may be had from J. S. Gunn, L. Calvert, W. H. Herder, D. McIntosh, E. V. Spry, J. Paterson, H. McNeil, H. P. Butt.

## In the Realms of Sport

### CRICKET.

(Harbor Grace Standard, Aug. 22.)

The fourth game in the Inter-Town Series for the Jones' Cup was played here Wednesday on Shannon Park between Bay Roberts and Hr. Grace teams. The visitors were late in arriving and play did not begin until 2 p.m. Hr. Grace went to bat first and were disposed of for 51 runs. Following this innings lunch was served on the field, being provided by the home team. Play was resumed at 2 o'clock. Bay Roberts' innings netting them 42 runs. Hr. Grace team's second innings secured them 55 runs while Bay Roberts added 41 runs to their score, resulting in a win for Hr. Grace by the narrow margin of 3 runs. The game was a good one and proved highly interesting to both players and spectators, as the scores were so close that the result was in the balance until the last wicket fell. The weather was all that could be desired and the attendance was a large one. Cricket is certainly reviving and the large number of spectators present at the game. Messrs. R. Dave and Inspector Sheppard acted as umpires. Following the game the Bay Roberts team was entertained by our team at dinner at the Gracian House and a most enjoyable hour was spent after which the visitors returned to their home by motor cars.

The standing of the teams to date is as follows:

Team	Played	Won	Points
Bay Roberts	4	2	4
Hr. Grace	2	2	4
Carboneau	2	0	0

There are two more games to be played in this season's series, both Carboneau vs. Hr. Grace and the next game on the schedule is set for Wednesday next at Carboneau. The game set for Wednesday the 13th, which was to have been played here, but which had to be postponed on account of bad weather, will probably be played on Wednesday next.

INTER-TOWN FOOTBALL.

Grand Falls Victors in Opening Game.

A message from Mr. C. H. Hayward, of Grand Falls, to the Eve. Telegram, was received this morning stating that the Grand Falls footballers had defeated the city in the opening game of the series last night, by 2 goals to all. Both goals were scored in the first half in which Lockyer of the G.F. team was the outstanding figure.

One of the goals was scored on a penalty kick. This afternoon a cricket match will be played for a cup. The second game of the football series takes place to-morrow night and it is hoped that the players from the city will make a much better showing.

JUNIOR FOOTBALL.

Cadets Defeat Wesley.

Before a small attendance of spectators at St. George's Field last night, the Cadets and Wesley teams, of the Junior League, put up a masterly exhibition, the former winning out by 2 goals to nil. The Cadets, defending the eastern goal in the first half, contained the ball to their opponents' territory and as a result of their efforts scored two goals. Thompson being responsible for the first and Furlong the second. The Wesley forwards in the half made several good runs but were unable to beat the impressive defence set up by the opposing team.

Second Half.

Upon changing ends both teams

were putting up a good game and many were the narrow escapes on the opposing goals. The Wesley boys made several determined attacks to reduce the score in this half, but found the Cadet goalkeepers unyielding. No further scoring resulted and the game ended in a victory for the Cadets. The Cadets are now leading the League and look likely championship winners. The T. A. and Secuts are the contesting teams for to-night.

ABRAHAMS "TIED OUT."

Advised Not To Run For A Year.

H. M. Abrahams, the sprinter, who won the 100-metres race for Britain in the recent Olympic Games, may not be seen on the track for another 18 months.

A message he sent to the organisers of the Huddersfield Jubilee Sports, in which he regretted that he would not be able to attend, has been wrongly interpreted to mean that he has broken down.

"There has been a lot of rubbish talked about his breakdown," said his brother, Dr. A. Abrahams. "There is no question of such a thing. He is simply acting on my advice that he has been too tired out by his crowded programme of late to keep on running without a rest."

"I have advised him that in his own interests he should not take part in events either this year or next, and he has decided to take a much-needed long rest of this kind."

Apply enough Mr. H. M. Abrahams telephone is now on the "Speedwell" exchange.

REGATTA COMMITTEE MEETS.

Business 1924 Regatta Finalised.

A meeting of the Regatta Committee was held last night with President Hiscock in the chair, when the affairs in connection with the annual Derby Day were finalised. The reports of the Secretary and Treasurer were read and confirmed. After all expenses had been paid a balance of over three hundred dollars was left on hand. A matter which, called for a rather lengthy discussion was brought up by one of the Committee in reference to the uncomfortable condition of the bank for the pedestrian, and it was felt that there is much room for improvement in this connection. Quiddi Vidi Lake can be made a very popular resort. Many ideas were advanced as to the beautifying of the surroundings. As Sir Edgar Bowring is the owner of the North Bank and he has made some plans as to beautifying it, the Committee are powerless to act in the matter, but they are prepared to act with Sir Edgar, and a committee was appointed to consult him as to plans. The following is the Committee: the Executive, with Hon. W. J. Ellis and Councillor C. W. Ryan. This Committee will meet Sir Edgar and will report to the general committee at a later date.

The usual vote of thanks was tendered the Inspector General and Police Force, for the efficient manner in which the traffic regulations were conducted on Regatta Day. To the City Engineer for much work done around the course, and to the Press for the use of their columns. A Committee of three, comprising Messrs. P. Brown, C. J. Ellis and J. M. Tobin, under the supervision of the Vice President, were appointed to look into rules governing certain races. A rather lengthy discussion arose in this connection, and it was the unanimous opinion of many that some of the rules needed changing.

Next year the committee will begin its meetings a little earlier. Rules will be published and distributed to all oarsmen, and under no consideration will any rule be broken for any crew or individual. After some minor matters had been disposed of, the meeting adjourned.

## Fear of Pollution

Editor Evening Telegram

Dear Sir.—A question has arisen in this district, as to whether the acids to be used in manufacturing pulp and paper will be detrimental to the herring and salmon fishery.

The new mill at Corner Brook, when operating, will no doubt release a lot of acid which will be in the water of this Arm continually, as the tide rising will carry back with it foreign matter that it receives from the paper mill.

Please investigate concerning this, and state in the columns of the Telegram just what steps are necessary to be taken to protect the herring and salmon fishery. It is generally known that herring shy clear of polluted waters, so it is all important that this valuable fishery is properly protected.

Thanking you for your interest in this matter,

Yours very truly,

A. M. DUNPHY.

Curling, Aug. 22, 1924.

Note.—In connection with the above we would state that from enquiries made regarding the disposal of acids from the mills at Grand Falls, we learn that there is a minimum of waste and that it has had no ill effect on the salmon in the Bay of Islands. Some time ago we referred to the possibility of the pollution of the Humber by oil burners. All such questions should be considered by a local Board of Trade. At one time there was such an organisation in Bay of Islands, and if it has fallen into abeyance, it would be a good idea to revive it.

## Children's Party

IN AID OF CHILD WELFARE ASSOCIATION.

An afternoon party, in aid of the Child Welfare Association, has been undertaken by six little children to take place to-morrow (Wednesday) afternoon at 3 o'clock, in the grounds of Mr. Stanley C. "Waldmere," Cornwall Avenue.

This energetic little band of committee workers have been kept busy for several weeks past making the necessary preparations, and it is hoped that as many children as possible from the city will join there to-morrow to make the day a success. A feature of the display will be an attractive array of doll's clothes, which will be put up for sale at most reasonable prices. Soft drinks, candy and delicious ice cream will also be on sale. Parents are asked to send their children along and help the cause. An enjoyable afternoon is in store for all who may care to attend.

"DRUMS OF FATE"

S. O. E. B. S.

The members and the friends of the S.O.E.B.S. are holding their outing to-morrow afternoon at Smithville. All preparations are now complete and should the afternoon be fine a very enjoyable time will be spent by those who attend. The afternoon will be spent in the grounds with sports, etc., after which tea will be served at 6 p.m. to be followed by concert and dance.

## The Men Crooks Fear

THE FAMOUS "FLYING SQUAD."

(By "AN EX-CONVICT.")

Scotland Yard is bound by system. There is little individuality amongst its members. The "Big Four," who practically control the Criminal Investigation Department, are in turn controlled by others. The lesser lights, upon despatched upon a special mission, are cramped by the fact that their movements are restricted to certain areas. Moreover, they are compelled to furnish a written report of their actions throughout the day to a superior officer when going off duty.

The crook does not take any count of these individuals, realising that they are mere machines, and not to be feared unless they are actually upon the scene when a crime is committed. There is one branch of the service, however, the mere mention of which strikes fear in the heart of the average criminal. I refer to the now famous Flying Squadron (writes an ex-convict). One hears so little of this branch of the C.I.D. that it might aptly be termed the "Silent Service."

Under Fire!

I do not intend to attempt a description of the machinery of the "Flying Squad." I prefer to give a description of some of its members, from the habitual criminal's point of view.

Take, for instance, Inspector Grosse, who was one of the first leaders of the "Squad," and now, I believe, Divisional Detective Inspector of the Bow Street Division of the Metropolitan Police.

London's underworld learned to dread the name of "Grosse." No community of crooks was unknown to him. He had a disconcerting habit of putting in an appearance in the most unexpected quarters at the most inconvenient times. He and his lieutenant, Sergt. Walter Selby, moved with impunity within the haunts of the most desperate and dangerous criminals—fearless, but instilling fear wherever they went.

At the present time, the most active members of the "Squad," are Detective Rutherford and Sergt. Selby. At all hours they are to be found in the haunts of criminals. They have as much knowledge of the inside of the underworld as the people of the underworld themselves. There are times when this pair carry their lives in their hands, as witness the incident a few months ago, when they were actively engaged upon the suppression of the moon-gang trade.

Detective Rutherford was fired upon by one of the gang, who, fortunately, was not a good shot.

Selby and Rutherford are on speaking terms with nearly every habitant crook, male and female, at large in the Metropolis to-day.

A Fight With Pickpockets.

I am reminded of an incident relating to the theft of Lady Crofield's jewels about a year ago. Whilst in the neighbourhood of Hampstead one afternoon, driving round in their specially constructed motor tender, they observed three well-known crooks. Realizing that these men were not frequenting Hampstead with any good intentions, they decided to keep them under observation. In this they were rewarded, however, for shortly afterwards they lost sight of their quarry, and were compelled to abandon their project. That night it was reported to Scotland Yard that the house of Lady Crofield had been burgled.

It was only a matter of a few hours before Selby and Rutherford had rounded up the three men they had attempted to follow at Hampstead, with the result that most of the stolen jewels were recovered, and the men were eventually tried and convicted.

Another equally astute member of the "Squad" is Detective Sergt. Crooks, popularly referred to by crooks as "Tommy Tongue." He prefers to hunt alone.

On one occasion he took the trouble to convince me that I was not the astute person I had imagined myself to be when he informed me that he had held me under observation for six or seven hours a few days previously. At first I ridiculed the statement, but was swiftly convinced of its truth when he proceeded to describe my movements with an exactitude which gave me no loophole for further doubt.

"Tommy Tongue" does not look like a detective. Slim in build, at first sight he gives one the impression of being clerically inclined. Yet it would be interesting to know how many times his frail-looking frame has brought him "top dog" out of a rough house. Quite recently he effected the arrest in a Tube lift, when, single-handed, he tackled a number of pickpockets. He called upon several bystanders to come to his assistance, and none would do so. Although he was severely handled by the rest of the mob, he stuck to his man.

The Dope Fiend's Fox.

Detective-Inspector Leach is another officer whose confidence tricksters dread. He has made it his speciality to learn the ways and methods of the "gentle grafter." Although he knows the majority of "con-men" at large in London, few of them know him. I do not know him myself, but I was many times asked by fellow-grafters, when a grafter myself, if I could furnish his description.

Detective-Inspector Goodwillie again is the "fence's" bugbear. He has a penchant for "nosing out" the buyer of stolen property. The beginner in this line of business is warned so frequently to beware of Goodwillie that the very name strikes a note of ill-omen to him. There are many fences to-day who would give a considerable portion of their ill-gotten gains to learn that Inspector Goodwillie had retired.

Quite a recent acquisition to the Yard is Detective Owen, who has played a prominent part in the effort to suppress the "dope traffic." Dope fiends and dope traffickers alike have learned to dread him. He was recently publicly commented upon his work.

What Causes the Body to Produce Insulin

In the healthy individual the sugar in the blood causes the pancreas to discharge insulin into the blood. This is indicated by experiments described by Dr. E. S. Albritton of Ohio State University, to the Physiology Section of the British Association.

In a normal healthy individual there is always a small but constant amount of sugar in the blood. In the disease diabetes, the sugar accumulates and the amount is increased. When insulin is injected the amount of sugar present in the blood is reduced. Dr. Banting showed that insulin is manufactured in the pancreas, from which it is discharged into the blood. The question arises as to what causes the pancreas to liberate insulin in a healthy animal.

Dr. Albritton has performed a number of experiments to decide this question. The results of these experiments indicate the curious fact that the sugar itself acts as the stimulus which causes the pancreas to discharge its insulin into the blood stream.
