riety rendering them charming, amongst the spokes typical of the days in the week, and many soven were chosen, as a select  $f_{\infty}$  to when he had his day out, he turned the wheel, represent the days of the week, which, although when a week was said to have rolled over ----exhibiting some ingenuity on the part of the In his right hand he held a bucket filled with exhibiting some ingenuity on the part of the Saxons, could nevertheless, be only viewed as less vulgarly called a "boquet." With his a week invention. Like every dog they dach day Saturday endeth. had their day, which was the peculiar dogun of the Saxons, and it may now be said that every day has its dog, if we are to judge from the number in St. Andrews, it is to be boped the lawful owners will pay their dollar fax promptly, as in hunting up so many would be delinquents is no enviroble Chase. The Idel the number in St. Andrews, it is to be hoped the lawful owners will pay their dollar tar promptly, as in hunting up so many would-by the promptly as in hunting up so many would-by the promptly as in hunting up so many would-by the promptly as in hunting up so many would-by the promptly as in hunting up so many would-by the promptly as incention is his head, and there hy have a classed eye is his head, and there hy have a the chief object of Saxon advataton, attribute to the previous attraction is his work on a briddl tour. The outcomety took place was the chief object of Saxon advataton, attribute to the previous attraction is his work, and there was decominated as nohing less that he reset provided and the provide the solution is microscopic impection advataton, attribute to the previous that the Saxons is worshipping this god of light, should have been as not all gold that glittered. Sunday was the more particularly devoted to his advantion and here indexet. Washing to a soon as the dollar of the Moon. The hid of the prevent law and ching wadeonly is here this of the prevent was more all gold that glittered. Sunday was there was worshipping this god of light, should have been as not at all fitting, beginning very law as not at all fitting, beginning very law as not at all fitting, beginning very law and ending wadeonly is here chigon, if were watched two long cars, and these were reacted as the horns of her dilemma is the total couch. Now when the locus for the value of the solut and possible set was inder on a model of the was devoluted for the solut of the owner of the preventily show the the solut of the owner of the solut of the owner of the day named after here, flashing, there was more form and these were the the halon. Was not all filting, beginning very law as the chief was occupied by a like was the chief was occupied by the preventily advatable was the chief was occupied by the preventily advatable was the chief was occupied by a like was to a soluthary if the was to a soluthary is the total couc

Co with the other idols, was looked upon and "Oh, wept for as the ruling patriarch of the Ancient German's of the Teutonic race, who smoked Just it nuch and drank lager beer : they ultimately was heard inquiring for the baby, and it was lost confidence in this idol, and stuck to their restored to har, very much to the relief of the moerschaums : thus liave we our Tuesday. young people.

The Idel of Woden or Odin, was the A 1 divine of the Northern nations, who were then considered the northern lights of the age. This idel, like the Sun, was supposed to have 1869. ALBION HOUSE 1869. This idel, like the Sun, was supposed to have risen in the yeast, as he was always in a state of great ferminitation, and like unto the wind, no one in whose confidence he rained supremen-could reliably inform another from whence he hailed, or point out the precise locality to who ever concluded by certain mughtycal seges, that as he was known as Wooden, he not the the astrone of the frainey shiver-ed his timbers and went to Spinterss he left us Walnasday. The Idel Thor—Was the au flor of Thurs-day, according to his biographical notice, he was the cidest and most courageous of Wood-em Sons, the number of his brothers is not exactly known, nor is it at all requisite time is bloud be for the present purpose: to the Dance, as well as the Subary to us, was hererspon-sible for his intin dane position. He was re-presented as enthroned, a positure he never vasanted, and many artists are of opinion the his likeness, as handed down to us, was taken in mos sitting, although photography was there mixnown. The crown which surmounted this coven of his hend was jewelled with twelve diamed attra, equating the subcorgaphy was there mixnown. The crown which surmounted the coven of his hend was jewelled with twelve diamed stars, denoting the plate under which. risen in the yeast, as he was always in a state erown of his head was jewelled with twelve diamond stars, draoting the planet under which he was born, but there being an entire absence of stripes, it cannot be sold that the Ameri-eans can trace back thus far the original design of their national er The Hol Friga or Frea-Was the relict or h a rib of Woden, and next to him, or ayart, b a rib of Woden, and next to him, or ayart, the mean reversed by her foolish worshippers, being placed her an an equal footing with the mediatesing position to Eriga who considered here it above all things earthly eventally they were summarily separated in consequence of their frequent querrels originating in the one gascring that she as more celestial shan the other : Friga therefore had a day set assart pherself for her own private enjoyment, which was called Fry day, and this, says a remete historian, was suggisted by ber frequents broits with Hertha, and to this day frail women will shams. The Idol Scator—This idol was represent. State the context and MESS PORK. St. Stephen, February, 1860.

The Days of the Week. The Idols which our Saxonian progenitors idolized, were numerous and verious, the va-riety rendering them charming, amongst the many soven were chosen, as a schedul of the days in the work and provide the source of the days in the work and provide the source of the days in the work and provide the source of the days in the work and provide the source of the days in the work and provide the source of the days in the work and provide the source of the days in the work and provide the source of the days in the work and provide the source of the days in the work and provide the source of the days in the work and provide the source of the days in the work and provide the source of the days in the work and provide the source of the days in the work and provide the source of the days in the work and provide the source of the days in the work and provide the source of the days in the work and provide the source of the days in the work and provide the source of the days in the work and provide the source of the days in the work and provide the source of the days in the source of the Black Silks, Velvets and Velveteens, Mantles and Jacets, French
