MEXICO CITY, August 11.

Students and laborers, estimated to number one thousand, paraded the streets of the capital yesterday, carrying banners in token of their approval of Huerta's stand against accepting mediation by the United States. Huerta gave evidence of his approval of the demonstration by standing with the members of his Cabinet on the balcony of the palace and viewing the parade. There were no disorders. The arrival of John Lind, the man whose mysterious mission to Mexico was the direct cause of this public manifestation in support of Huerta's attitude towards American mediation, has of itself been devoid of any thrills. When Lind, the personal representative of President Wilson, alighted from the train last night there were only a few persons about who seemed curious to watch the movements of the numerous newspaper photographers, who were on hand to subject him to the ordeal of the flash lights. Lind posed for many pictures.

PHILADELPHIA, August 11.

Agnes Murphy was killed by lightning, baby James McNamell, eleven months old, was crushed to death by falling trees, and scores of persons were injured by flying debris during a wind, rain and electrical storm which swept over the city. Trees were uprooted, telephone and electric poles blown down, windows broken, and eight buildings unroofed by the wind which blew at the rate of sixty miles an hour. Before the rain came, five deaths were reported, due to heat prostrations.

LONDON, August 11.

The sudden departure of the King and Queen of Spain from England, has surprised the public with whom King Alfonso was a favorite. It was known Alfonso was going to make only a short visit, but he was booked for Coves this week, and the Queen was expected to remain for the rest of the summer. No doubt conditions in Spain are responsible for the change of plans. Many plots were discovered in 1909 and 1910, due to discontent at the war in Morocco, and organized chiefly by disappointed extreme Socialists and Republicans. This discontent seems to be quieting, but the discontent has apparently spread to higher and more influential circles. No such development is looked forward to, but the Carlists, having frustrated Republicans, have spoiled the King's holiday and robbed the Coves Regatta of the week's most popular figures.

LONDON, August 11.

Queen Mary seems fated to have trouble with the occupants of Royal residences. The latest to be

brought in is no less than Princess Christian, aunt of King George, whose husband lives at Cumberland Lodge.

For a couple of months the Princess has been adding to her husband's rather slender income by selling bottles of perfume made by herself at Cumberland Lodge. She has been aided by Princess Patricia, of Connaught. Princess Christian recently began putting labels on the bottles, telling that the perfume was made at Cumberland Lodge, and when this reached the Queen she ordered Princess Christian to cease selling.

LONDON, August 11.

The alleged great prevalence of malingering under the Insurance Act, which introduced compulsory insurance of workmen against sickness, infirmity and old age, created much interest in a paper read on that subject by Sir John Collie, at the International medical congress to-day. Sir John, who is a member of the Government Advisory Committee on the National Insurance Act, thought the accusations brought against the workmen of malingering were exaggerated and premature. He thought it would be unscientific to attempt to form any estimate based merely on results of three to six months' working of the Act. It might be thought necessary to take special precautions against the prevalence of malingering when dealing with thirteen million of people, nearly half of whom before the passage of the Act had not been insured against sickness.

LONDON, August 11.

Premier Asquith announced in the House of Commons to-day that a Royal Commission would be appointed to enquire into the causes and treatment of venereal diseases. This step has been taken by the Government as the result of prolonged agitation by the British Medical Organizations.

PARIS, August 11.

The Ministry have given approval to a scheme for wide development of the aeroplane to co-operate with the navy. M. Bardin, the Minister of Marine, will ask Parliament for an immediate appropriation of \$1,750,000 for this purpose. It is believed that battleships and large cruisers will be able during battle to use aeroplanes to throw explosives as powerful as those now used in torpedoes. French naval designers are taking into account the necessity of additional overhead protection from aerial torpedoes.

On Friday night next the Regatta Committee will meet at Wood's store to finish up the season's business. A protest against the crew who won the Naval-Reserve Race will be considered and a decision reached. The cause of the protest is that one of the winning crew was not eligible to row in that race.

**A BAKING SUCCESS WHICH YOU CAN DUPLICATE IN YOUR HOME WITH BEAVER FLOUR**

**BEAVER FLOUR**

All this talk about Western wheat flours being "pastry" flours, is just plain talk. Anyone who knows anything about wheat, knows that Western wheat flour cannot and does not, make as good "pastry" as "Beaver" Flour.

Western wheat has what the bakers call strength. It makes a big loaf of bread—but the bread is spongy and lacks flavor. Ontario wheat, blended with spring wheat, makes the ideal bread and pastry flour.

The bakers of Toronto and London—the experts at the agricultural colleges—and thousands of homes in Ontario, Quebec and the Maritime Provinces—have proved that "Beaver" Flour is superior to any Western wheat flour, and is equally good for Bread and Pastry. Try it. DEALERS—Write us for prices on Feed, Coarse Grains and Cereals.

LONDON, August 11.

A number of the foreign delegates to the International Medical Congress to-day occupied front seats at the weekly meeting of the Women's Social and Political Union Militant Suffragette Organization. Mrs. E. Pankhurst was present, attended by a nurse and Miss Annie Kenny, another leader, was on the platform. Both were given an ovation. Mrs. Pankhurst made a brief speech which lacked the fire and militancy of her previous utterances. She welcomed the doctors by saying she supposed our foreign friends are trying to understand the strange movement which is sweeping the whole world and making the so-called weaker sex able to go through experiences which would have been deemed incredible a few years ago. Remarking that both her own and Miss Kenny's licenses had expired, Mrs. Pankhurst attributed their immunity from arrest to a desire on the part of the Government to avoid such experience while the medical congress was in session.

MILAN, August 11.

Yesterday was the seventh day of the general strike here. Although a state of siege has not been proclaimed, workmen's quarters are occupied by the military forces, and martial law is practically in full force. Fifty thousand strikers held a meeting yesterday, and after listening to speeches decided to continue the general strike, and also decided to organize a movement throughout the Kingdom to proclaim a one day strike in every city and town some day this week.

## Amherst Chief Rounded Up Burglar.

Amherst, Aug. 6.—Chief Carter, made an important arrest this morning which it is to be hoped will put an end to the numerous burglaries which have been so prevalent in Amherst, and other towns, during the past few months. The party arrested was Lewis Luby, who some years ago was sentenced to a term in the Reform School, and who since that time has made his residence in Amherst. Luby has practically confessed to having been involved in no less than eight burglaries, one in Truro, one in New Glasgow, two in Pictou, and two in Sackville, as well as numerous similar crimes in Amherst.

In all the different burglaries committed, Luby claims that a young man, Walter McKinley, was associated with him. McKinley was up before the Court last week on a charge of stealing money from Bliss Wells, and Judge Patterson placed him under bonds of \$200. Failing to secure bonds he was for two or three days in Jail, and Chief Carter heard of his release too late this morning to secure him as he left town on the morning express. Officer Burbine was out on his trail to-day but so far has not located the lad.

Luby, the police state, admits breaking into the Victoria Bakery on 2 occasions, and on circus night they broke into the offices of the Canada electric Light. Other places touched by Luby were the City Fruit Store, Miss McEachern's store and Smith's bookstore. In all Luby and his associates must have been involved in a full score of daring burglaries if any credence can be placed in his statement. The chief of Police has recovered a small portion of the stolen goods.

## Judge Who Went to Prison.

Night With a Gypsy King.

How he was sent to prison as a boy was related by Mr. Justice Bucknill recently when he distributed the prizes at Market Bosworth Grammar School, Leicestershire.

His father was born in Market Bosworth, he said. His grandfather—a very good grandfather, who was called "The game chicken" because he always wanted to fight, because he was small, and because he nearly always won—made only one mistake in his life. That was in sending him (the judge) to prison.

The judge told how as a little boy he had been invited to go to Bosworth Park to see the "King" of the gipsies, and how late in the evening "this nasty little boy" left home and found himself in the retinue of the gypsy King. He was afterwards taken by a policeman to his grandfather, who next morning as a punishment took him to the lock-up. He was only in custody for one hour, and as he began to cry he was liberated.

ROLLER SKATING COMMENCED.

The Roller Rink opened for the season last night and quite a crowd of the younger folks engaged in the invigorating pastime. The rink will be kept open during the autumn season.

MINARD'S LINIMENT CURES DIPHTHERIA.

## News From Davis Inlet

Sickness Prevalent—Poor Fishery.

Mr. R. Ford, of Bartlett's Barber Saloon, received a letter yesterday saying that his mother was recently stricken with a severe attack of paralysis at Davis Inlet, Labrador; also that his cousin, John Dickers, who was a carpenter with the Hudson Bay Company for several years, died at Davis Inlet in April last. Deceased was well known here. As there is little hope held out for Mrs. Ford's recovery, her daughter, Mrs. A. Watson, leaves by the S. S. Kyle for the Labrador port mentioned.

Mr. Ford also received the intelligence that sickness is prevalent at Davis Inlet just now. A number of people are down with severe colds but there is no illness of a contagious nature amongst the livers.

The weather is unusually bad all the summer at Davis Inlet. The fishery there is a blank to date with no sign of an improvement.

Minard's Liniment Co., Limited.

Gentlemen,—In June, 1881, I had my hand and wrist bitten and badly mangled by a vicious horse. I suffered greatly for several days and the tooth cuts refused to heal until your agent gave me a bottle of MINARD'S LINIMENT, which I began using. The effect was magical; in five hours the pain had ceased and in two weeks the wounds had completely healed and my hand and arm were as well as ever.

Yours truly,

A. E. ROY, Carriage Maker.

St. Antoine, P. Q.

## At the Nickel Theatre.

Notwithstanding the inclement weather last evening the Nickel Theatre was largely attended. The programme was a good one and gave general satisfaction. It included a Pathe Weekly of the world's events, a strong Lubin drama "The Derelict's Return," "A Pet at the Cairo Zoo," "Saved by Telephone" and "The Tourist and What the Doctor Ordered."

Mr. Myers, the great baritone, was heard in two new songs and judging by the applause he has lost none of his popularity. His first number was Phant's masterpiece, "Belouin Love Song," and the second the beautifully illustrated song "Kentuck Days." The programme will be repeated this evening, and no one should miss it.

## Your Duty.

Nothing to do with the Custom House, good friend. Its only reference just now is to yourself. Let us suppose that you are a man of family with sufficient of the world's goods to keep them in comfort. Very well, You did not reach this satisfactory state of affairs without care and labour—few men do. Suppose you are awakened some night with shouts of alarm ringing in your ears. Too late then to talk of prudence; too late then to say: "If I had only, etc., etc."

That "If" means too much to many forgetful people. Is it not always the duty of a self-respecting citizen to protect his home and thus provide for those within it. Is it any more than his duty to those depending on him to protect them as far as possible. Can you call your property your own when it is not insured? The answer to this argument is to carry insurance with Percie Johnson's agency, the most popular office in Newfoundland and the least expensive—aug5,1f

## Airship Inventor Owes \$8,000,000.

Paris, Aug. 6.—Debts amounting to \$8,000,000 are owed to various people by Armand Deperdussin, the aeroplane inventor, who was arrested here yesterday on charges of breach of trust and forgery. Against these liabilities his assets, which are somewhat vague are estimated at \$4,000,000. His bankers hold his paper for \$5,400,000, while other creditors claim \$1,000,000.

The newspapers here recount many stories of Deperdussin's personal extravagances. He was the foremost patron of aviation in France, and spent money with the utmost liberality always feeling confident that aviation would develop much more extensively than it has done.
