They make up the item of life. But the virtue that conquers passion, And the sorrow that hides in a smile:

smile: It is these that are worth the hom-age of earth. For we find them but once in a

while.

******************* The Upward Look The Power That Transforms

The Power That Transforms. He that loveth not, knoweth not God; for God is love, -1 John 4, 8. Sometimes we may be tempted to think that there is little use in our attempting to please God because it is hopeless for us to even try te un-derstand His objects and motives. It is true that God's ways are beyond our comprehension. It is well that such is the case. But it is equally true that God is a God of law and order. God dees not work in a hap-hazard way Instead, He employs great, immitable laws that are con-stantly working themselves out in our lives whether we recognize the fact or not. not.

One of the greatest of these is the law that we become like that which we constantly think about. If we centre our thoughts on the making of money we soon become hard and grasping in our dispositions. If we associate with people who mock at God and pay heed to what they say we sooner cr later will adopt their at-titude. If however, we think of Christ constantly and of his loving kindness, patience and forbearance, we steadily are transformed into the same image. Our faults, one by one, drop away from us and our characters grew bet-ter and stronger. If we will but open or eyes and study the lives of others will be supried to as our own, we working out of this haw can be seen. If, therefree, we occupy our minds with thoughts of God the spirit of God which is the spirit of love, will soon enter our hearts and manifest itself in our lives. Thus it is easy for us to know if we are truly serving and trusting God, for, if we are, we our ables, will be loving and kind. If how is now ident is not in lives that we toknow is our text, that we know not God. Low is a power that will

love is not evident in our lives then we know ho our text, that we know not God. Love is a power that will transform our lives if as will but let it. Let us therefore recegnize this greet has and steadily concentrate our threads on the purpose of serv-ing and helping others. Thus we will find God.--LH.N.,

Ind God. - I.H.N., THE COOK'S CORNER Heripes for publication are requested. It is a wavened upon request, to the household Editor, Farm and Dairy, Peterboro, Oat.

DELICIOUS CRANBERRY PUDDING DELCIDITS CRAINBERRY PUDDING Take 1 cupful of sugar, 1 cupful of sweet mik, 2 cupfuls of flour, 3 tablesponful of saw cranberries, 2 tea-spornful of soda. Mix and bake like loaf cake in brick form. When cold, slice and serve with cream sauce. For cream sauce, mix 1 cupful of cream and ½ cupful of sugar with the beaten white of one egg; beat un-til light; add ½ cupful of cranberry jelly. Cut jelly lightly through cream, leaving it in little lumps, which gives a pretty effect.

PRUNE SALAD

PRUTE SALAD Wash and soak a peund of large prunes for three hours. Then cook until tender and after they are cool pit them and stuff with English wal-auts. Street 3% pound of lettuce, make a nest of the lettuce and on this put 3 or 4 of the stuffed prunes, Cerror, This makes a delicious salad and will serve ten necelle. and will serve ten pecple.

ROAST HAM

BOAST HAM Select a small fresh ham. Have the butcher remove the bone. Wash and scrape till nice and white; cut deep gashes on the outside. Rub in-side and out with salt, pepper and sage. Make a dressing as for turkey, using plenty of oysters; fill the ham; sew it up and place it in a hot oven. Roast from four to six hours, accord-ing te the size. This is a substitute for turkey, and one can hardly tell the difference. DUMENT MOUTT

OATMEAL BISCUIT.

OATMEAL BISCUTT. Soak I cup rolled oats in hot milk for I or 2 hours, then add I cup flour, I teasp. sait, 2 tablesp, sugar, I ta-Llesp, butter, I teasp. soda and 2 teasp. cream of tartar. Roll out and cut with a biscuit cutter, and bake in a quick own. more trat

CHERRY FLOAT.

Thicken the juice from a qt. of stewed and sweetened cherries with cornstarch, dissolved in a little of the cold jelly juice. Boil a few minutes, then Add the juice of a lemon or or-ange, and when cool pour over the cherries in a serving dish.

For a Refractory Machine

Our seving machine had lecome so hard to work as to be almost useless. After repeated oiling which brought little or no improvement, I removed the head, plunged it into holling wa-ter for a few minutes, dried and oiled, and it has been running like a new machine ever since.—Mrs. L. Bullard
