

HEADACHE

Seems To Be Habitual
With Many People.

Some are seldom, if ever, free from it, suffering continually and wondering why they can get no relief.

Headaches are generally caused by some derangement of the stomach or bowels, or both.

Burdock Blood Bitters removes acidity of the stomach, improves digestion, regulates the constipated bowels, and promotes a perfect circulation of pure blood to all portions of the body, thereby curing the headaches by removing the cause.

Mrs. L. Maguire, Kinmount, Ont., writes:—"I am writing you a few lines to tell you what your Burdock Blood Bitters has done for me. I used to be greatly troubled with headaches, but after using two bottles of Burdock Blood Bitters I was completely cured. This was two years ago and I have had no return of headache since."

Burdock Blood Bitters is manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

GOSSIP.

For the forthcoming annual London, England, Spring Show of Shire Horses, to take place the last week in February, 700 entries had been received by the Secretary up to the first of the present month, as against 641 in 1911, an increase of 59. Stallions are increased by five; mares by forty-four, and geldings by ten. Entries for the auction sale are 382, as against 328 last year.

PARK MAINS CLYDESDALE SALE.

The dispersion sale of the famous Clydesdale stud of Wm. Taylor, Park Mains, Renfrew, Scotland, February 6th, rendered necessary owing to the state of the owner's health, was very successful. The highest price of the sale, 1,600 guineas (\$7,795), was given by James Boyd, Carskley, Campbelltown, for the four-year-old stallion, Sir Rudolph (16086), by Sir Hugo, out of a Baronson dam, James Kilpatrick being the runner-up. The noted premium horse, Sir Dighton, also by Sir Hugo (by Sir Everard), sold for 860 guineas, to James Kilpatrick, Craigie Mains. Among the three-year-olds, the best price was 560 guineas, given by the Northern Stud (Ltd.), for Sir Basil (16070), by Sir Dighton. The highest for a two-year-old colt was 255 guineas, for a son of Sir Hugo, and the highest for a mare was 86 guineas, for a four-year-old daughter of Latherisk Baron. Fifty-four head all told, averaged \$565.

CLYDESDALES AND SHORTHORNS BY AUCTION.

On March 7th, as advertised in this issue, will be sold by auction at the farm of W. W. Hogg, Thamesford, Ont., a station on the C. P. R., 14 miles east of London, 12 recently-imported Clydesdales, 8 fillies and 4 stallions, personally selected, described by the Scottish Farmer as a superior shipment in size, quality and breeding, sired by such high-class horses as Baron Lomond, by Baron Ruby, by the renowned Baron's Pride, Royal Edward, by Baron's Pride, dam by Prince Romeo, by the famous Prince of Wales 673; Pride of Blacon, by Baron's Pride; Baron Beaulieu, by Baron's Pride, etc. Included in the offering is the splendid four-year-old H. & A. S. first-prize mare, Royalette, reserve for the Cawdor Cup at Inverness last year, sired by Royal Edward, which beat the world-renowned Baron of Buchlyvie in the showing when they were two-year-olds. Another mare, three years old, by Baron Lomond, is a granddaughter of the \$1,000 horse, Mont-rave Mac, whose daughters are among the best breeding mares of the day. One of the colts in the sale is out of the dam of the famous Royalette above referred to, and was sired by the 900-guinea Prince Thomas. Others of the fillies are by Dunure Gallant, Hillhead Chief, and Prince Shapely, which was first both at the Royal and the Highland Shows, out of a mare by the famous Prince Sturdy, by Cedric, by Prince of Wales.

EXPLOSIVES ON THE FARM.

No class of men appreciate the value of labor-saving devices in this twentieth century more than do farmers. It has been found that explosives do many kinds of work which ordinarily would take a great length of time, in a moment. They serve as one of the cheapest methods of ridding soil of stumps and rocks. Many boulders could never be removed if it were not for their use. They aid in removing some of the greatest obstructions to cultivation. They can also be used in removing rocks from wells in course of construction, in digging drains, and drainage is important to every farmer. It is also claimed that they are useful in planting trees, making the digging much easier, and roadmaking is another of their many uses. See the advertisement in another column, and write the Canadian Explosives, Limited, Montreal, Que., for their little booklets and full information.

How Much Does it Cost By the Year?

The first price of a cream separator is no basis for figuring its cost. Suppose you paid \$2 for a pair of shoes which, with \$1.00 worth of repairs, lasted 12 months, making an average monthly cost of 25 cents. At another time, you paid \$3 at the start, only 50 cents for repairs, and the shoes lasted 24 months—an average cost of less than 15 cents per month. Which was the better buy?

The same principle holds good in cream separator buying. You may pay a low price at the start—but such a separator will need frequent repairing—and won't last. The cost per year will be double that of a good separator.

I H C Cream Harvesters

Dairymaid and Bluebell

are famous for their durability. They skim close and run easy for years. They are built for long, hard, steady service. Here are some of their advantages:

Milk and dust-proof gears which are easily accessible—a feature found on no other separators; a patented dirt-arrester which removes the finest particles of dirt before the milk is separated; frame entirely protected from wear by phosphor bronze bushings; large shafts, bushings, and bearings.

I H C Cream Harvesters are made in two styles—Dairymaid, chain drive, and Bluebell, gear drive—each in four sizes. Let the I H C local agent tell you all the facts, or, if you prefer, write nearest branch house for catalogues and any special information you desire.
