Eruptions and skin diseases are a blot

These blots are actually blood blots. To cure them lotions and outward applications are useless. The blood must be cured, before the skin becomes clean.

That great medicine for the stomach and blood, Dr. Pierce's Golden Medical Discovery, is most effective in cleansing the complexion and healing diseases which defile and deface the skin. It acts directly upon the stomach and the organs of digestion and nutrition. It increases the action of the blood-making glands, and expels from the system the lurking poisons which defile the blood and through it deface the skin.

No alcohol or other intoxicant, no opium or other narcotic is contained in "Golden Medical Discovery."

It may pay a dealer better to sell you a substitute which is less popular but more profitable than the "Discovery." It won't pay you to buy it, if you want a substitute remedy.
