the sick child by forcing him to swallow nauseous oils and mixtures. Children dread these remedies, and this leads them to hide the little ills until serious trouble results. Most of childhood's troubles originate in constipation and disorders of the stomach. To correct these conditions you will find nothing better than **Chamberlain's Tablets**

One tablet at bedtime will do the work and make your child bright and sunny the following morning. The liver is stimulated, the stomach cleansed and the bowels purified—safely and gently. Little folks appreciate them.

### NEW AMUSEMENT TAX BARS OUT DEAD HEADS

Beginning October 1, with the enforcement of the amusement tax, "dead-head" in the local theatres will be a thing of the past, according to the provisions of the Act, the regulations for which have been approved by the Minister of Finance. Hon. John Hart, after a lengthy conference with Mr. Gordon chief censor of the moving pictures.

The feature of the act which does away with "dead-heads" leaves no latitude for the exercise of discretion on the part of the proprietor, as it prohibits him from allowing any person, other than the bona-fide employees, to enter his place of amusement for the purpose of witnessing a performance unless a tax is first paid. This, it is believed, will apply to members of the police force and other uniformed officials, to say nothing of representatives of the press, and many others who have been wont in the past, to stroll past the door-keeper without passing in a ticket, by virtue of their friendliness with the management or in exchange for advertising space.

It is understood that the plan adopted calls for two series of tickets: one the regular admittance ticket, the other the ticket representing the tax. A patron of a theatre or other performance which comes under the operation of the Act will have to pay for two tickets: at the box office. Separate receptacles will be placed at the entrance, into one of which will be deposited the house ticket, and into the other the tax ticket. The treasury Department will supply the tax tickets to the proprietor of the amusement house in quantities of not less than \$20 in aggregate value, and a discount will be allowed to the amusement place proprietor, varying from ten per cent on the price of the low-priced admittance to three per cent on those which apply to the high-priced tickets. This discount will, it is believed, reimburse the proprietors for the extra trouble in making the collection of the tax. The proprietors will be called upon
