PUZZLES.

- 1 If your B mt put : but if your B. put
ting :
- 2 My first is a letter of the alphabet,
My second is an ancient weapon of war.
My whole is a part of the body.

ACROSTIC.

Spring-time has come! the melted snow
Pours down the hill with rapid flow;
Rich voices warbling far and near
In rapture tell us spring is here!
Nature to life it does restore,—
Gladly we welcome spring once more.

J. LAWSON.

I had a dream the other night,
When every thing was still;
I dreamed that each subscriber
Came up and paid his bill.
Each wore a look of honesty,
And smiles were round each eye,
As they handed over the stamps
They cried: "How's that for high?"

A ladies' sleeve-link,—a gentleman's arm.
Twenty shillings worth of Pork,—a Guinea
Fig.

PUZZLE.

My first is served sometimes as liquor,
To please the appetite;
Sometimes in speech 'tis given,
Mixed up with spleen or spite.
My second is what all has got,
Some more, some less, yet always growing;
We work or play, it carries not,
But swiftly on us all keeps flowing.
My whole a dainty morsel makes
When rightly served. Few but partakes.

There always will be opponents to any
new undertaking. We regret to find some
parties have endeavored to throw censure
on us for using the word "we." But ac-
cording to the custom of papers devoted
to the interest of a class, and belonging
strictly to that class, the editor is entitled
to use the term, when advocating the cause
of his patrons. Those who have intended
to turn such expressions to read person-
ally when intended for the class they re-
present, are at least attempting our injury.
Be careful whom you believe!

How do you swallow a door? Bolt it.
Where did the Witch of Endor live? At

Why should a fisherman be rich? Be-

Alaska is well defended; there is a shiver
de freeze all around it.

If a ton of coal comes to three dollars,
what will half a ton come to? Ashes.
A young man's affections may not be
wrong, but are sure to be miss-placed.

Where did the cock crow so loudly, that
all the world heard him? In Noah's ark.

What lives in winter, dies in summer,
and grows bottom upward? An icicle.

Why is a grain of sand in the eye like a
schoolmaster's cane? Because it hurts the
pupil.

Why do girls kiss each other, and men
do not? Because girls have nothing better
to kiss, and men have.

HOWARD'S IMPROVED
IRON HARROW.

THIS Harrow is superior to all others, because it
is the most complete. It covers 14 feet of land.
It leaves the ground finer, works freer, and adapts
itself to uneven land. It does not bend, and chokes
less than any other Harrow. It is so constructed as
to draw either end. The teeth being so set as to
tear the ground up to a good depth, or to pass light-
ly over the surface, as the teeth are beveled on one
side. It can be worked with a span or three horses,
or it may be unjointed and worked with one or two
horses, in one, two or three sections.

They are giving entire satisfaction.

Price of Harrow complete, with three sec-
tions, treble-tree, and two coupling-trees, \$35.
