

Like the Keystone in the Arch

Correct lubrication is as important to your motor car as is the Keystone to the arch. Without correct lubrication your motor will not last or give you the full service built into it by the maker.

Imperial Polarine is the ideal winter lubricant for all motors. It lubricates freely, even at low temperatures—is fluid enough to flow between rubbing parts of the most delicate mechanism—preventing friction, minimizing wear and efficiently lubricating.

Correct lubrication by means of Imperial Polarine means a smooth running motor, instant acceleration and dependable power. By using Imperial Polarine you get more miles per gallon of gasoline, have fewer repair bills and use less oil. Every ounce gives full lubrication value.

Three grades for cylinder lubrication

IMPERIAL POLARINE	IMPERIAL POLARINE HEAVY	IMPERIAL POLARINE A
<i>light medium body</i>	<i>medium heavy body</i>	<i>extra heavy body</i>

each the same high quality, but formulated specially for varying engine designs.

There are also special Imperial Polarine greases for transmission and differential lubrication.

Imperial Polarine is sold in six sizes—half-gallon, gallon, and four gallon sealed cans, 12½ gallon steel kegs and half-barrels and barrels. You can get the grade best suited for your car from dealers everywhere.
