PENMANSHIP is an art necessary in all positions in life, but above all in the sounting house, and therefore merits the Commercial Students' closest attention. In the Commercial College it is taught in such a manner as to form a free, easy and rapid style of writing. Classes every evening from 7 to 9, (except Sundays.)

A. H. EATON,

WEDNESDAY EV'NG, JAN. 22, 1873. Rather an ugly rumor comes in our special telegram from Fredericton, regarding the recent interview of the Better Terms Commissioners with the Minister of Customs. It has been charg-Sign Painting ed over and over again that Mr. Tilley struction of the financial basis of the Confederacy, that his influence in and 47 Germain Street, out of the Cabinet has been steadily against disturbing the existing relations of New Branswick to Canada, and that he could not be depended upon to make the least exertion in our behalf. These charges have been indignantly denied Flour, Groceries & Liquors, by Mr. Tilley's friends, but they have had only Mr. Tilley's private assurancec as a basis for their denials, as no public

act-no, nor word-of his proves the charges unfounded. This rumor about the dissatisfaction of the Commissioners with his reception of them at Vanceboro is not at all agreeable to the friends and supporters of the Minister of Customs in St. John, and excites real anxiety. We feel that ow or never Better Terms must be obtained; we see the Government of the Province taking vigorous action and appealing to our members of Parliament to co-operate; and, knowing that the difficulties to be surmounted will be doubled by the lukewarmness of one of our Cabinet Ministers, we are alarmed at even a rumor affirming the truth of Mr, Tilley's alleged lack of enthusiasm

in the cause of Better Terms. The Board of Education of New Brunswick has done very much, under the new school law, to improve the system of teaching in the Province, and is yet working zealously in the cause. While laboring to secure uniformity in ssential matters it is apt to fall into the error of insisting on uniformity in all things, and thus cramping the powers and stifling the individuality-in which is the genius-of teachers by encompas-

sing them round about with cast iron rules and regulations. When properly qualified teachers are earnestly enlisted in the work of teaching they should be allowed the liberty of exercising their own judgment. If they have tact and judgment fitting them residence, Leinster street, nearly opposite they have take and judget they will always for their vocation they will always know how to manage the details of their duties better than any supervisory board House and Decorative Painter, can direct them. They should have liberty to use the appliances at their command in their own way, and in acordance with the requirements of the various classes under their charge, and the capacity of the various members of those classes. Thus can they profit by

esults from their labors. Our Board of Education should be careful then, in framing rules, to give them sufficient elasticity. It must not attempt to grind the individuality out of every teacher, as such a course will re-WE beg to thank our numerous patrons for their very liberal favors during the past ty years, and to assure them that we shall spare no efforts to meet their wants in future. Wishing all a most prosperous New Years.

HANINGTON BROS.
