I HUNG CHANG

China's Grand Old Man Has Reached the End of His Career.

Trouble of Long Standing Swiftly Brought Death.

Pekin, Nov. 7 .- Li Hung Chang died at 11 o'clock this morning. He had been unconscious since yesterday morning. From that time every moment was expected to be his last, with the exception of a slight rally at midnight. His family had installed native doctors in charge of the patient, the regular physicians having refused to attend him unless the Chinese doctors were dismissed.

At 9 o'clock last evening the burial clothes were put on. The courtyard of the yamen was filled with life size paper horses, and chairs with coolie bearers, which his friends sent, in accordance with Chinese custom, to be buried when he died in order to carry his soul to heaven. Several ministers of the powers called to express sympathy.

The wife of Earl Li and his two sons and daughter were with him and Chinese officials thronged the yamen. Telegrams have been sent summoning Prince Ching, who is now on his way to meet the court, and Chou Fu, provincial treasurer, from Pao-Ting Fu. The former will assume the general charge of governmental affairs, and the latter will act as governor of Chi-Li until Li Hung Chang's successor in that office, who will probably be Yuan Shi Kai, is appointed.

He threatened Shanghai and caused the native merchants to raise money for defense, and to engage an American named Ward to lead the force against the rebels. This was the beginning of the Ever-Victorious army, which "Chinese Gordon afterward commanded. With the keenest of observation which distinguishes him, Li Hung Chang, learned to recognize the superiority of the foreigner in the field. He therefore joined with Ward's force, and the combined army did excellent work against the Taipings. In 1862, Li was appointed governor of

A series of events led to the appointment of Gordon as chief of the Ever-Victorious army, and with him Li had several skirmishes over the barbarous treatment of prisoners. the famous occasion of the treacherous murder of the Wangs. Gordon's grief and anger were unbounded. "On Li," says Dr. Douglas,

whole strength of Gordon's condem-nation rested, and in the first moment of rage, armed with a rifle, he went to La's boat, determined to execute summary justice. Gen. Chang, had seen enough of Gordon's state of mind and hurried off to warn him. Li took the hint. With all speed he left his boat, and fled to the city, where he succeeded in hiding himself, though Gordon sought him day and night. After a time Gordon cooled down and gave up the chase, and it speaks well for Li that in spite of his ig-nominious flight he afterwards felt the greatest respect and affection for the man who had taken so practical a method of showing his displeasure a

AS AN ADMINISTRATOR.

The rebellion came to an end on July 19, 1864, and Li had then plenty of opportunities for exercising those administrative powers which he possesses in so marked a degree.

"He at once," Dr. Douglas says, "set about encouraging the natives to return to the towns and villages, and he appealed to the throne to grant a remission of three years' tribute to the harassed and impoverished peo-

Peace did not last long, and later on the Nienfel refellion broke out. Li again proceeded against the enemy, but with little success, and in 1868 was degraded for apathy. Fortunately he was shortly afterwards able to repor a decided victory, and was given back his yellow jacket and other honors. He was appointed viceroy of Chihli, and became the most powerful states-

THE MEANING OF "FIASCO"

Barrister Geo. U. Martin Defines His Position and Issues a Challenge.

hreatens to Let Someone in for Buy ing the Cigars for the Male Portion of the Whole City.

To the Editor, The Planet. This Italian word-Fiasco-which really and properly means something ridiculous, a fake or humbug, has through the original controversy between Mr. Marx and Mr. Patterson, assumed colossal importance.

word is generally used regarding some performance, play, or opera, and is thundered into the ears of the unfor tunate performer who fails or breaks down. This is the definition given in the Universal Dictionary of the Engligh language—a huge work of four volumes. Mr. Marx used the follow-ing expression: "It is unfortunate that the Pan-American turned out a financial fiasco." Mr. Patterson took exception to the word 'fiasco.", as not being the proper word in that sen-tence. Well, I believe friendly cigars were bet, and the discussion left to The Planet-a very high authority. 1 read the decision of The Planst, which was in favor of Mr. Marx. Now, I assumed the temerity to not only beard The Planet lion in his den; the Marx in his hall, but to actually contradict poth. The Planet very courteously published my definition of the word "fiasco." I clearly snowed I think, that Mr. Marx was wrong, and I am fully prepared to satisfy any scholar but himself that what I urged is correct. Marx was not satisfied but appealed to Caesar, The Monetary Times. The Monetary Times was invoked, like old Baalam, to curse my argument and definition, but behold! It blesses them altogether. The question was most unfairly and cunningly put to The Times, with the view to obtain a reply favorable to Mr. Marx. Who ever said that this word was "unjustifiable and ungrammatical" in "unjustifiable and ungrammatical" in the sense used by Marx? I certainly never did. In The Planet I said quite the opposite, viz.—"The word. 'flasco' may be proper technically speaking, but it is not well chosen!" These are my words and I will stand by them, even if I have to play Sam-son and pull down the whole temple. son and pull down the whole temple of Literature. My whole contention was and is, that while perfectly correct, grammatical and justifiable, the word "fiasco" was not well chosen

not the word that a scholar of ele-gant diction would either speak or write in the sense used by Mr. Marx. Will Mr. Marx join issue with me as to this? I am ready for him. The good Apostle Paul tells us that many things are lawful that are not expedient. Mr. Marx is surely scholar enough to know that among literary men there is such a thing as the choice of words and expressions quite outor grammatical; and the word "fias-co" was just the word to leave at side of their home in the expression used by Mr.

Marx.

Suppose your child was sick unto death, and you called in all the leading physicians and trained nurses at attend it, but the darling died. Would it be an elegant or well chosen ex-pression for your neighbor to say next morning—"It is a pity that the skill and services of the doctors and trained nurses turned out a fiasco?" This would be justifiable and grammatical, but would any gentleman of education and literary refinement use this harsh, ridiculous word in this sense? But on the other hand, suppose Marx, Vanderbilt and Rocke-feller put up a job to corner the mon-ey market, and, failed in their little scheme, and lost a million dollars each, what then? Why, The Planet and Banner-News could come out and Banner-News could come out next morning with big headings— "Great Financial Fiasco. The Money Bugs in a Hole," etc. Here the word is used exactly in its natural element and to "the manner born," In referring the question to The Times, Marx entirely begs the question, so that the decision of the Times decides but very little, and this little is dead against Marx. It is not a question, Whether the word is justifiable or grammatical as used by Marx, but whether it is well chosen. No need to go to The Mone-tary Times. Mr. Marx always heads where there is even the sound or smell of money. In upholding my contention. I am willing to leave it to the head master of the Collegiate Institute, Judge Bell or Col. J. B. Rankin, B. A. If the decision is against me. B. A. If the decision is against me will put up the cigars to all the smok ers in Chatham. But there must be no quibbling or jockeying with the question at issue. It will be simply this—Mr. Marx affirms that in the "The Pan-American was sentence, "The Pan-American was a financial fiasco," the word fiasco is well chosen and appropriate.

Mr. Martin denies this and says that

either the words "failure" or "loss" is the more appropriate and better chos
