

FORGET NOT YOUR FATHERS

The Tercentenary of the Foundation of Canada by Champlain, A Memorable Occasion.

The following address on the tercentenary of the founding of Quebec was recently delivered by John W. Huggill before the Anglican Young People's Association at Calgary.

This year one momentous in the life of a young nation, will be celebrated the tercentenary of the foundation of Canada by Champlain, in the year 1608.

Great actions and striking occurrences, having excited a temporary admiration often passes away, and are forgotten, because they have no lasting results affecting the welfare of the community. Such is frequently the fortune of the most brilliant military achievements. But there are military achievements that sometimes create a new turn to human affairs, transmitting their consequences through ages.

Among the battles which have throughout history fixed the fate of nations, will rank that of the Plains of Abraham. This historical event marks the birth of a new nation, a nation which we citizens of this Dominion are proud to belong, and call ourselves Canadians.

Another important event is the defeat of the American invaders under Montgomery and Arnold, by Carleton commanding the French and English forces in 1775. The inscription which Arnold was repulsed is indeed significant as marking the fusion of the old combatants in one unity of citizenship. As is fittingly inscribed on their memorial:

Here stood
Her old and new defenders
Uniting, Guarding, Saving
Canada.

Again in 1838, the first Canadian contingent for the South African war embarked at Quebec, and later, in 1905, His Excellency Lord Grey unveiled the statue to those Quebecers and they were many who died.

"For Empire, Canada, Quebec,
Not by the power of commerce, art
or pen
Shall our great Empire stand, nor
has it stood;

But by the noble deeds of noble men,
Heroic lives, and heroes' outpoured
blood."

Can their deeds receive a more eloquent tribute?
This year then is one which points out, more than any that has passed, the growing national character of the people of the Dominion.

How is the spirit of a free people to be formed, animated and cheered, but out of the storied past of its historical recollections, and it is to nationalise these historical events that an association has been formed to endeavor to raise money estimated at \$2,000,000 for the purpose of buying the old Plains of Abraham, or as much of the land as can be so purchased, and raising fitting memorials to the nation, marking places of historical interest to be handed down as a national heirloom.

What emotions must agitate the breast of the citizen as he visits these scenes, reminiscent of the brilliant achievements of the great heroes Wolfe and Montcalm, and all that such names can associate with an honorable past.

How his heart must go out in thanksgiving to the founders of our Dominion, to whom we owe not only this great inheritance, but the present security so necessary to its enjoyment.

The very blood of those high-souled, unselfish citizens, heroes calls us from the barricades of Saul to the battle of the Marston, it calls us to the heart moving eloquence: "My sons, forget not your fathers."

So, as members of a national church, as citizens of this coming metropolis of the west, we have now a signal duty, one which requires no eloquence to animate, one which will find a ready response in the hearts of all lovers of this country, a duty to use our best endeavors as far as our means will permit, to contribute to the funds which are being subscribed in every part of the Dominion to achieve the objects of the Quebec Battlefields association.

This done, and though it has been so feelingly written, "the historic ground thus secured to the nation is more to the whole vast bulk of Canada, than the flag is to a man-of-war, yet, like the flag, it is the sign and symbol of a people's soul," that beacon which is to be our guide, yet, and our children's guide to a glorious future.

A man's future is more clearly indicated by his past than by his palm.

The Gopher

As a pest almost nothing can equal the gopher if allowed to run riot. With judicious use of strychnine, however, the farmer need not dread him.

The best way to use the poison is as follows:
To one-half ounce of the strychnine crystal add a couple of tablespoonfuls of vinegar. Allow to stand for a short time with frequent stirring. Then add from one to two quarts of water. Bring this to a boil, and keep there until the crystal is dissolved. Then add brown sugar to sweeten, and enough wheat, chop or oatmeal to soak up the liquid.

Place a small quantity of this mixture a short way down in the gopher holes. The best time to put out the poison is at night after the gophers have gone in, so that he comes to it first thing in the morning while he is hungry.

In case of accidental poisoning by strychnine the following course should be pursued.
First, send for a doctor.

Second, keep the patient quiet.
Third, give a teaspoonful of mustard stirred up with water followed by large draughts of warm water. Give powdered charcoal if obtainable.

Fourth, to relieve spasms, give about as much Chloral Hydrate as you could put on a tea cent piece, or about two teaspoonfuls of Bromide of Potassium dissolved in water.

Sleeping Draughts and Soothing Mixtures

A wise mother will never give her little one a sleeping draught, soothing mixture or opiate of any kind except on the advice of a competent doctor, who has seen the child. All these things contain deadly poisons. When you give your baby or young child Baby's Own Tablets you have the guarantee of a government analyst that this medicine does not contain one particle of opiate or narcotic, and therefore cannot possibly do harm—but always do good. Mrs. Geo. M. Kempf, Carleton Place, Ont. says: "I have given Baby's Own Tablets to my baby since he was two weeks old. He was a very small thin baby, but thanks to the Tablets he is now a big, fat, healthy boy." Sold by medicine dealers or by mail at 25 cents a box from the Dr. Williams Medicine Co., Brockville, Ont.

General News.

Ottawa, May 1.—The report is current here tonight that instructions have been sent to Lieut.-Gov. Jettie to refuse to Premier Gouin the dissolution of the Quebec legislature for the present.

Sir Wilfrid Laurier is afraid of a Conservative success in Quebec, which would militate against the chances of the Liberals in the Dominion campaign, and he therefore wants the provincial campaign deferred until after the Federal elections.

Lishon, Spain, May 1.—A sensation has been caused here by the arrest of Dr. Braganca, a grocer by the name of Mendis, president and treasurer, respectively, of a political society, which organized the demonstrations at the graves of Buica and Dacosta, on the charge of complicity in the murder of King Carlos and Crown Prince Luis. Their accusers is a shopkeeper, who declares that Dr. Braganca bribed him to throw a bomb at the royal carriage. The informer was confronted by Braganca and Mendis and reiterated his accusation. Braganca angrily repudiated the charge, and became so excited that he fell into a fit and had to be removed to a hospital. Republicans

Count Tolstoi thus sums up his anticipation of death in reply to a friend who congratulated him upon his approaching eightieth birthday. "The earthly life," he said, "is a dream, and death is the true awakening."

He awakes that awakening with happiness. Elaborating on this idea he says: "In our earthly life one dreams of another and more real life and in that other life, one dreams of another idea, and so of ad infinitum, even to the last life, the life of God."

Of death at different ages and under different circumstances, he says: "Death in youth is as when man is awakened before he has slept full measure. Death in old age is as when man awakens of his own accord after a good sleep. Suicide is as a nightmare which man banishes by remembering that he is asleep. He makes an effort and awakes."

say the prisoners were trapped by the police. The demonstration was merely identical with those held at the graves of all the society's members. It was greater than usual because the government did not allow Buica and Dacosta to be buried at the society's expense. Dacosta was the man whom the police mistakenly killed, thinking he was one of the regicides. Buica was one of the actual assassins.

Fredericton, N.B., April 30.—The provincial legislature was opened this afternoon by Lieut.-Gov. Tweedie, who, in a speech from the throne referred to the great increase in exports from St. John during the winter, and the visit of Earl Grey to the province. Outlining government legislation he said that an act would be introduced providing for an independent audit and complete investigation of provincial railways, new highway act and workmen's compensation act.

Vancouver, B.C., May 4.—A Charles who arrived from the north tonight, brought news of a phenomenal sea strike on Ingenika river, where a gold find was reported last fall.

Condit brothers who had several years ago operated on Tom Creek in the Oninaca district, went late last autumn to the new diggings. It is declared they found gold in paying quantities on the Ingenika from grass roots.

Ottawa, May 4.—R. L. Borden, leader of the opposition, presided at a meeting of the Anglican laymen here today. They tendered luncheon to Sirs MacEwan and the Rev. Canon, belonging to New York. He has been in England in connection with the Anglican laymen's missionary movement, which is now arousing so much attention throughout the United States and Canada, and after speaking twice, in Montreal came on here.

Montreal, May 4.—The cotton manufacturing business of Canada is at a standstill, the spinners of the Dominion Textile and Montreal Cotton companies' various mills going on strike against a reduction of ten per cent in the wage scale. The spinners at the Valley Fields mill of the Montreal company did not appear for work today, while the spinners in all the mills of the Dominion Textile Co. have also quit. Some little work is done in other departments, but as the spinners are the mainstay of the establishments, this can last but a short time. This means that in a week's time or less some seven thousand hands will be idle.

Melbourne, Australia, May 3.—Referring today to the visit of the American fleet to Australia ports, Sir Wm. J. Lunn, minister of trade and customs, who is treasurer of the reception fund, said the bulk of the expenditure would be on the sailors. "We are determined," he said, "that they must leave with a good impression."

A circular letter has been sent out to all hotelkeepers of Saskatchewan granting them an extension of time in which to make extensions to their premises necessary to comply with the law, as the government believes that in the majority of cases the accommodation will meet demands.

There was blood, thunder and direful calamity breathed into a letter from a love sick swain to his sweet Joey a day or two ago and which the morning the writer was called before Magistrate Turner to tell why he penned such torrid lines to the young lady. Alexander Aird is the defendant and the young lady is Joey McLeod, employed in one of the dining rooms of one of the city hotels. Alexander professes a tender feeling for the young lady and he would indicate that he was encouraged, but another stepped in, a youth, Campbell, by name, to Joey saying that he would surely slay his rival at which the young lady became very much afraid and held herself within doors, anxious lest a tragedy should be enacted in her name. Last evening the letter was shown to the police and Aird
