Today's Game

St. Peter's and the G. W. V. A. team will meet this afternoon at 3 o'clock on St. Peter's Park in the third game of their series. The former will be strengthened by the addition of Jerry McGovern, who has sufficiently recovered from a recent illness, to appear back at his regular position. His return to the line-up will mean that Jed Doherty will return to the outfield thus rounding up one of the fastest and best outfielders ever seen on a local team. King and Kilien will form the battery for the Green and White nine, while Tipsett and Buchanan will perform for the G. W. V. A. team. The latter team will make a strong bid for victory and a great game should result.

Dick Casey's Boston team is due here

Tuesday on the Governor Dingley and are booked to appear in an opening game against the Vets. Dick is a great favorite with local fans and will undoubtedly receive a hearty welcome.

CANADIANS HAVE BEEN CHALLENGED

National Rifle Association of America is in Touch With D. R. A. in Regard to a Match.

Every Canadian sportsman will be interested to learn that their brothers on the other side of the line have broadcast a challenge which will mean a revival of the Palma Trophy Match, which has been in competition since 1876, if the Canadians accept. The following letter from the Secretary of the National Rifle Association of America to the Secretary of the Dominion Rifle Association in Ottawa is self-explanatory.

"In connection with the matches of the L'Union International de Tir involving the free rifle championship of the world which have been awarded to the United States this year, it is earnestly desired by all the members of this country to revive the historic Palma Match.

When the United States is the present holder of the trophy cannot, of course, challenge the other nations, it desires most cordially to invite them to participate in a Palma Match representing the long range team championship of the world, to be held in connection with the International Free Rifle Matches, the National Matches, and the Matches of the National Rifle Association of America at Camp Perry, Ohio, between the dates September 10 and 19, 1923.

The conditions will revert to those which covered the firing of this trophy from 1876 until 1909, insofar as the rifle and ammunition is concerned. That is, nations competing will no longer be restricted to the service rifle of their country, but may use any match rifle with suitable ammunition; teams to consist of eight men; fifteen shots per man at each range; ranges eight hundred, nine hundred, and one thousand yards.

Similar invitations have been extended to the nations of South America, some of whom made the last competition in 1913 very interesting indeed.

"The matches which will be held in this country this year are of an even sense the largest and most complete from the standpoint of equipment and types of small arms firing that have ever been attempted in this country. They will include not only the match rifle, but also the long range team rifle, long range individual rifle, and the International three hundred meter free rifle events, but the 22 calibre miniature rifle events, and snipe events and the complete series of NRA Military rifle matches.

"The United States Army Springfield rifle and match grade ammunition will be available for issue to all competitors without cost.

"An attempt is being made to secure special rates from the seaboard for the Roundup arena for all visiting teams.

"Reply at your earliest convenience will be greatly appreciated.

Canada has participated in the Palma seven of the times which the match has actually been fired. On two other occasions, the American team, under an open challenge, fired the match with the British team in 1901. The Canadian Team defeated the Americans, with a score of 1823 to 1491.

In 1902, the United States Army Springfield rifle and match grade ammunition will be available for issue to all competitors without cost.

and send teams to the International Matches, which will be held under the auspices of the National Rifle Association of America on the historic Camp Perry range, a range which is well known to the older generation of Canadian riflemen.

In addition to the Palma match representing the long range team championship of the world at eight hundred, nine hundred, and one thousand yards, teams of eight men the International Free Rifle Matches, representing the individual and team championship at 300 meters will also be fired at Camp Perry, in addition to the elaborate program with the service rifle, match rifle, 22 calibre rifle and pistol, and revolver and shot gun events, which is a regular feature of the National Rifle Association of America gathering at the big range on the shores of Lake Erie.

TO ERECT CANVAS CITY NEAR SHELBY

Elaborate Preparations for Bout Between Dempsey and Gibbons—Ray Knight Roundup Another Big Feature.

Shelby, Mont., May 27.—All the canvas in Shelby won't be on the floor of the ring when Dempsey defends his title against Tommy Gibbons here on July 4. Thousands of yards of it will be made into tent homes for the visitors here for the cowboy contests. The Chamber of Commerce has taken action to install the largest tourist camp in the world at Shelby. Eighty acres—five minutes walk from the arena—have been leased for the tent city.

It will be laid out like an army camp with streets, water and gas for cooking and lighting. The gas will be piped from the big wells only a few miles away. There will be room to take care of 8,500 cars and 15,000 people. The tented city will cost Shelby \$10,000.

A Denver man plans to put up a tent hotel that will accommodate a thousand guests.

The Ray Knight Roundup will also use hundreds of tents. Knight is one of the wealthiest cattlemen in the world, owning a million acres in South America and a ranch of 120,000 acres in Alberta, Canada. His wild west show rates with the world famous Pendleton, Ore. Roundup. Knight will bring 200 of the wildest horses of the range here for the cowboy contests. Fifty-three of his bronchos have never yet been ridden, though some of the best broncho busters in the world have tried to sit in their saddles. The Roundup arena will seat 25,000 people. It will cover forty acres. There will be a quarter-mile track inside the enclosure. The Knight Roundup was staged at Saskatchewan several years ago for the Prince of Wales. It showed for a week before crowds of 50,000 to 60,000 daily. Roundup dates have been definitely fixed for July 1, 2, 3 and 4.

Twenty-five thousand dollars have been placed in Mayor Jim Johnson's bank here to guarantee prize money for the broncho riders. Shelby is located at the intersection of the Roosevelt Trail, the Sunshine Trail and a direct automobile road into Canada. Shelbyites will start wearing their eight-gallon Stetsons and other cowboy regalia beginning the first of June to add the western touch to the frontier picture.

CANNOT PLAY GOLF BY PROXY (Toronto Telegram). Any plan in regard to municipal courses is entitled to kindly consideration by the City Council. For there is something in the theory that it is better for people to play their own games instead of hiring professionals to play for them.

Baseball is a good game, but it falls just a little short of the original Anglo-Saxon idea of sport when twenty employes play a game and almost twenty thousand employers watch them play it. And really isn't it getting even further away from worth-while sport when the youngsters of Ontario are invited to spend their summer afternoons listening to a radio report of a ball game instead of choosing up sides and smashing the ball over fences themselves?

Whether golf is a good game or not is another question. People who don't play golf thing it is sheer idleness to spend two or three hours chasing a small hunk of gutta-percha all over the country-side. People who do play golf are willing to risk bankruptcy and even divorce rather than abandon a game in which they find an irresistible fascination.

At all events, golf is a game that cannot be played by proxy. To participate in its pleasures it is obligatory to indulge in a combination of fresh air and exercise. And that is not a bad combination.

KILBANE IN FINAL STAGE OF TRAINING

Champion Begins Last Preparations for Defence of Title Against Criqui.

New York, May 26.—Johnny Kilbane, who will defend his featherweight title at the Polo Grounds on June 2 against Eugene Criqui of France, has begun the final stages of his training at O'Brien's gymnasium. Kilbane has done most of his heavy training on his farm at Vermillion, Ohio, and apparently is in as good condition as when he took the title from Alvin Karpis last year.

Kilbane has been training diligently at Vanhasset, L. I., and has been rapidly rounding into condition for the bout, but inclement weather on Wednesday forced him to spend most of his working hours in the gymnasium. He insisted on some road work, however, and jogged five miles through the mud and rain.

Kilbane is down to 124½ pounds, and those who watched him in action voiced the opinion that he still has the

speed and stamina which won the title for him. Since he is close to the required weight, the champion will continue his future workouts to adding speed and accuracy to his punches. It is reported that there may be a change in the programme for Saturday and, if so, that the new arrangement would bring together Mike Dundee and Babe Herman and Johnny Curtin and Jack Sharkey in the semi-final bouts. Benny Valger, who has been making strenuous efforts to get a bout with Dundee, met the latter, and after a short conference Dundee agreed to meet Valger within forty-five days after his bout with the winner of the Kilbane-Criqui contest.
