How to Sell Building Material

The Ideal Concrete Block Machine makes blocks at a cost that permits the underselling of all other building material.

Offer the builder a material absolutely weather and fireproof superior in appearance and durability to brick, stone or lumber; lower in cost than either, and sales will make themselves.

That's why most manufacturers of Ideal Concrete Building Blocks are working on advance orders.

IDEAL CONCRETE MACHINES

Their rapidity of operation produces building blocks at the lowest possible cost. Embody the only principle (face down) permitting the practical use of rich facing material with less expensive material in back of blocks.

Adaptable as to size of block and countless designs of face and natural stone effect.

Wonderfully simple. No chains, springs or gears.

Catalogue and fortune making facts on application.
