#### BONUS BY-LAW. TEA TABLE GOSSIP.

St. Mary's & Western Ontario Railroad Extension.

### A Divided Vote Which May Defeat By-law.

(Special Despatch to the Times.) St. Mary's, Ont., April 13 .- The bylaw to bonus the St. Mary's & West-

ern Ontario Railroad to the amount of \$20,000 by each township was sub-mitted yesterday in Blanshard and Osborne and was defeated in Blan-shard by 18 and carried in Osborne by 80, according to incomplete re-turns. "These two townships must be settled with first before the pro-posal is submitted in the western township." said Treasurer Rice, of the railroad company, to the Times. "The by-law can be submitted again if the people wish within a month and it is probable it will as the campaign of enlightenment will be carried on in the meantime, but if again defeated the scheme will be killed," said Mr. Rice. The road is already being op-erated from Woodstock to St. Mary's via Funbro and the continuation to of \$20,000 by each township was sub via Embro and the continuation to Sarn would open up a large portion of Ontario not yet touched by a rail road and connecting as it does with the C. P. R. line to Toronto and the west would be a boon to the people. The reason for the defeat of the acceleration of the defeat of the by-law, in the opinion of Mr. Rice, was to be found in the fact that a large number were uninformed as to the agreement with the company.

#### Concerning Man Who Looks With Scorn Upon "Classical" Music.

Scarcely a man could be found who would admit that he thought far more of a common lithograph than he did of a fine oil painting. Yet scores of people consider that the paltriest mu steal jugies are more pleasing than what they scornfully call "classical" nusic. Indeed, they rather plume themselves upon their ignorance. No man, however, unnusical, would ex-press himself in this extraordinary manner if he knew anything about the music he so decries. What he lacks is music he so decries. What he lacks i education and the privilege of hear ing that music until he becomes fan education and the privilege of hear-ing that music until he becomes fam-iliar with it. Unless a piano virtuoso is in the home the chance of hearing good music are exceedingly limited. But in these days anyone may have the piano virtuoso known as the An-gelus. It is the pneumatic piano-play-er brought to its highest perfection Not only does the Angelus play the motes, but the operator has at his fin-ger-ends special devices whereby he can secure all those beauties of phras-ing and expression that can be pro-duced by the greatest artists. The melodant, phrasing lever and the mel-ody buttons make the Angelus a thing of life. For the Canadian market the Angelus is sopplied by the firm of Gourlay, Winter & Leeming as an in-terior part of the Gourlay piano. No finer instrument than the Gourlay can be found, alike for tone, quality and durability. The Gourlay-chance, the situ street and see it for yourselves. It will surprise you.

A New York booking agent is selecting the acts, and as he can promise six weeks to the performers he will have no trouble in getting the best. The outlook for the Hamilton Exposi-tion being a success grows brighter every day. The citizens are beginning to real-ize that it will be a big affair, and the management is being congratulated on all sides for the enterprise that has already been shown. Work has been progressing rapidly at the park, and over 200 men are employed there at the pre-sent time.
