TO HAVE A BRIGHT LAMP.

In these days when lamps are used so nuch the care of them is quite an important matter. If the lamps be good and have proper attention, one cannot wish for a more satisfactory light; but if badly ared for they will be a source of much

wiping with a clean, soft cloth. Trim the weeks and turn them quite all the parts and then return them to this case. Horace says: their proper places. Whenever a new wick is required in a lamp, wash and beholds an Egyptian canopy."

at least once a week and washed. care. When a lamp is lighted it should misfortune to get wet.

The ordinals simply add id to the car The distinctives add o to the ordinals broken by having the hot chimneys rest against them. Now, when lighting a lamp be careful that the chimney is set well reaches into his sleeve and produces perfectly straight and does not touch the shade at any point. The shade should be placed on the lamp as soon as it is lighted, that it may heat gradually.—Maria Parloa in Ladies' Home Journal.

swell reaches into his sleeve and produces a folded, oiled-paper affair resembling a fan. This is spread and set over the hat like an extinguisher, and is kept in place by two strings held under the chin. It is not very large, but anything that will cover a Corean hat will keep the rain HOW TO HANDLE GUNS.

publication:

A Few Rules that Should be Remembered

Having been asked by friends frequently for advice for their boys in handling guns, I send you a digest of same. Perhaps as the shooting season is with a stranger at 1 o'clock this morning,

1. Empty or loaded never point a gun towards yourself or any other person. The police suspect a well-dressed young 2. When afield, carry your gun at the man who was seen accosting women in half-cock. If in cover, let your hand the street. shield the hammer from whipping twigs.

3. When riding from one shooting

5. More care is necessary in the use of a gun in a boat than elsewhere; the pushing aside several persons. The man limited space, confined action, and unteaches the friendly children?—Twice certain motion make it dangerous at the two are four—He sees the men; he kisses best. If possible no more than two persons should occupy a boat. Hammerless guns are a constant danger to persons

6. Always clean your gun thoroughly as soon as you return from a day's sport, no matter how tired you feel: the consequence of it always being ready for serform, which often bleed and ulcerate, be- vice is ample return for the few minutes

\$1.00 PER YEAR.

How they are Caught and Disposed of to

ABOUT LEECHES.

Beyond the fact that the leeches used

in medical practice are costly little black blood, few of us know much about them. Leech-catching is, however, quite an extensive business in some parts of France, Spain, Italy, Russia and England, and of late years has been prosecuted on a large scale in this valley of the Nile and Australia. The process of taking them is neither healthful nor agreeable. Leeches affect stagnant and shallow waters, and them off and deposit them in bags strap-The force to be transported westward ped round the waist like the angler's "creel." The leech-catcher is always a He sells them by the pound — the average The Montreal Star says: D. McNicoll, number of leeches to the pound being leech-merchant, however, disposes of imperial government had been going cost, and the retailer puts on at least one

Paris is the great market for these un-

There is no scarcity of leeches in this country, as every boy who has been in streams and ponds is well aware: but the common American "blood-sucker" is not the leech of the materia medica, although it is sometimes used as a depletent when the better kind is unprocurable. Upon the whole, it is quite probable that the world is leeched as well as governed "over-much."—N. Y. Ledger.

HISTORY OF THE UMBRELLA

No one knows whether the umbrella discomfort. The great secret of having was orginally used as a defence against lamps in good working order is to keep rain or as a screen from the sun, but it them clean and to use good oil. Have a seems probable that the first umbrellas regular place and time for trimming the were sunshades, says the Irish Times. lamps.
