

THE PRESIDENTCrisis of Missions.
Mission Work in Spain.
	S.S. Mission Work in Northern Ontario.
	Our duty to the Schemes of the Church.

For those who have attended the different meetings of the Society, a very interesting and profitable year has been spent, as the various papers and addresses have been unusually interesting. During the last two or three years the mission work of the church has been pretty thoroughly surveyed, and if we do not see the fruit of our labors yet, we feel we have been receiving a true missionary education. We go forward trusting that from such a bountiful sowing there will be in the near future a rich harvest.

ETTA MCKINDSEY,
