

### THREE KNEE WOODEN BOBS.

We build these to meet the popular demand for a thoroughly reliable article at a fair price.

There is nothing cheap about them in any respect.

**WOODWORK**—Choice second growth stock throughout; runners have special bend, made to go through snow lightly; height from top of bolster to ground, 21½ inches; size of knees at shoulder, 1 x 2.

**IRONWORK**—All braces, T's, etc., are made extra strong and serviceable.

**PAINTING**—Carmine, nicely striped.

**SHAFTS**—We can supply bobs with or without shafts, as ordered. When shafts are ordered we supply them as illustrated above. These are made very substantial and of choicest material.

**NOTE.**—Furnished regularly to fit body measuring 36 inches inside.
