

Side Talks by Ruth Cameron

PERSONALITY—CAN YOU DEFINE IT?

What is personality?
The word personality and the thing for which it stands have been much in vogue during the last few years.
We have come to explain many things by it. Why is she such a success on the stage when she is so beauty and little voice? Because she has personality. Why isn't a success as a salesman, he works hard and he understands his line perfectly? Because he lacks personality.
Impossible to Define.
Just while we can explain other things by personality, can we explain personality itself? Can we define it?
We felt to trying the other day and found it a very baffling job. Try it yourself and see how hard it is.
There are some of the qualities which were suggested as going to make up that magic whole.
Sincerity.
Originality.

The Public Indifferent.

Editor Evening Telegram.
Dear Sir—The dark cloud of adversity which has been hovering over our island capital for years past has not fallen, by the removal of the steamers to Argentina—which means a trade loss of forty or fifty thousand dollars to Placentia. This has happened through the indifference of our leading citizens, and the lack of interest of our representatives by protesting eighteen months ago when this proposed branch was suggested, and by not demanding immediate repairs to the railway pier road, which were a disgrace to our civilized country, and why the people of Placentia Bay and West Coast put up with such dangers, hardships, and inconveniences, for years past, travelling from the Hill Railway Station, to the pier is a real ordeal. I congratulate the people of Placentia Bay and West Coast on the splendid terminal at Argentina, which should have been there years ago at Placentia. Here's the remedy to uplift the historic town. Let the people stand together from Branch to Placentia. Let all unite as one man and demand from the Government that a new railway will be built to Placentia when spring opens up, or six hundred voters will know the reason why. A railway on the side of the Hill cannot be called a Placentia railway. A railway on Placentia Beach could be called one. Had this happened years ago, Placentia would be a prosperous town to-day, with machine shops, factories in full production, giving employment to thousands, whereas to-day Placentia is a neglected village with its streets flooded at spring tides, breakwaters and public slips falling to pieces. Here are cold facts, Mr. Editor, but the truth is a bitter pill, especially for the citizens who allowed it to go on. Our representatives, past and present, have shamefully ignored the people's rights by not demanding better treatment for their Shore, Point Verde, South East, Placentia constituents, but took no care to look out for themselves. My next letter I will give some facts as to the benefit of a Placentia railway.
Thanking you for space,
Yours,
G. I. A.

Placentia, Dec. 5, 1921.
The members of the House of Assembly who sit for the district of Placentia and St. Mary's have, we believe, done yeoman service in acquiring all possible for the needs of the people in the way of road and other things, and it is manifestly unfair to charge them with neglect, seeing that they have done so much to conserve the interests of their constituents.

Fashions and Fads.

The scalloped skirt and overskirt wears on the dance floor.
A suit of taupe colored broadcloth trimmed with mole.
A fan of black net shows a design of green tulle.
A gown of green tulle is a favorite for the dancing.
The double wrap consisting of coat and cape is much in favor.
A gown of gray Canton crepe has trimmings of green embroidery.
The wide brim of a black velvet hat trimmed with gray mouseline.
A dress of black velvet and white tulle is trimmed with ermine.
Light shoes and stockings are often worn with dark street clothes.
