the Naugatuck coast guard station, Cape Cod, was pulled off at six last night by the cutter Gresham. The schooner's crew remained aboard.

GREAT SCULPTOR NOW DAY LABORER

A philosophic Italian artist, once popular, who fashioned monuments for three nations is now a day laborer, doing decorative plastering in Los Angeles. "Why not?" he says, "I have been at the top, it is the equal scheme of things that I should travel to the bottom."

Meets Wife After 14 Years; Hurls Self In Front of Train

NEW YORK, Aug. 11.—After having been separated from his wife 14 years, John Galanakis, 46, a Greek importer, met her at Broadway and 72nd street at 7:30 a.m., quietly invited her to go downtown with him, and then, without saying a word jumped in front of a southbound express train. The platforms were crowded and many women screamed and fainted, and the southbound express train was tied up for an hour.

Three cars went over Galanakis before the train could be stopped, and when his body was extricated by a police emergency squad it was found he had suffered compound fractures of his head, both arms and both legs, and other serious external and internal injuries. At the Roosevelt hospital, where he was taken, it was expected he would survive.

Mrs. Galanakis, a domestic, had to be treated by Dr. De Bea of the Knickerbocker Hospital who was summoned. When revived she told the police of the West 86 street station that she and her husband had been married 10 years, but they had been separated two years after the wedding. Her husband had come to America from Greece nine years ago and the soon after that.

Shipping

PAINS ACROSS THE BACK

Relieved by Lydia E. Pinkham's Vegetable Compound

Mitchell, Ontario.—"I have taken your medicine for a number of years. I do not take it steadily all the time, but I am never without it. I always keep it in the house. I took it first for pains in the abdomen and bearing down pains, headaches and pains across the back. I have my home to look after and many a day I could not get up at all. I saw the advertisement in the paper about Lydia E. Pinkham's Vegetable Compound, and I have received a benefit by taking this medicine. I am willing to answer letters from women asking about it. This medicine and you may use this letter as a testimonial."—Mrs. F. J. Wassmann, Mitchell, Ontario.

The merit of Lydia E. Pinkham's Vegetable Compound is told by women to each other. Many women know by experience what this medicine will do and they are anxious for others to know. Such testimony should cause any woman suffering from the troubles so common to her sex to give this well-known medicine a fair trial.

Do you know that in a recent canvass among women users of the Vegetable Compound over 220,000 replies were received. To the question, "Have you received a benefit by taking this medicine?" 98 per cent replied "Yes." This means 98 out of every 100 women are in better health because they have given this medicine a fair trial.

minute insects among the blooms. They seem to discover the flowers by sight alone, and any bit of bright color in the distance is sure to attract their attention.

Songworms, Says He. (New York Times.) A German teacher of sociology, Professor Mangold, proclaims to an interested and astonished world that earthworms can do sing and that he has heard them do. Having put some of the creatures under a glass cover in the course of his experiments, he has heard them sing "rhythmic sounds of soprano pitch," and, on in-

TENDERS FOR DREDGING. SEALED tenders, addressed to "Tender for dredging Saint John, N. B.," will be received until 12 o'clock noon (daylight saving), Tuesday, August 18, 1925.

Tenders will not be considered unless made on the forms supplied by the Department and according to the conditions set forth therein.

Combined specification and form of tender can be obtained on application to the undersigned, also at the office of the Engineer P. W. D. Old Post Office Building, Saint John, N. B., and District Engineer, Bellevue Building, Halifax, N. S.

Tenders must include the towing of the plant to and from the work. The dredges and other plant which are intended to be used on the work to have been built in Canada after the filing of the tender.

Each tender must be accompanied by an accepted check on a chartered bank, payable to the order of the Minister of Public Works, for 5 per cent of the contract price, but no check to be for less than fifteen hundred dollars. Bonds of the Dominion of Canada and bonds of the Canadian National Railway Company will also be accepted as security, or bonds and a check if required to make up an odd amount.

By order, S. E. O'BRIEN, Secretary. Department of Public Works, Ottawa, August 6, 1925. 2376-8-14

NOTICE

The annual general meeting of the shareholders of the New Brunswick Publishing Company, Limited, will be held in the head office of the company, Canterbury street, Saint John, N. B., on Thursday, August 21, at 10.30 a. m., Atlantic daylight time.

Opportunities

There are unlimited opportunities in the great field of business for men who are properly trained. The Bentley School of Accounting and Finance of Boston, Massachusetts, is the largest professional school of college grade in the world devoted exclusively to training men for the duties of office manager, auditor, cost accountant, comptroller, credit manager, and public accountant.

The demand in business is for specialists—for men qualified to do some one thing particularly well. A large majority of the treasurers and many of the presidents of our large business corporations are products of the accounting department. In this department one has an opportunity to become familiar with all the activities of a business.

There is a demand for graduates in both commercial and public accounting because of the reputation this school has for turning out well trained men.

To be Bentley-trained carries prestige in business. We are particularly interested in enrolling the clean-cut, upstanding type of man of pleasing personal appearance, fine character, and an abundance of common sense and ambition. Quality is far more important than number of students enrolled. It requires two years to complete our training.

If you are ambitious to fit yourself for a successful career in business, send for our course.

The Bentley School of Accounting and Finance 921 Boylston Street, Boston, Massachusetts H. C. BENTLEY, C. P. A., President
