

if able," said Mr. Wilber; which last was a sad truth. How many daughters might be of use to their fathers in this and many other ways who never think of lightening a care or labour! If asked to perform some little service, it is done at best with a reluctant step and unwilling air that robs it of all sunshine or claim to gratitude.

Girls, help your father. Give him a cheerful home to rest in when evening comes, and do not worry his life away by fretting because he cannot afford you all the luxuries you covet. Children exert as great an influence on their parents as parents do on their children.

**LITTLE BY LITTLE.**

If you are gaining a little every day be contented. Are your expenses less than your income, so that, though it be little, you are constantly accumulating and growing richer every day? Be contented; so far as concerns money you are doing well.

Are you gaining knowledge every day? Though it be little by little, the aggregate accumulation, where no day is permitted to pass without adding something to the stock, will be surprising to yourself.

Solomon did not become the wisest man in the world in a minute. Little by little—never omitting to learn something even for a single day—always reading, studying a little between the time of rising and laying down at night; this is the way to accumulate a full store-house of knowledge.

Finally, are you daily improving in character? Do not be discouraged because it is little by little. The best men fall short of what they wish to be. It is something, it is much, if you keep good resolutions better to-day than you did yesterday, better this week than you did last, better this year than you did last year. Strive to be perfect, but do not become downhearted as long as you are approaching nearer to the high standard at which you aim.

Little by little, fortunes are accumulated; little by little, knowledge is gained; little by little, character and reputation are achieved.

**THE FOLLOWING PROFIT results**

in this Association will be of interest to intending insurers:  
Policy No. 618, issued in 1872, at age 30, for \$1,000 on the All-life plan. Annual premium \$20.80.

At the Quinquennial Division on the close of 1876, the holder elected to take his profits by way of TEMPORARY REDUCTION of Premium, and has had the benefit of the same.

This Policy-holder will, at the ensuing Quinquennial Division, after the close of the year 1881, have a TEMPORARY REDUCTION the ensuing five years \$9.78, EQUAL to 46.81 cent. of the annual premium.

The cash profits for the five years are \$48.63, equal to 41 per cent. of the premiums paid during that period.

The cash profits if used as a PERMANENT REDUCTION would reduce all future premiums by \$8.68, equal to 12.68 per cent. of the annual premium.

The above unsurpassed results are the profits for the SECOND FIVE YEARS of the policy.

The next Quinquennial Division takes place, as early as possible after close 1881.

**THE TONTINE INVESTMENT POLICY** of The North American Mutual Insurance Company combines in one form the greatest number of advantages attainable in a Life Insurance Policy. It appeals at once to the intelligence of all who understand the principles and practice of Life Insurance.

All Policies whether on Life or Endowment Rates, are subject to no higher charge in Premium Rates, in taking the "Tontine Investment" form.

The extra benefits of this are conditioned only upon continuance of the Policy for a certain specified term or Tontine period of ten, fifteen or twenty years, selected by the insured himself.

Two things most desired in Life Insurance are the certainty of protection in early death, and profit in long life. These are combined in the "Tontine Investment Policy" of the North American Mutual Life Insurance Coy., which also issues Annuities and all the ordinary approved forms of Life Policies.
