

Goodyear in every Corner of the World

Wherever you will find the automobile, there also you will find Goodyear Tires. Every continent, every clime has its Goodyear organization. Goodyear is cosmopolitan—its branches sense the whole world's markets as completely as the nerves sense the whole human body.

Consider what World-Wide Goodyear means to you and every purchaser of tires.

A Growth Based on Better Values
Though Goodyear Tires are sold in every country in the world, they are nowhere the lowest-priced tires. Yet Goodyear sales are higher than any other single brand of tire. Motorists the world over have realized that Goodyear gives greater value in the end—gives a lower cost-per-mile on all roads, in all countries.

World-Wide Sales Lower Overhead Costs
Goodyear's vast market is helping to lower Goodyear prices in the same way as it increases Goodyear values. Big production gives every scope for lowering overhead costs in manufacture. Money-saving machinery, co-ordination of processes, skilled specification, have been fully developed in Goodyear production.

Organization Means Lower Material Costs
From whatever source Goodyear draws its supply of materials, there a Goodyear man is on the spot, able at any time to keep us in touch with market conditions, so that we can buy the best materials to the best advantage.

Laboratory Tests Build Better Tires
Because Goodyear has a World-wide market, we can maintain laboratories and skilled scientists without adding in any marked way to the selling price of Goodyear Tires. They make Goodyear a uniformly better tire. Yet the high expense is borne throughout a world market—the individual motorist does not note the difference, except in better quality.

A Prestige that Must be Maintained
Such a world market, such a universal prestige, as Goodyear Tires have won is a double assurance to tire buyers. It is a prestige that must be maintained by continued high quality.

Along the roads of every country you will find places marked by this emblem. It is the sign of the Goodyear Service Station Dealer. He will help you get better service from your tires in many ways. He will inspect your tires and advise you as to the need for and value of repairs; see that your tires are properly inflated for the load you carry; test your wheels for alignment; show you the advantages of more modern rims, of inside tire protectors, of our Tire Saver Kit, including all things necessary to meet tire trouble on the road; supply you at once with Goodyear Tires, Tubes and Tire-Saver Accessories.

GOOD YEAR MADE IN CANADA TIRES

Goodyear Tires give lower cost-per-mile. Goodyear Tubes make good tires better. Goodyear Tire-Saver Accessories take the anxiety out of motoring. All are easy to obtain from Goodyear Service Station dealers everywhere.
