Ottawa, May 5th, 1932.

Dear Mr. Reid,-

I have your letter of the 4th instant. You will have observed that for the present at least we do not propose taking any steps with respect to Senator Haydon. This position was forced on us by the most authoritative information as to his present condition of health. I felt I had to absolutely decline to be responsible for anything in the way of results from further drastic action. I will, however, read all these additional notes you have been good enough to send me, and thank you sincerely for them.

Yours very truly,

Robert A. Reid, Esq.,
Kent Building,
