Winnipeg, B.C., June 25, 1925.

Right Honorable Arthur Meighen,  
House of Commons, Ottawa.

My dear Mr. Meighen:

We were all greatly disappointed at the action of the Senate regarding the Home Bank Bill for the relief of the depositors.

If there is anything you can do to assist in new legislation which may be introduced into the House this session so that the depositors may get the small amount of relief, which the House of Commons, apparently, is disposed to grant them, it will be greatly appreciated by all our friends here.

Yours truly,

*S. Bonnell*
