### IT ISN'T YOUR TOWN-IT'S YOU

"If you want to live in the kind of a tow Like the kind of a town you like You needn't slip your clothes in a grip And start on a long long hike. You'll only find what you left behind For there's nothing that's really new. It's a knock at yourself, when you knock your town.

It isn't your town it's you."

"Real towns are not made by men afraid, Lest somebody else gets ahead When everybody works and nobody shirks You can raise a town from the dead. And if when you make your personal stake Your neighbor can make one too, Your town will be what you want to see It isn't your town it's you.

One of the best agents for filling the poor house is a charge account. Paying cash puts a constant check on buying while a charge account encourages reck-less purchases. It's so easy to buy and "have it charged", but when the day of reckoning comes it is not so easy to settle the bill, and many a conscientious merchant is accused of adding to the bill simply because the customer cannot realize all his moments of past foolish-

Friendship-yes

WHILE ties of friendship unite Canada and the United States, the attitude of Uncle Same is that of "Business First", and Canada cannot and should not hope for any consideration from the United States where the interests of the farmers and business people of that country are involved.

Uncle Sam has built the Fordney Tariff directly against Canadian agriculture, and new additional Tariff proposals are now under consideration to shut out from the United States Canadian goods of every kind.

These measures are due to the insistence of the American farmer that the United States market shall be retained exclusively for him and that the influx of Canadian farm products into that country must cease. They are also due to a like insistence of United States manufacturers and workers, who have seen their country develop tremendously and grow rich under a Protective Tariff, and who believe that a still further increase in Tariff is the only means of

Minard's Liniment Co., Ltd.

Gentlemen—I have used Minard's Liniment and have found it a good remedy. After the explosion I was pretty well shaken up having quite a number of bruises and cuts, but thanks to Minard's Liniment I am my old self again. It healed the sores and bruises and gave me much relief. It is true to its name as the King of Pain, for it stopped the pain almost at once. I first noticed the ad in the Montreal Standard and decided to invest in a bottle, for which I am not sorry, but can asy with truth that I am thankful for it having done all it claimed to do, and in may case much more, and a satisfied customer is the best ad one can possibly find. I hat is my view of it and I think you will agree with me too.

Yours very truly, (Signed) ALFRED BLAIN, 184 Agricola St., Halifax, N. S.

of both agricultural and manufactured products of the United States when there is not the slightest possibility of any compensative advantage to Canada.

### WILL POUR INTO CANADA

Washington, Nov. 2.-Increased imnigration into western Canada from the agricultural population of the middle west and northwest states of this country is expected to be marked in the next year or two and, perhaps, for a longer period. This is the view of officials and others who are familiar with conditions as be tween the U. S. and Canada.

The agricultural depression in this country has fallen with an especially neavy hand on the tenant farmer and the farmer who owes a heavy mortgage Many a farmer bought high priced land in the boom in the middle west some months ago and now, with prices of proucts flat, finds himself unable to meet nterest and taxes.

One might suppose that the result ould already be a heavy movement of nmigration into the new lands of This movement is on to some extent, but what is interfering with it just as an actual fact is that many men on no U. S. farms who have gone broke in the after-the-war slump in prices and credit, are too poor to move themselves and their families to Canada. A large number of U.S. farmers and farm laborers who want farm land of their own will be found an indefinite time to come working at whatever they can find to do in order to accummulate enough to pay railroad fare and set out for Canada.

Thinking officials and authorities or agriculture in this country regret to see competent farmers and farm workers leaving the U.S. but they declare migration into the dominion is omething inevitable. 图图 图图

advantage to Canada.

Does any sane Canadian believe that Crerar or King, hat in hand, could persuade the United States Government to completely reverse its Tariff policies and agree to reciprocal trade in face of American public demand for a high protective Tariff?

The people of the United States conduct their affairs and protect themselves by the principle that "Business is business." Why should Canada do otherwise?

Unlike Crerar or King, MEIGHEN stands firm for a reasonable Tariff to protect all our industries — those of the farm, the sea, the mine, the forest, the factory, and for the building up of a bigger and better Canada through the full development of the home market. FRIENDSHIP WITH THE UNITED STATES? YES, BY ALL MEANS! let us defend our home market, our industries, our farms, our work-men, our homes by the same methods as are used so effectively against us.
