tional one which the Globs would make it appear to be, and that the people of OntarioJara very much interested in the increase of traffic upon our canals, not only because the carry-ing trade is largely in their hands, but because the trade is of national importance. Mr. Henshaw's appeal to our contemporary to rise above "envy and sectionalism," and to "view such a question in a purely patriotic light," is, we are afraid, made in vain. Our contemporary never refrains from sectional-ism, sectarianism, or any other ism in which there may be hope of political capital. It has faith in such tactics, because they have occasionally served its purpose. If they should ever so serve again it will be the fault of the electors. the electors.

One of the novel features of the present gitation in Ireland is the widespread hostilty which is being aroused against emigration America, once the hope of the peasant and to America, once the hope of the peasant and the panacea for all his ills. "An Irish emi-grant," who arrived in New York some six weeks since, in search of peace and pros-perity, writes to the Sun to complain that he finds, like the party in the play, that "the villain still pursues him." The villain is in his case neither a Saxon nor a landlord, but his own kith and kin. His brother turned him from the door as a recreant who had de-serted his country in her hour of need. Several cousins treated him in a similar way for similar reasons, and a Spartan maiden. for similar reasons, and a Spartan maiden, who had been his sweetheart at home, cover-ed him with reproaches as a degenerate son of the sod. He found himself "Boycotted" at the sod. He found himself "Boycotted" at his boarding-house and his place of employ-ment, and as a last resort he carried the story of his grievances to that great consoler—the press. The letter wears an air of improha-bility, but if it be a burlesque, it is a bur-lesque upon a sentiment that actually exists.

Cable despatches report that the Duke of Richmond has been nominated to the position of leader of the Conservative party until a accessor to Lord Beaconsfield has been chosen. The noble Duke is Lord President of the Council, and has long been highly es-teemed by both parties in the House of Lords. He is, moreover, an experienced statesman, having filled the offices of President of the Board of Trade and President of the Poor-Law Board in former Conservative Administrations. Circumstances combine to increase the difficulty which the Conservatives will meet in selecting a new permanent leader. Both the Marquis of Salisbury and Lord Cairns are members of the Upper House, and as such would be outside of the fight. In the Commons Sir Stafford Northcote and Sir R. Cross are quite unequal as debaters to A. Cross are quite unequal as depaters to Messrs. Gladstone, Bright, Forster, and Har-court, and the election of either of these Con-servatives could in no way strengthen the party. The choice is practically narrowed down to the Marquis of Salisbury and Lord Cairns, and despite the ability displayed by the latter as a law-lord and debater, it is tolerably certain that the former will be asolerably certain that the former will be se-

The development of cotton manufacturing and other industries will, we trust, soon afford an ample field for French-Canadians in the Dominion. Hitherto they have been compelled to migrate to the Eastern States to find employment in factories. The Amer-icans confess that they are indefatigable icans confess that they are indefatigable workers, and docile ; nevertheless, they are roundly abused by the Massachusetts Bureau of Labour in its last report, because "they do not come to make a home among us ; and voting they care nothing about." The Bureau takes direct issue with Canadian Reform journals as regards the character of the emi-gration from the Dominion, for it declares that the purpose of the emigrants "is merely to sojourn a few years as aliens, touching us only at a single point, that of work, and when they have gathered out of us what will satisfy their ends, to get away to whence they came. their ends, to get away to whence they came, and bestow it there." This explains the enormous influx of French-Canadians along the Quebee frontier as compared with the efflux. The French-Canadian constitutes a valuable portion of the labour in New England, and as our manufacturing interests ex-tend, these trained factory hands and artizans will return to their native land.

MONTREAL, April 21.—The Shamrock La-crosse Club has been virtually dissolved through James MoShane, the Liberal M.P.P., being appointed president. The following members :—Giroux, Blacklock, Lynch, Scul-lion, Burke, Lally, and Hyland have with-drawn from the club, and as they are the best players, the organization must go to the wall. The dissentients met to-night and formed a new club, four of the Montrealers and two from the Independents joining them. They will be a strong team. It is said that there was a good deal of champagne employed to obtain the presidency. It will be a barren honour, however, after the disruption. COLT STAKE AT ST. So the Sporting that this subject has been so often commented upon by the public press, and by sportsmen of the true type through the same medium, nothing was done at the last session of the Othario Legis-lature to put a stop to the criminal practice of spring shooting. Year after year it has become apparent, to those who observe and take an interest in game protection, how fast this species of game is diminishing, and that mainly owing to the negligence or spathy of our legislators. We claim that no argument en possibly be adduced in justification of the practice at present tolerated by law in this wanton and indicriminate slaughter in the breading assen. We are aware that indi-viduals, some of whom are simply interested in the matter, and who still advocate pring shooting, de so for the matter from a torises. Haskins, the thoroughbred chestnut stallion Heimbold (1866), by imp. Australian, dam Lavender, by Wagner, out of Alice Carneal (Lexington's dam) by imp. Sar-pedon. The brillisht racing career of Helm-bold should have entitled him to a better field than he has just vacated for the perpetuation of his name and liveage, and his individual qualities as a stallior. With a very fow iso-lated exceptions he was debarred from these opportunities in Canada. Now that he has been removed to the bome of True Blue, an-other bright luminary in racing animals, it is to be hoped his sphere of usefulness will be entarged, and that he will have access to some of the thoroughbred matrons of the country. BOUND FOR THE NORTH-WEST.—Six car-loads of European immigrants, comprising about 400 people who arrived per steamship Nova Scotian, of the Allan line, passed through Toronto on Monday en route for the North-West. Most of them intend taking up land and settling in Manitoba. They are a fine, healthy-looking collection of im-migrants. About a dozen of them remained in the city to elicit information regarding the North-West before proceeding thither. FATAL ACCENT.—A and and fatal acci-

FATAL ACCIDENT.—A sad and fatal acci-dent occurred near the Nipissing station on the Esplanade, about 5.30 on Friday after-noon, to a sectionman employed on the Grand Trunk railway named J. Buras. It seems that a G. T. R. freight train was backing up for the purpose of going up to the Union sta-tion, and that as the deceased wished to go up to the office for his pay he attempted to climb upon the rear car, but unfortunately missed has footing and fell on the track, the wheels passing over the legs and body. Death consequently was almost instantaneous. DEATH OF MRS, HUGH MACHONALD.—ON Friday afternoon Mrs. Hugh Macdonald died suddenly, at the residence of Sir John Mac-donald, St. George street, of heart disease. Mrs. Macdonald had been ailing for two or three days, but nothing serious was an utterly unexpected blow. Dr. Strange was in attend-ance, and the last moments of the unfortu-nate lady were painless. She was Miss Mary Jane, daughter of Mr. W. A. Murray, of Toronto, and became the wife of Mr. Hugh Macdonald, Sir John's only son, about five years ago. She was thirty-five years of age. FINE CATTLE.—A carload of sixteen re-markably fine shorthorn steers from Mr. Patteson's farm at Eastwood were on view at the St. Lawrence market on Thursday. They averaged over 1,300 lbs., and had been bought by that enterprising exporter Mr. G. F. Frankland. Several of the best beasts will be killed for Toronto customers, and their carcases may be expected to grace the St. Lawrence Arcade within a week. It is obvious that the advice so frequently offaral by THE MAR. to people in the country to breed from only pure-bred bulls is using acted upon ; if the quality of the cattle now coming into the city, as compared with the receipts of former years, may be taken as evidence. made by the loyal Reform papers to cause Canadians to be dissatisfied with their country. Last week a number of Grit country country. Last week a number of Grit country papers published paragraphs commending a letter written by a Toronto nonentity stating that what Canada wanted was Republican institutions. Now the Ottawa Free Press comes to hand with an account of a trip from Ottawa to Buffalo, in which the writer says "the cars were well filled with French-Cana-dians, who, not unlike the Irish, are leaving a country which by multiplicity of correct dians, who, not unlike the Irish, are leaving a country which, by multiplicity of govern ments and oppressive, grasping, and scheming politicians, has become too poor to afford them a home or a living." To say that peo-ple are going to the much-governed Republic to avoid multiplicity of governments is rather good; but to announce the they are leaving Canada in order to escape the grasping of scheming politicians is a very serious reflec-tion upon the gentlemen of the Reform party? These gentlemen have a right to scheme and grasp in order to get office; and though great many people may be disgusted at their tactics, no good can be effected by leaving the country. Good Conservatives who wan to checkmate the schemers and graspers will stay at home and vote. stay at home and vote.

Years ago the members of the Imperial Parliament were divided into two great parties, the "Ins" and the "Outs." A Third Party has within recent years occupied the seats below the gangway, and a Fourth Party, under Mr. Parnell, has, during the present session, distinguished itself, gaining for its members the descriptive title of Obstructionists. A Fifth Party now come to the fore under the name of the Democratic Rederation. Mr. Joseph Cowen, M.P. Federation. Mr. Joseph Cowan, M.P., in its leader, and its programme is "to secure at all times the fullest consideration of the meeds of the working class; to bring about economy in expenditure, and simplicity in taxation; to urge on a complete reorganiza-tion of both Houses of Parliament, so that the business of the country may be efficiently done without infringing upon the indepen-dence of the Legislature, and to bring the genuine opinion of the country to be an upon. THE GAME IN ENGLAND.

THE GAME IN ENGLAND. Lord Sheffield has given a further stimulus to the pastime in Sussex by offering a thirty-guinea cup for the highest average of rune, and although this southern county has suf-fered by retirement from its ranks, a strong batting team might be enumerated. In losing the services of Lord Harris as secretary Kent has suffered an irreparable misfortune. The enforced absence of Messrs. Absolom and Cunliffe will also seriously im-pair the efficiency of the team, although Mr. E. F. S. Tylecote is expected to assist the hop county.

pair the efficiency of the team, although Mr. E. F. S. Tylecote is expected to assist the hop county. For some time past Surrey has been busy reorganizing, and in addition to founding a valuable challenge cup for competition for county clubs, Jupp has been commissioned to find out and coach promising young players. Mr. A. P. Lucas will succeed to the captaincy vacated by Mr. G. Strachan, whose retire-ment will be a great loss to the county. Gloucestershire will experience some diffi-culty in procuring a fitting substitute for the late Mr. G. F. Grace, although Mr. P. J. Paravicini, the Eton captain, is a good candi-date for the vacancy. Midwinter will arrive in time to take his place in the ranks of the famous western county team, but it is antici-rated that at the end of the season the Ans-tralasian will return to the colony for good. The semi-retirement of Daft from the Notts team is a notable event in the history of county cricket, but as he will not altogether abandon his old associates, and as he has a promising son, the old familiar name is not likely to be lost sight of for another gener-ation. There are several eligible candidates for the vacancy, the most prominent of those mentioned being Shore (Sefton), Mariott (Huyton), and T. Brown (Stockport) ; whilst Oscroft is pointed out as the probable succes-sor to the captainy.

THE NEXT ENGLISH TEAM.

THE NEXT ENGLISH TEAM. It now appears to be definitely settled that a team of English cricketers will pay a visit to the United States, Canada, Australia, and New Zealand. Messrs. Shaw and Shrews-bury are said to have completed their ar-rangements, and the team will leave this country early in September next for Canada, where matches have already been arranged at Toronto, Hamilton, London, Montreal, Ot-tawa, &c.; the dates, however, are not yet fixed. In the United States they will play clubs at Boston, Philadelphia, New York, San Francisco, &c., on dates to be decided on, No less than twenty-five matches have been arranged in the Antipodes.-Neucoastle Chron-icle.

A FATALITY IN ENGLAND. On the 11th inst, the coroner of Derby held an inquest on the body of William Wagge, who met with a fatal accident on the cricket field. The deceased was 22 years of age. On Saturday, the 9th, he went to Normanton to play a game of cricket with a number of com-panions. While the game was proceeding deceased and another man attempted to catch a ball which was sent into the air. They came into violent contact with their heads, and both of them fell to the ground, whyse they remained unconscious for s, few moments. When they rose from the ground deceased complained of headache, and seemed ill, in consequence of which the game was brought to a conclusion. They adjourned to A FATALITY IN ENGLAND.

ACCIDENT ON THE FIELD. BELLEVILLS, April 26.—A serious accident occurred on the Albert College baseball grounds yesterday afternoon while a game was in progress among the students. While Mr. E. M. Young was running from one base to another he ran against Mr. McKay, who was running from the opposite direction, and with such force as to break his nose. Mr. McKay also received a bad cut on his fore-head and had his wrist sprained. The acci-dent brought the game to an untimely end,

so. His lordship, Mr. Justice Galt, in charg-ing, said that the evidence was of that nature that it showed the prisoner was well aware of the character of the bill, but did not show that he intended to defraud any person. The jury retired, and, to the surprise of all in court, returned a verdict of guilty, adding, however, a recommendation to mercy. His lordship sentenced Roy to a month's im-prisonment, practically showing by the lightness of the sentence that he scarcely agreed with the opinion of the jury as to the prisoner's guilt. The fact that three of the jurymen were of the Yonge street marchants victimized by such raised notes was held by court frequenters to explain the verdict. DEATHS. It is no longer an idle dream or boasting to affirm that Fellows' Hypophosphites, wherein are united nature's forces, will strengthen man and make his life not only endurable, but sparkling with rude and joyous health. Fel-lows' Hypophosphites supplies the ingredients which constitute healthy blood, and imparts the elements which give vitality.
