

Smart Stylish Fur-Like Sets

FOR aristocratic appearance it is difficult to get a fur that gives such beautiful, radiating tones, as the real, Black Persian Lamb, but how many persons can afford to wear this superb fur—it is only within the reach of the wealthy—just imagine, a man's Persian Cap costs from fifteen dollars upwards—no wonder that manufacturers are compelled in self defence to copy this excellent fur. Here is an imitation black Persian Lamb

Muff and Throwover

that only an expert can tell from the genuine fur. This set as illustrated is made to resemble the real

fur, and is lined with silk-thread, knotted wide fringe—not the common kind but a rich quality that blends artistically with this superb imitation of real Persian Lamb.

To appreciate these sets see them to-day. Prices as illustrated a set \$6 and \$7. We have similar sets without fringe.

Prices \$3.30 and \$3.70.

BOLINDER'S

DIRECT REVERSIBLE CRUDE OIL ENGINES.

First in 1893 Foremost in 1914

Built in sizes from 5 B.H.P. up to 320 B.H.P.

Nearly 100 vessels fitted with Bolinder's Engines for towage in the British Isles, the object of Messrs. Bolinder's design being for large Propellers at low revolutions and consequent efficiency. As an example mention might be made of the "MIRI" (160 B.H.P.) which tows regularly at sea a 1500 Ton Tank Barge.

The Bolinder will run light indefinitely without any load whatever, and without any recourse to the Blow-lamps.

The Bolinder will run at any load down to a speed which only enables the engine to just turn over, this manoeuvring is carried out by a special device which entirely does away with the necessity for the Blow-lamps.

Bolinder Engines reverse in under 3 seconds—according to the power of the engine—and what is more reverse without a failure and without a strain on the crankshaft.

Report of Committee to draft Resolution re Legislative Council and Loggers' Bill.

The Committee appointed to consider the action of the Legislative Council in throwing out the Loggers' Bill at last winter's Session of the Legislature, submitted the following resolutions.

Resolution in reference to the throwing out of the Loggers' Bill by the Legislative Council.

Catalina, Nov. 18, 1914.
Mr. President.—The Committee appointed to draft resolutions in reference to the refusal of the Legislative Council to pass the Loggers' Bill introduced by you at the Winter's Session of this year's Legislature, have considered the matter and beg to submit the following resolutions for the approval of the Supreme Council.

WHEREAS the Union Party, through Mr. Coaker, introduced a Bill in the House of Assembly last February providing for the food and accommodation of loggers, which Bill received the unanimous support of the whole Assembly,

AND WHEREAS the Bill was received with such contempt by the Legislative Council that it did not receive a second reading, chiefly because of the wire pulling and lobbying of an agent of one of the Companies employing a few loggers,

AND WHEREAS the Legislative Council, without due consideration and without regard to the fact that the measure passed the Lower House unanimously in a form which was approved of by the largest employers of loggers, ignored completely the efforts of the Fishermen's Union to gradually improve the condition of the toilers and the fact that almost half of the electorate declared in favour of the Union's aims in this regard, at the elections which took place last November.

BE IT RESOLVED that the thanks of this Convention are due President Coaker for introducing the Loggers' Bill and to the Members of the House of Assembly for the unanimous support which they accorded it, AND that this Convention respectfully ask President Coaker to re-introduce this Bill at the next Session of the Legislature.

RESOLVED that this Convention place on record its condemnation of the action of the Upper House in treating the Loggers' Bill with such contempt, and its censure for refusing a second reading to a measure which had passed the Lower House without a dissenting vote.

RESOLVED that this Convention of the Supreme Council of the Fishermen's Protective Union strongly endorse the attitude taken by President Coaker in reference to the action of the Upper House in refusing to consider the Loggers' Bill and that it record its determination and decision to do all in its power to bring about the abolition of the Legislative Council and call upon every Union member to assist in this matter until that useless and anti-democratic arm of the Legislature is extinguished, and that the will of the people as represented by those elected by the people and responsible only to the people, be permitted to prevail absolutely.

RESOLVED, that the following petition be signed by members of this Council and forwarded to the President for presentation in the House of Assembly.

To the Honorable House of Assembly in Legislative Session Convened:

We, the undersigned toilers of Newfoundland, representing two hundred and six Councils of the Fishermen's Protective Union, numbering over twenty thousand members, respectfully pray that your Honorable House will be pleased to pass for the second time the measure known as the "Loggers' Bill," which your Honorable House was pleased to pass unanimously last winter but which was gutted by the Legislative Council. And as in duty bound your petitioners will ever pray,

Signatures:
After due consideration it was proposed by friend Jacob Quinton, seconded by friend George Mercer and resolved that the Resolutions be adopted.

For Sale! Motor Boat F.P.U.

Built for R. H. Silver, Esq., at their premises, Greenspond, in 1912. Used by President Coaker the last two summers during his cruises North.

Boat is fitted with a 27 h.p. Fraser Engine, which has given splendid satisfaction. The boat is 40 feet long and 9 feet wide, and would make an ideal mission boat.

She contains sleeping accommodation for four, and tanks for 250 gallons of fuel. Nineteenth of the fuel consumed by the engine is Kero oil.

The reason for selling is, the boat is not large enough for the purpose she is now used for.

The boat cost about \$1800, and is well fitted in every respect. She is provided with sails. She would make a fine boat for collecting bait or for fishery uses.
