

HER DAUGHTER WAS SAVED FROM OPERATION

Mrs. Wells of Petersburg Tells How.

Petersburg, Va.—"For two years my daughter suffered from a weakness and pains in her right side; at times she was so bad she could not do any work. For two years she was attended by the best physicians here, and both agreed that she would have to be operated on. I suggested Lydia E. Pinkham's Vegetable Compound, and at first she refused to take it, but finally consented. From the very beginning it helped her, and now she is entirely well, and telling everybody how much good it has done her."—Mrs. W. D. WELLS, 228 North Adams Street, Petersburg, Va.

If every girl who suffers as Miss Wells did, or from irregularities, painful periods, backache, sideache, dragging down pains, inflammation or ulceration would only give this famous root and herb remedy a trial they would soon find relief from such suffering.

For special advice women are asked to write the Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of forty years experience is at your service.

Great Blows to the Whole World.

LONDON, Nov. 15.—The action of the United States Senate on the Peace Treaty, especially with regard to article ten, receives prominence in some of the London papers, whose headlines embody President Wilson's reference to "Cutting the heart out of the Treaty." Few of the papers, however, comment editorially. The Daily Chronicle attributes the Senate's action to "hostility to President Wilson, rather than hostility to Europe" and says:

Grave Blow to World.

"This in no wise relieves Europe from serious, possibly tragic embarrassments, for which American obstruction is responsible."

The Daily News sees little hope of America entering the League of Nations on the same footing as other nations and says that it would be a grave blow to the hopes of the rest of the world, who looked across the Atlantic for full unselfish leadership in the task of re-ordering the world.

The paper, however, does not believe that the Senate to-day represents what will be in the mind of

America next year or the year after, and adds:

"The attitude of the Senate is a misfortune, but a misfortune which time will remedy."

Export of Coal Prohibited.

OTTAWA, Nov. 16.—In view of the critical fuel situation, export of coal from Canada to all destinations has been prohibited, except under license issued upon the recommendation of the Canadian Trade Commission. Exportation of coal to Europe will cease immediately. As the prohibition includes coal for all purposes license will have to be obtained in the usual way for bunker coal. In the case of coal already loaded for export, the Canadian Trade Commission announces that consideration will be given applications for licenses by telegraph.

Low Bids.

Bids for vessels the U. S. Navy put up at auction recently, at the Charlestown Navy Yard, were ridiculously low. There were no bidders for the submarine chasers. The converted yacht *Adelante*, valued by the Government at \$40,000, brought only \$1,400. The *Cigarette*, also a converted yacht, which the Government appraised at \$15,000, was bid up to \$1,900. Two of the barges each valued at \$7,000, went for \$1,100 and another for \$1,400. The *Adelante* was built in 1888. She is 125 feet in length and of 131 tons gross. The *Cigarette* was built in 1906 and is 125 feet in length. She has a speed of 22 knots, is of 99 tons gross.

A Race of Blunderers.

Officers of the late Imperial Government in Germany, testifying before the coroner's inquest on the autocracy as to what they believed, feared, hoped or suspected concerning the attitude of the United States, would save themselves much trouble by admitting the truth at once, which is that they stupidly underestimated the morality, the courage and the power of this country. On that basis and no other are the blunders of militarism to be explained and understood.—New York World.

END THAT COUGH!

Peps will end it! Simply dissolve Peps tablets in your mouth. The Peps forest vapors which are thus released are breathed down to the remotest parts of the air passages and lungs, soothing and healing the inflamed membranes and bringing quick relief from that irritating and exhausting cough.

Mrs. Luther Brown, of Wilson's Beach, N.B., writes: "For two years I was troubled with a very bad cough. At night it became worse and I coughed incessantly and could not sleep. I tried every remedy I had ever heard of, but nothing did me any good until I used Peps. Even the first few tablets gave me relief. I continued their use, with the result that my cough has entirely disappeared."

These breathable Peps are also unequalled for colds, sore throats, bronchitis, catarrh, asthma and chest and lung troubles. 50c. box, 3 for \$1.25. All dealers or Peps Co., Toronto.

PEPS

Snapshots.

The most valuable gift received by President Wilson during his European visits was a gold casket which contained a certificate of citizenship from the city of London. Italy's King presented him with two old guns and the King of England gave him a book.

Admiral von Tirpitz, hated the world over for his submarine horrors, has the usual experience that often comes to a man who has been beaten, of sharing with some other war lord the hatred of the German people. He is most happy these days when calumniating the former Kaiser.

The Bible is to be filmed, in its entirety. Raymond Wells, a California director, has made a version of "Julius Caesar" sometime ago—is planning the production now, making 104 reels in all, presenting them in 52 episodes of two reels each. The venture is to be non-sectarian; captions will follow with absolute fidelity the text of the Scriptures; and to insure correct detail an archaeologist will be a member of the staff.

Winston Churchill, English war secretary, once grew a mustache. It was responsible for considerable comment, and, among other things, for the following brilliant example of Mr. Churchill's gift at repartee: "Do you know, Mr. Churchill, that I like your mustache as little as I like your political views?" a frivolous little lady said to him, rather pertly, at a certain reception. "That is of no consequence, madam," was the instant reply. "Since you are never likely to come into contact with either."

Screen Comedian

RECEIVES OVER A MILLION A YEAR.

BIGGEST FILM CONTRACT EVER SIGNED.

Special to Evening Telegram

NEW YORK, Nov. 20.

Larry Semon, famous screen comedian, to-day signed a contract with Albert E. Smith, President of Vitagraph, by the terms of which that company will pay \$3,500,000 during the ensuing three years for the comedies of this star. One third of this stupendous sum will be paid each year of the three year contract, the annual payment thus averaging over \$1,000,000 a year. So far as is known, Charlie Chaplin is the only other comedian in the world whose salary is on the same plan. The signing of this agreement forms the climax of a general scramble by the big producing companies for the services of Larry Semon. Mr. Smith made a special trip to Los Angeles last week to close the Larry Semon deal. Mr. Semon's signature to the contract was secured at 2:45 a.m. after a conference lasting a little less than four days. Larry Semon's rise to his present altitude of fame has been meteoric. A few short years ago, he was a cartoonist on the New York Evening Sun. He is not yet 30 years old. The new contract provides him with unlimited funds to spend in the production of each of his two reel comedies. He will make twelve of these comedies each year. It is a fact worthy of note that on the day that Larry Semon signed his new contract, his newest comedy "The Headwaiter," was booked as a featured offering for next week at New York's Capitol Theatre, the largest place of entertainment in the world, and during the same week it will be shown at the new million dollar California Theatre of Los Angeles, of which Samuel Rothapel, former impresario of New York's Mammoth Rialto and Rivoli Theatres, is managing director.

The Sabbath Breakers.

Welsh Calvinistic Methodists are sorely exercised at the growing disregard of the Sabbath by their members.

At a Cardiff meeting, Mr. James, a Porthcawl magistrate, said the town was invaded by char-a-bancs full of people singing hymns. Deacons, too, he complained, came by motor to spend the Sabbath by the sea. It was time that they rid their churches of such people.

A resolution was passed appealing to church members to refrain from shopping on Sundays and from buying Sunday newspapers.—EX.

tical views?" a frivolous little lady said to him, rather pertly, at a certain reception. "That is of no consequence, madam," was the instant reply. "Since you are never likely to come into contact with either."

Sir Thomas Lipton, the noted merchant and sportsman, determined early in life to build up a great tea business. He not only used his ability but also his industry to accomplish what he hoped for. Over his desk he placed the motto: "Work is my fun." Once, in order to attract attention to his products, he made a miniature wagon, upon which he placed his advertising signs. To this he hitched a pair of small pigs. When this queer team came down the street everyone was attracted by it.

Carrier pigeons in China are protected from birds of prey by a little apparatus consisting of thin bamboo tubes fastened to the birds' bodies with thread passed beneath the wings. As the pigeon flies along the action of the air through the tubes produces a shrill whistling sound which keeps birds of prey at a respectful distance.
