Finer Shave, Longer Service
More Shaves from your
Blades
Shaving Sets & Traveler Outfits

ONCE over with the New Improved Gillette and your face will be smoother, cooler, fresher than after any shave you've ever had before.

The free shaving edge, safely guarded from the face, slips smoothly over chin and cheek without pull or effort. Cut hairs and lather go into the channel. They cannot jam in between blade and guard and cap. They cannot clog the shaving action.

Men who believe in enjoying the inventions of this age are not hesitating to discard their razors of yesterday for the 75% greater efficiency of the New Improved Gillette.

NOTE.—One of the first things to strike the user of the New Improved Gillette is its simplicity.

Most men prefer to screw the handle up tight to get the most satisfactory shave.

The Gillette Blade and Gillette Razor are developed to work together. No Gillette Blade can deliver a full shaving quality unless used in a genuine Gillette Razor—built by Gillette, in the Gillette way and up to Gillette standards.

Our First Municipal Board.

And Those Who Served as Councillors.

(By ALEX. A. PARSONS.)

Now that our citizens are on the eve of another appeal to the ballot box, the time is not inopportune for a few comments on the first Municipal Election in St. John's and the men chosen thereat as representatives of the people—that was in 1887. Prior to that year the business of the city was managed by the general government of the island, through the Department of Public Works. But during the Session of the Legislature in 1887 it was decided, at the earnest request of the citizens, that some form of responsible city government be inaugurated. The first bill introduced was objectionable to the citizens, and even the second was not as complete as it might have been, and had to be amended at the following Session of the Legislature.

However, the election for our first Town Council took place in September, 1888 with satisfactory results. The town had been divided into five Wards, each to elect a Councillor, in addition to which two Councillors were appointed by the Government. The two latter were directors of the General Water Company under the old regime. The names of the seven Councillors were James Goodfellow, Chairman; Moses Monroe, James P. Fox, J. T. Carrell, Frank St. John, W. D. Morrison and Michael Power.

VERY POPULAR CITIZEN.

Mr. Goodfellow was born in the town of Myles, Haddingtonshire, Scotland, in the year 1828. In 1850, being then twenty-two years old, he came to Newfoundland as a clerk in the firm of Messrs. McBride & Kerr, Water Street. In 1864 he was taken into the business as a partner, and was made manager. The next year, the name of the firm was changed to McBride & Company. It was thus conducted till 1887, when he became owner of the business. Mr. Goodfellow was a highly-respected citizen, as well as a shrewd business man. He was a shareholder and director in many of the joint stock companies of the city, and had been on the Board of Directors of the Commercial Bank since 1864. He was, when Chairman of the Council, Senior Director of the said Bank. Mr. Goodfellow had been identified with a number of the charitable and philanthropic societies of the city for many years, previously. His long and successful business experience peculiarly fitted him for his position as Chairman of the Council Board.

YOUNGEST ON THE BOARD.

Mr. Fox, the other Government appointee, was the youngest man on the Board. He was the eldest son of the late Hon. James Fox, M.L.C. Mr. Fox was born on Prescott Street, in this city, in 1860; he was, therefore, only twenty-eight years old. He was educated in St. Bonaventure's College, but spent three years, as a finishing course, in Montreal. Mr. Fox entered the office of Messrs. Walter Grieve & Co., in 1875, having previously spent one year in his father's business. He remained in the former firm till 1882, when he went back to his father's business in the same year his father died; and he took charge of the business, which in conjunction with his brother, Mr. John Fox—now in the Customs Department here—he conducted for some years. Mr. Fox was a highly esteemed and respected citizen and was worthy of his position on the Council Board.

LARGE-HEARTED AND GENEROUS.

Councillor Carrell represented No. 1 Ward, in the eastern part of the city. He was a typical Council-man in stature, and bore his honors well. Mr. John Carrell was born on Forest Road, St. John's, on the 6th of March, 1845. He was a son of the late Mr. Samuel Carrell, a well-known carriage-builder of this city; the Councilman followed his father's trade, and occupied the same building. He was educated at the Church of England Academy, and left school at the age of sixteen to enter and learn his trade.

REGULARITY

Nujol makes you regular as clockwork. Without forcing or irritating, Nujol softens the food waste. The many tiny muscles in the intestines can then remove it regularly. Absolutely harmless—try it.

For Constipation

at his father's business place. In 1873 he took charge of the business at his father's death; the next year he spent some time in the United States, getting a general idea of the improved methods in carriage-building as done in that country. On his return, he steadily increased his trade, till he had, perhaps, the largest business in his line of any firm in the city. Mr. Carrell was large-hearted and generous, and had fewer enemies than any man in the city. His son and successor in the business, Mr. Andrew Carrell, often reminds me of him.

OF STERLING WORTH.

Mr. Francis St. John represented No. 2 Ward. Mr. St. John was born on Water Street, this town, on the 2nd of June, 1852. He was the son of the late Edward St. John, baker—one of the old Liberals of St. John's, and brother to the much-esteemed Father St. John. He (the Councillor) was largely interested in the baking business, besides which he had considerable real estate, and was looked upon generally as a "solid man." He was educated at St. Bonaventure's College here, and for many years had been a member of the Irish Society and St. Vincent de Paul Society. In the former, he was an active member of all committees in connection with the construction of the new building; in the latter, he was one of the visitors of the poor, for several years. The Councillor was a man of principle and sterling worth, and was highly respected, not only in his own Ward, but throughout the city and elsewhere, where he was known.

LIBERAL AND PROGRESSIVE.

No. 3 Ward was represented by Mr. M. Monroe, M.L.C. Mr. Monroe was a native of the Emerald Isle, and was born in that country in 1845 at Houtter's Hall, Meath, County Down. He was the third son of Mr. John Monroe. The Councillor came to Newfoundland in 1866, and entered the firm of Messrs. McBride & Kerr. In his late years in the firm he had an interest in the concern. In the spring of 1873 he opened for himself and conducted a very successful business. Mr. Monroe was speculative and had interests in almost all the Joint Stock Companies in the Dominion. He went largely into the bank fishing business, and was very successful. Mr. Monroe, who ranked as a gentleman of first-rate ability, was liberal and progressive in his views. His cheerful countenance at any gathering was always sufficient guarantee of an enjoyable time.

A WORTHY REPRESENTATIVE.

Councillor Power looked out for the interests of No. 4 Ward. The Hon. Mr. Power, M.L.C., was born on Duckworth Street, St. John's, in 1842, and is a son of the late Michael Power, cooper. He received his education from Mr. Bartholomew P. Doney. At the age of sixteen he began to serve his time in his father's cooage, and has continued in the business ever since. In 1871 he was left sole charge of the business, on the death of his father, and has since successfully conducted it. By honest industry, he has acquired considerable property in town; and, in addition, owns a pretty villa near the railway track, a short distance from town. Mr. Power is of a naturally diffident disposition, but he possesses sound common sense, together with excellent qualities of head and heart which make him one of the most representative middle men of the West End. The interest of his Ward did not suffer neglect while in his hands.

OLDEST ON THE BOARD.

Mr. W. D. Morrison, the oldest member on the Board, was elected for No. 5 Ward. He was born in Rosshire, Scotland, in 1820, and emigrated, with his family, to Pictou County, Nova Scotia, in 1833. For four years he attended school, after which he went to the printing business on the Pictou Observer. He stayed at the business, in Canada, for ten years, after which he came to Newfoundland. He worked on the Courier, with the late Joseph Woods for some time, and other papers in St. John's. In 1855 he abandoned "the art preservative of all arts" and went into a merchant's office. In 1860, he started in business for himself and continued in it up to the time of his death. He was a quiet, retiring man, and took more interest in his own immediate concerns than he did in politics. He was a staunch teetotaler and a persistent advocate of total abstinence.

MEN OF INDEPENDENT MEANS.

Of the seven Councillors, whose biographies I have here briefly outlined, only one remains with us to-day—the Hon. Michael Power. All the others have gone to "that bourne whence no traveller returns." Not only were they men of independent means; they possessed other endowments which pre-eminently fitted them for the positions they occupied

in political and commercial life. And just here I would emphasize the wisdom, if not the necessity, at the approaching election, of selecting men of similar capacity to manage the city's affairs. Never in the experience of our citizens, have such men been more needed than at the present moment.

THE CHIEF MERIT.

It is well to remember, just now, that in all cases of election of members of civic corporations, and such-like bodies, the chief merit in candidates, after that of good general standing in the community, is soundness of judgment, and after that, no-means of habits. The power of fine speaking, or eloquence, is esteemed very lightly. That which is required

Special Reduction Sale of YOUTHS' and BOYS' LONG RUBBER BOOTS

The best,—the only Waterproof Footwear for sloppy weather. We all know the carelessness and the utter disregard of the average boy for having wet feet. is a power of thinking coolly, an integrity of purpose, and a willingness and ability in taking a share of the burdensome duties to be performed.

Take a course of Carnol if run down in health

Overwork, extra worry and ill health soon bring on nervous troubles. When depressed and tired—appetite not good—take a course of

CARNOL

From the start food is enjoyed and assimilated, the system gradually gains strength until robust health is secured. Carnol is the tonic which is recommended by so many Doctors.

Our qualifications as electors perhaps render us liable to be ourselves elected. In the event, therefore, of being called forward by our fellow-citizens to fill the honorable situation of representative, it is our duty to ourselves, perhaps our own feelings and a portion of our time in the public service, provided we conscientiously consider ourselves qualified for the task, and that our health and private circumstances permit it. Do all the candidates, or any of them, now soliciting our suffrages measure up to the foregoing requirements? I express no opinion one way or the other. I simply ask the question and leave the municipal electorate to furnish the answer, through the ballot-box on the 15th proximo.
