LEST WE FORGET

TO PLACE ON
EXHIBITION
AT

The Great Industrial Fair in Winnipeg,

Opening on the 10th inst., anything in the way of Dairy
Machinery you may wish to examine, call at our address,
two or three doors from Ogilvie's office on King street.

OUR "Alexandra"
"Melotte" MACHINES

will be on view and open to competition in actual work with
all comers. We shall also show some of the latest inventions
in our industry, and altogether will have an exhibit well
worth a trip to Winnipeg, even if there was nothing else to
see. We best serve ourselves by serving the public well.
That is our motto, and thousands of testimonials like the
following prove it is a good one.

R. A. LISTER & CO., LIMITED,
232 KING ST., WINNIPEG, MAN.

Messrs. R. A. Lister & Co., Ltd.:

DEAR SIR:—I have much pleasure in stating that the No. 4 "Melotte" Cream Separator, which I
have used since May, 1898, has given good satisfaction. We milk 30 cows, and before we got the
"Melotte" we had a No. 8 "Alexandra," which we had used for five years. This machine gave good
satisfaction, cost almost nothing for repairs, and suited us very well while we milked about 15 to 20
cows, but the time required to separate the milk of 30 cows was from one to one and a half hours,
whereas with the "Melotte" the time required is less than one half that time, and no more power is
required to run the separator. A lot of trouble is saved by its use. We had the skim milk tested several
times, and the average fat content of fat left on the skim milk was about 9%. The machine has cost us
nothing for repairs, and has expenses been small. I send my cream to S. M. Barre's factory in Winni-
peg, and found the "Melotte" was just the machine to suit my purpose. The first cost of the "Melotte"
somewhat staggered me, but I am well satisfied with the investment. J. B. LAVOIE.

PLEASE MENTION FARMER'S ADVOCATE.

NO INSTRUMENT IS MORE POPULAR
IN CANADA TO-DAY THAN THE

**Bell
Piano**

AND THERE IS NO BETTER TO BE HAD.

BUILT TO
LAST A
LIFETIME.

THE ORCHESTRAL ATTACHMENT RENDERS
POSSIBLE THE EFFECT OF SIXTEEN DIFFERENT STRINGED INSTRU-
MENTS. IT IS USED ONLY IN THE "BELL." SEND FOR FREE BOOK-
LET, NO. 40, IT TELLS ALL ABOUT IT.
