SECONDARY EDUCATION AND THE CATHOLICS

(Continued from Page 1)

of Engineer Smith, passed without opposition: (1) That the offer of Mr. H. Antiknap to sell the west half of the north east quarter of 7-13-18, W. 2nd M., containing eighty acres for \$25 per acre, amounting to \$1,840, be accepted in order to permit an extension of the waterworks system and also in order to acquire part of the land upon which our present reservoir stands.

(2) That the City Engineer be instructed to extend the core wall on the south side of the reservoir dam two hundred feet, said wall to be built ten feet deep and varying from eight inches thick at the bottom to twelve inches thick at the top, the work to be done by day labor under the superintendence of Inspector Brimacombe at an estimated cost of \$600.

(3) That the City Engineer be instructed to prepare the necessary plans and specifications for the construction of another compensation basin, to be built on the north half of the north-east quarter of 34-17-13, W. 2 M., of one million gallons capacity at an estimated cost of \$11,000 and that the City Clerk be instructed to advertise for tenders therefor.

(4) That the City Engineer be instructed to prepare the necessary plans and specifications for the construction of an additional compensation basin to be built at the power house of five hundred thousand gallons capacity, at an estimated cost of \$7,000, and that the City Clerk be instructed to advertise for tenders therefor.

(5) That the City Clerk be instructed to advertise for the necessary iron pipe and incidental required for the construction of the waterworks system this year according to a quantity sheet to be supplied to him by the City Engineer.

Appointment of Building Inspector.

The report of the Fire, Light and Power Committee recommending the appointment of George E. Evoy as fire inspector and inspector of buildings at a salary of \$1,500 a year was subjected to considerable criticism.

As the result of questions put by Mayor Smith and Ald. Thomson, Ald. Bail, the chairman of the committee, admitted that the position had not been advertised. He had, however, he said, made it generally known and had personally made enquiries, with the result that he had come to the conclusion that Mr. Evoy was the man for the job.

His Worship thought that if the position had been advertised in the usual manner that they would have got a number of good applications.

Ald. Thomson did not think the position was worth a larger salary than that paid to the health inspector. He objected to the large salary proposed.

Ald. Gillespie said that he had been employing Mr. Evoy at \$5 a day.

Ald. Feyerherz—By the year round? Ald. Gillespie—By the day.

Continuing, Mr. Gillespie said that Mr. Evoy was a good man and well worth the money. He had offered him \$1,200 a year to work for him.

The appointment was finally agreed to with an amendment calling upon Mr. Evoy "to perform such other duties as the Fire, Light and Power Committee may designate from time to time," and making the appointment a monthly one "at the pleasure of the council."

Health Report.

The following report of the Health and Relief Committee dealing with the municipal hospital scheme, passed without discussion:

(1) That \$100,000 be raised by debentures to be expended on the building and equipping of a General Hospital in addition to the sum expected to be realized from the sale of the present hospital and site on block 128, Regina, when transferred to the city by the directors of the Regina Victoria Hospital, as well as in addition to any sum which may be granted for that purpose by the Provincial Government and that the City Solicitor be instructed to prepare an agreement of sale from the hospital directors to the city as well as a by-law in accordance with this resolution to be submitted to the burgesses to be voted upon on Thursday, 16th May, 1907.
