

# CAMERA NEWS

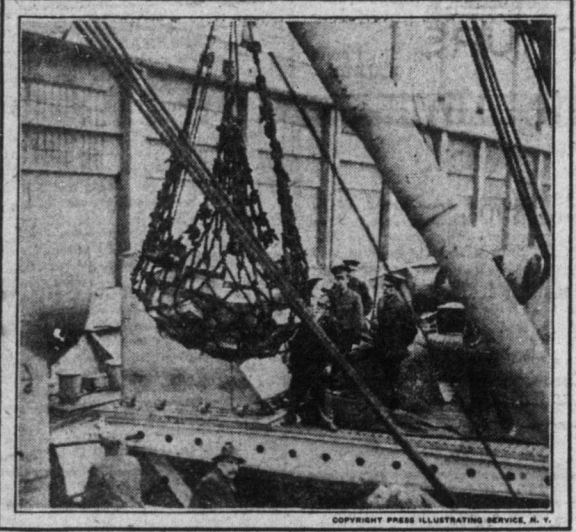

**VICE-PRESIDENT MARSHALL CAUGHT IN THE RED CROSS DRIVE.**  
Miss Sylvia Lyon of San Francisco pinning a Red Cross button on Vice-President Marshall as he leaves the capitol.

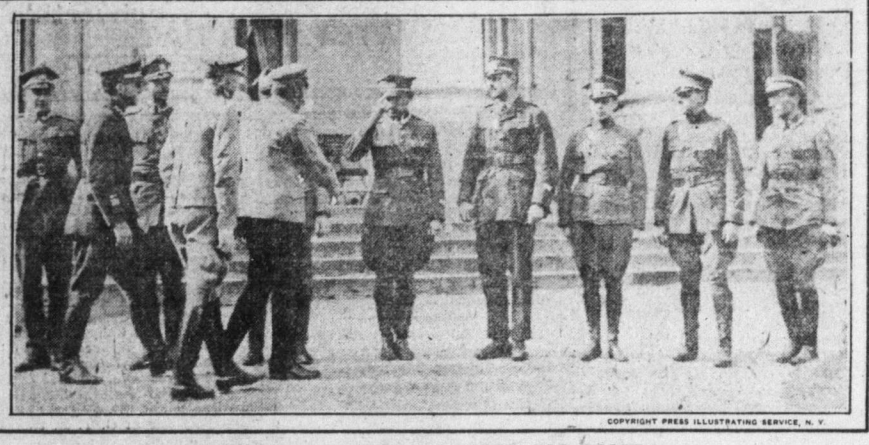

**DONATES TEN MILLION FOR MEDICAL RESEARCH.**  
John D. Rockefeller, Sr., who has just donated ten million dollars for Medical Research. His donation to humanitarian causes is said to amount to nearly half a billion dollars.

**ADMIRAL KOLCHAK WITH HIS FIGHTING TROOPS.**  
Admiral Kolchak reviewing his troops at Tobolsk, his headquarters in north Russia. Photo—Admiral Kolchak (in centre) Gen. Gaidon (on Kolchak's left) and chief of staff, Gen. Bogoslovsky (on right).

**FIRST CHRISTMAS SHIP OFF TO SIBERIA.**  
Loading the S. S. Marcia with candy and cigarettes, movie machines and books, etc., for the fighting doughboys in Siberia. She will sail through the Panama Canal and stop at San Francisco—then on across the Pacific to arrive in plenty of time for Xmas. She is sent by the K. of C.

**FLYING YANKEES TO FIGHT FOR POLES.**  
A squadron of ten American aviators, all "aces," from pretty nearly every part of the U. S., has recently made its appearance with the Polish Army on the Ukrainian front. Discharged from the A. E. F., they did not like the idea of returning to their humdrum life known before the war, and decided Poland offered the best opportunities and the strongest appeal.  
Photo shows General Pilsudski welcoming the Kosciuszko Squadron into the Polish army. They are: Polish Liaison Officer with Squadron—Lt. Edwin Noble, of Boston, Mass.; Lt. Carl Clark, Tulsa, Okla.; Lt. George M. Crawford, of Wilmington, Del.; Chief of State of Poland, Gen. Pilsudski; Aide de Camp to Gen.; Capt. A. H. Kelly, Richmond, Va.; Maj. Cedric E. Fauntleroy, Chicago; Capt. Merian C. Cooper, Jacksonville, Florida.

**ADMIRAL, BARON AND BREEDER OF THOROUGHBRED CATTLE.**  
Admiral Beatty, of England, who has just been made a Baron, has always been interested in farming and the breeding of thoroughbred cattle, and his stock has won many ribbons at the English fairs. This photo shows the Admiral and his wife at the recent sale of some of his red Shorthorns at Brookby Hall his Leicestershire seat. They are at the side of the sales' ring listening to the bidding.

**FOUR LITTLE VOYAGERS IN QUEST OF GOOD HEALTH.**  
This male quartet of hardy sailors is now about to favor the audience with rollicking sea songs about "sailing over the ocean blue." But their ship, the old ferryboat Rutherford, is bound only for the Port of Keeping Well. Her course is charted around the Cape of Fresh Air, through the straits of Good Food and out into the high seas of Plenty of Sunshine. The open air school to which they belong is conducted the year round on this abandoned boat anchored at the foot of the Williamsburg Bridge, Brooklyn. It is maintained for the children who come from homes in which there is danger of tuberculosis.  
These sturdy little citizens and their schoolmates are among the reasons why the National Tuberculosis Association is anxious to make this year a banner year in the sale of Red Cross Christmas seals. The goal is set for more than \$6,500,000 to be obtained from the sale of the stickers to carry on the life-saving work.

**PRINCESS MARY OF ENGLAND.**  
Snapshot of Princess Mary leaving the royal yacht.

**MOVIE STAR AND HIS CHILDREN HAVING A GOOD TIME.**  
Ernest Truex, the star of the Paramount-Truex Comedies, enjoys a bit of domestic comedy on his own lawn, with his sons, Philip and James (with glasses), and all three seem to be having an equally happy time.

**THE GREAT LONDON TO AUSTRALIA FLIGHT BEGINS.**  
They're off to Australia in the longest and most hazardous air journey yet attempted by the Birdmen, and the pilot who first flies over the Sahara Desert and reaches the land of the Kangaroo may rest on his laurels for some time to come. Something like thirteen hundred miles of this journey is over swamps and land inhabited only by wild beasts and snakes, and woe betide the flyer whose engine "stalls" anywhere in that section of the world. Here we have the Sopwith machine, piloted by Captain Matthews.

**COAL MINERS TALKING IT OVER.**  
With little else to do these striking miners are discussing the industrial conflict near Mine No. 4 at Kerry, Pa.

**REMNANTS OF THE GERMAN FLEET ANCHORED IN KIEL HARBOR, GERMANY'S FORMER GREAT NAVAL BASE.**

**FIRST POLISH MINISTER TO UNITED STATES.**  
Prince Casimir Lubomirski, first minister from Poland to United States, photographed with his family just before they left the steamer in New York.

**BOLSHEVISTS DESTROY RARE TAPESTRIES IN RUSSIA.**  
This photo, just received from Russia, gives one some idea of the vandalism of the Bolsheviks in that country. This rare and valuable tapestry has been ruined, just as the "Reds" have mutilated everything of value they could lay their hands on.
