Why the Valve Jar is Superior to
all Others for Preserv-
ing Fruit.
1. Because it is the only one in which the con-
tents can be securely fastened, and cooked while
thus fastened, without risk of an explosion.
2. It is the only one that is Automatically Seal-
ed, therefore, the only Self-Sealing Jar in the
market.
3. It is so simple that no skill is required to use
it successfully.
4. It is securely fastened when placed in the
kettle, and being immersed, the fragrance of the
contents is confined in the Jar, a more perfect
vacuum produced and the handling of the hot jars
entirely avoided.
5. It is well known that fruit Jars which are
closed with rigid fastenings burst by fermentation,
and the effect upon the closet and surrounding is
well understood by many housekeepers.
The Cover of the Valve Jar being a perfect safety
valve makes an explosion impossible, and en-
tirely obviates every difficulty that exists in other
fastenings. For sale by
