GREAT PAGEANT OF THE EMPIRE

Most Wonderful Spectacle Ever Witnessed on the Streets of Old London.

An annex to the main entrance to Westminster Abbey is in course of erection. In the seating arrangements the plan is the same as that was adopted at King Edward's Coronation in 1902. There will therefore be no fixed seats, but the nave of the Abbey will be furnished with new chairs of Chippenhale pattern upholstered in silk. These the users of them will be given the opportunity of purchasing as memen-toes. The Earl Marshal's Office has been besieged with applications for permission to be present from all sorts and conditions of people. Peers and Peeresses have a prescriptive right to attend, but even these will be excluded if they have not asked for and

received permission to attend.,

The Earl Marshal has received applications for permission to be present at the Coronation next June from over 100 Peers and Peeresses with the ceremony in 1962. There are no fewer than 28 new Earls and Countesses, and the remainder is made Countesses, and the remainder is made up of Poers and Peeresses who have succeeded to the family title, and of these who have had new Peerags conferred upon them.

It is the desire of his Majesty the the overseas dominions should take prominent and distinguished part if the Breat State pageant, and at the

present time the question is boing considered whether some special act in the consecratory ceremony cannot be entrusted to the representatives of Canada, Australia, South Africa and New Zealand. Every one of the countries mentioned, as well as India, Newfoundland, and practically every portion of the Empire, will be more adequately represented both in Westminster Abbey and in the royal procession through the streets of London than has ever been the case before. The officers of the Home District Command, who have been made responsible for the military arrangements, are making provision for the accommodation of some 3,000 soldiers, representing every part of the King's dominions abroad. Five hunsinged deficers and men are going from India, 600 from Canada, over 300 softom Australia and other parts of the Southern Hemisphere, while such Bouthern Hemisphere, while such Hong Kong and other far-away outposts of civilization will be fittingly represented. It is to be the greatest pageant of Empire yet seen in London. The navy, the home army and the Territorials are also to be represented by the biggest force ever concentrated in the Metropolis, and for their accommodation the Royal Parks will be covered with military encampments. In addition to carrying out the Internal arrangements at the Abbery, the Office of Works has the task before it of erecting stands along the line of route of the Coronation procession between Buckingham Palace and Parliament square.

CONCERT HALLS HONORED

An unprecedented feature of the Cor-tation year will be the introduction of concert hall performances by Royal ommand. Male Royalties have visited ondon music halls privately, but the all-mark of Royal patronage has never there bestowed upon the vaudeville

response to a petition signed by ing vandoville managers the King Queen will "command" a perform-when they visit Edinburgh after foronation ceremonies. It is stated other eggacements preclude a

RITES AND GEREMONIES

Many Chief Actors in Edward's Coronation Have Passed Away

As far as the rites and ceremonies of the Coronation are concerned, the precedent of 1902 will be strictly followed. In that particular respect the duties of the Earl Marshal and the Lord Chamberlain have proved much lighter than they were eight years The greatest changes that will ago. The greatest changes that will be noted in the pageant that attends the Coronation of King George and Queen Mary will be in the dramatic personae. Of the chief actors in the personae. Lord Salisbury and the Duke of Devonshire have been gathered to their fathers, and among others who figured largely in the brilliant spectacle of eight years ago, and who have gone over to the majority, are the late Lord Derby and the late Barl Spencer—two of the four Knights of the Garter who held the canopy for the King's annointing. Many others who played a prominent part in the public life of a decade ago will next June be found absent, and the exigencies of political life will have forced many others into the background.

Queen Mary is Fond of Music, is a Great Reader, and Follows Events Attentively

Sir Clement Kinloch-Cooke contributes to The North American Review a sympathetic character sketch of her Majesty Queen Mary. Intended mainly for American readers, it will be read with pleasure by Canadians generally, Her Majesty, says Sir Clement, has a very retentive memory.

Once she has mastered a subject, it seldom goes out of her mind, and months afterwards she will astonish once she has mastered a maject, it selected to the midd, one selected one of the midd, one selected to the midd of the mode, the first streets of those of the first streets of the mode, and the selected to the middle properly represented. Those of George IV. Were Once Sold at Phillips' Rooms

It is a fact, generally forgotten, that the Coronation robes of George IV., which, it has been suggested, his Majesty King George V. may wear at the coming ceremony, were once sold at auction. With other official costumes of George IV. they were "put up" at Phillips' auction rooms in Bond street in 1831.

Phillips' auction rooms in Bond street in 1831.

The magnificent Coronation mantle of purple velvet was sold as "Lot 95" for a paltry \$275, though it was probably worth \$1,500 at least. Another splendid crimson velvet Coronation mantle, which, according to the auctioneer, cost \$2,500, brought on the same occasion \$235.

Other items on the catalogue were "the Coronation ruff of superb Mechlin" and the Coronation coat, waist-coat, and trunk hose.

And these sumptuous vestments—or most of them—passed into the hands of Madame Tussaud, though it is extremely doubtful if they were ever allowed to grace a wax figure.

A "Coronation" Engine. A "Coronation" Engine.

To mark the completion of the 5,000th engine constructed at the London and North-Western Crewe works, a leviathan locomotive is being built, to be christened "Coronation." It is to cost over \$20,000 to build, and its horse power will be about 1,200. It is expected that the engine will be ready in June, and will be used for the train by which the King and Queen are to travel by the West Coast route on their visit to Wales.

Pictorial Representation.

Pictorial Representation.

In view of the acceptance of two new historical paintings for the Royal Exchange, the suggestion is again forthcoming that a few of the vacant panels might be devoted to pictorial representations of episodes in the reigns of Eing Edward and King George V. King Edward paid several visits to the city which could be commemorated in this way, while the Royal progress of King George at his Coronation would obviously provide a Asing subject.

GLASGOW'S CELEBRATION

At the Glasgow Corporation meeting at which plans were made for celebrating the Coronation, the Lord Provost explained that it was proposed to carry out arrangements similar to what was followed at King Edward's Coronation. The idea was to give a dinner to about 20,000 poor in the various parts of the city, that the children and their teachers should receive a medal, and also that the children should have a day in the Exhibition instead of the Children's Day in the parks. It would be quite in keeping with the usual circumstances that the Corporation should possibly have a banquet, and that there should be a reception on some evening for a large number of citizens. It was not intended to go to a very large amount of extrayagance, but they would require to celebrate the Coronation in keeping with the dignity of the
