ONLY TABLETS MARKED
"BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

For Colds, Pain, Headache, Neuralgia, Toothache, Earache, and for Rheumatism, Lumbago, Sciatica, Neuritis, take Aspirin marked with the name "Bayer" or you are not taking Aspirin at all.

Accept only "Bayer Tablets of Aspirin" in an unbroken "Bayer" package which contains complete directions. Then you are getting real Aspirin—the genuine Aspirin prescribed by physicians for over nineteen years. Now made in Canada. Handy tin boxes containing 12 tablets cost but a few cents. Druggists also sell larger "Bayer" packages.

There is only one Aspirin—Bayer's. You must say "Bayer" Aspirin is the trade mark registered in Canada by Bayer Manufacturing & Monopolies Ltd. of Germany. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Bayer Cross is stamped with their general trade mark, the "Bayer Cross".

How Much Tobacco Will My Heart Stand

Question Vital to Every Man Who Smokes or Chews

MAY COST A PRECIOUS LIFE TO FIND OUT BY EXPERIMENT.

The heart of every user of tobacco bears a double burden. It does its allotted task and then fights nicotine for supremacy. As long as the heart wins the fight, when it loses he dies, but before that victory of nicotine you pass through many stages of decline and suffer many pangs. Heart is the human being—some are stronger than others; therefore, some bear more tobacco than others, but all stand on the same ground. The man who puts this additional strain on his heart a dozen times a day by smoking cigarettes, a pipe or chewing tobacco is taking a madman's chance with health and life to find out how much tobacco his heart will stand without serious results.

But the thought of quitting is unpleasant to most men—even to those who know that tobacco injures them—and to really quit takes more will-power than they have, and causes more suffering than they can voluntarily endure. To quit the habit make it easy for yourself by getting Nicotol tablets and taking them as directed. The habit really quits you, and its departure is a pleasure equal to its indulgence.

If you want to know how much easier it is to quit the habit with Nicotol than without it, go twenty-four hours without tobacco and note what an effort it costs you; then begin using the Nicotol and take Nicotol tablets. At the end of a week discontinue smoking or chewing for a day, and it is probable you will have no desire to resume. The next day the desire will be greatly diminished, and another week or two should make it not only possible, but a pleasure to quit.

Note—Dr. Connor, formerly of Johns Hopkins Hospital, under whose advice Nicotol has often been used, said when this statement was shown to him: "I have known Nicotol to conquer the tobacco habit in less than ten days, and I can therefore recommend it highly. When the doctor's statement was shown to one of our leading druggists he said: 'Nicotol is truly a wonderful remedy for the tobacco habit, may anybody who has ever sold before. We are authorized by the manufacturers to refund the money to every dissatisfied customer, and we would not permit the use of our name unless the remedy proved an annual merit.' Nicotol is sold in this city under an iron-clad money-back guarantee by all up-to-date druggists. (5)

ANNIVERSARY OF ST. ANDREW

The congregation of St. Andrew's Presbyterian church Hespeler celebrated the 64th anniversary of the church Sunday. Services were held both morning and evening and were very largely attended, especially the evening service, at which the congregation of the Methodist church was present. Rev. Capt. Little of Guelph assisted the pastor at the morning service, and in his remarks he referred to the congregation of the church 64 years ago.

The evening service was most ably taken by Rev. G.B. McLennan of Kitchener, while the Hespeler pastor took charge of the evening service at Kitchener. There was special singing by the choir, which was assisted by Miss Bushlin, who gave violin solos at both services, and at the morning service accompanied by Miss Black, who rendered a most beautiful solo. It was just 64 years ago that the Presbyterian church was started in Hespeler. With only a few members, services were held in the old building on Cooper street which is now known as the Salvation army barracks. Later the congregation built and occupied the church which is now occupied by the Roman Catholic congregation in which building they held their services until the congregation outgrew the church and the new edifice was erected, which has been occupied for the past ten years. Work on the present handsome church was started in 1907, but it was not completed until 1909.

A LEADER FOR THE SOUTH
From the Galt Reporter: "North Waterloo has started in earnest to equip itself with first class concrete roads. Several streets, Galt, Galt, Galt. The latest piece to be added links St. Jacobs and Elmira, the finishing touches having been added this week. It is 16 feet in width and is declared to be the best of its kind in the Province."

We may again remark that the St. Jacobs-Elmira stretch of concrete is one of the links between Galt and the northern town. The next big job along the route should be the link between Preston and Kitchener. What the northern part of the county is doing points the way to the people of the southern portion, especially those living along Waterloo's main highway."

MAYFAIR HOTEL IN NEW HANDS
The London Globe reports that Buckland's Hotel, Mayfair, has been sold to the Guards' Club, which also has purchased the entire furniture, contents, and equipment.

The hotel contains about 70 bedrooms, 30 bathrooms 15 reception rooms, and, says the London Times, is in every way up to date, having recently been the subject of a large expenditure on improvements and redecoration.

It has been established for over 160 years. In the early days it was called Lillyman's and later it became Pattison's.

JOHNNIE WAS LITERAL
Little Johnnie was discovered in the library, busily snipping away at the open dictionary.

"Johnnie," asked the father, "what in the world are you doing?"

"You see father," answered the bright and shining light of the household, "to-day at school teacher said there was no word as 'f' and 'l', and so I'm cutting it out of the dictionary."

RISKY
Counsel (addressing burglar)—"Do you mean to tell the court that you had no accomplices?"

Burglar—"No, yer honor. I had jobs like this a bloke never knows if 'is pal is honest."

DEEPEST LAKE IN THE WORLD
Lake Baikal is the great lake of Russia in more than one sense. It is the deepest in the world, one of the largest and besides it is, to the Russians, holy. The people who inhabit the region of Lake Baikal believe that both the lake and its surroundings are endowed with supernatural powers and inhabited by unearthly beings. All manner of weird tales mingle with their explanation of any feature of the lake.

Even so simple an object as a great rock lying in the middle of a river just where it flows from Lake Baikal takes on a mysterious significance. If this stone were to slip from place they say, the whole of Lake Baikal would pour out its waters and flood the river and probably the continent.

Yet, even without native interpretation, many things are strange about the great Russian Lake. One of Baikal's phenomena is a species of fish that inhabits the deepest part. These fish have been seen by few persons, for as soon as they are lifted out of the accustomed atmosphere of high pressure they explode.

Lake Baikal has played an important part in Russian affairs. It lies directly in the way across the continent, and before the railway was built around the southern end of the lake it had to be crossed by Siberian travelers going either east or west.

In summer steamers carried freight and passengers but in winter, when the lake was ice-bound traffic depended on a slow work of an ice-breaker—a steel ship that could cut ice four feet thick—and when the ice became too thick for the breaker sledges made the forty-mile trip over the ice.

During the Russo-Japanese War when troops had to be rushed from one end of the empire to the other Lake Baikal was a great empire to the other. Lake Baikal was a great obstacle to speed until the engineers laid tracks across the ice sheet and ran trains across it.

STRIKE MAY BE POSTPONED
WASHINGTON, Oct. 28.—Officials today pinned their hope of averting the strike of the bituminous miners called for Saturday on the meeting to-morrow in Indianapolis of the Executive Board of United Mine Workers of America.

This Executive Board has power to call off the strike or at least to order a postponement. Should President Wilson's appeal to the miners be heeded to the extent of postponement, the strike may be averted, for a postponement is expected to result in negotiations for a new wage agreement.

Bud, meaning a close friend or companion.

Eyewash, meaning humbug.

Fed up, meaning to have a sufficiency.

Funkhole, meaning government job.

Hot stuff, meaning an unscrupulous or formidable person.

Cut no ice, meaning to fail flat.

Movies, meaning moving pictures.

The pump, meaning outkick.

Strife, meaning vent of hatred.

Tophole, meaning feeling fine.

Umpteen, meaning an unknown number.

The wind up, meaning to show fear.

Old bean, meaning the head.

Bus, meaning an airplane.

Brass hat, meaning a staff officer.

\$20,000,000 TAKEN BY C.P.R.
TORONTO, Oct. 28.—It is announced to-day that the C.P.R. has taken twenty million dollars of this year's Victory Loan which is three millions more than last year. Employees of the road will also take another big slice. Reports from all over the province indicate the canvassers are working well and turning in subscriptions that augur well for success of campaign.

FOUR FEDERAL FARMER MEMBERS
OTTAWA, Oct. 28.—The election of three farmer members to the Federal house yesterday will give the farmers a small but compact group on the cross benches of the Commons, four in all with their leader Hon. T. A. Cramer. The new members may take their seats before prorogation which now cannot take place this week on account of Liberal opposition to G.T.R. Purchase Bill.

A Victory Bond is every bit as good as money in the bank and it pays more interest.

BY SCHELDING THE LIVER
DR. HAMILL'S PILLS
