FOR SALE— TYRCATHLEN LOTS.

The Venerable Archdeacon Palmer has placed in my hands for sale the Lots in his new survey, immediately in rear of his residence and lying on the north side of Grange street. The situation cannot be surpassed in the town—convenient to Market, Post Office, Church and Schools, commanding a magnificent view of the town and surrounding country. The lots are of different sizes, and well suited for private dwellings, with a first-class soil for gardening.

Those lots on Tyrcathlen Terrace are well adapted for genteel residences, and will only be sold to those who will bargain to put up good buildings.

Plans of the Lots can be seen at my office and particulars learned.
Terms very liberal. Purchases made this Fall, interest on balance of purchase money will not commence until 1st April, next.
If desired, the lots will be pointed out on the ground.
Also, if other lots lying to the north of Palmer street, in Macdonald's survey, and on Queen and Arthur streets.

An early call is advised.

THE GUELPH OIL WORKS.

To the Coal Oil Trade.

I take this opportunity of letting my old friends and customers know that early this fall, I intend having my new Petroleum Refinery in operation. I am erecting on my old premises between the Grand Trunk and Great Western Railway Freight Stations an Oil Refinery with all the latest improvements for the perfect manufacturing and decolorizing of Petroleum or Coal Oil; and from my long experience in the business, feel confident of giving all in the trade who wish a No. 1 article, fair dealing and entire satisfaction; and to meet the present wants of my many customers, I have in stock at my warehouse a large lot of the best London Refined Oil, which I am selling at low rates. Address all orders to O. Clark, Guelph Oil Works, Guelph, Ont.

CHANCERY SALE

OF VALUABLE

Farm Property near Orangeville.

To be sold by Public Auction, in one parcel, pursuant to the decree and an order of the Court of Chancery made in a certain cause or the Freehold Permanent Building and Savings Society against Adams, with the approval of Thomas Wardlaw Taylor, Esq., the Master of said Court, on

Saturday, the 3rd Day of October,

At 12 o'clock, noon, by Edward Leslie, Auctioneer, at the Gordon Hotel, in the Village of Orangeville, the following valuable Freehold Property, viz: The north-west half of the north-east half (or the north-easterly quarter) of Lot No. 6, in the 16th concession of the Township of Garafraxa, in the County of Wellington, containing Fifty acres, more or less, of which about Forty acres are cleared and nearly free from stumps. The soil consists of a good loam.

The Lot is situated about seven miles from Orangeville, on the Toronto, Grey and Bruce Railway, and is readily accessible thereto by good roads. The Lot is well fenced with cedar rails, and is well watered. There are a good frame house and the necessary out-buildings on the property.

The said property will be put up at an upset price of \$500, being the amount required to cover the Plaintiff's claim. The purchaser shall at the time of sale pay down a deposit of 10 per cent, and the balance of the purchase money to be paid in three or five years, and to be secured by mortgage on the property; on payment of such one-third and giving the said mortgage, the purchaser will be entitled to his conveyance and to be let into possession. In other respects the conditions of sale are the standing conditions of sale of the said Court.

Particulars and conditions of sale may be obtained of the Auctioneer, or at the Law Office of W. B. McArthur, Esq., and Messrs. Hoskin & Sprague, in the City of Toronto.

T. W. TAYLOR,
Solicitor.

Dated 9th Sept. 1874.

JOHN HARVEY, Town Clerk

Guelph, Sept. 14th, 1874. dwt

RE-OPENING OF SCHOOL.

Mrs. Budd begs to announce that she will re-open her English classes for young ladies and little boys, on MONDAY, Sept. 15, Woolwich Street.

thirty pounds of meat in 5 minutes. He also shows a patent self-rake adjustment for reapers. It works on the principle of the inclined plane, and is very simple and effective.

K. C. Cliff, Hamilton, shows a meat cutter. The principle is the upper motion, and is made for hand, steam or horse-power.

J. G. Bricker exhibits a grain register, which is attached to the separator, and measures the corn as it is carried away. It has been fully tried and works well.

He also shows a patent machine for separating and lugging axles and braces. It is well spoken of.

Andrew Jardine, Hespeler, shows an excellent assortment of sash, moulding and shapening machine knives. They are of excellent workmanship and nicely finished. These goods are rapidly going for sale, and Mr. Jardine informs us he has always plenty of orders.

Moses Bechtel, Blair, shows a fine lot of starker and sharper knives for moulding. He makes the manufacture of this a specialty, and there is quite a demand for the goods which are made of the best material and are highly finished.

Thompson & Williams, Mitchell, show a Burnham Turbine water wheel.

In the class of engines, A. Robertson & Sons, Guelph, are the largest exhibitors. They show two engines—one fifteen and the other ten horse-power—both horizontal. They are exhibited as they would be got up for use, and are well built and neatly finished. An improvement is a third ball on the governor, which quickens or lessens the speed more effectively.

Thos. Worswick, Guelph, shows a very pretty portable four horse-power engine, upright. It works in a very small compass, and is admirably suited for shops or factories requiring small power. He also shows the Armstrong patent improved heater, line catcher, condenser and filter (combined) for purifying water for steam boilers. They are highly spoken of wherever used. Mr. Worswick is the sole manufacturer in Canada. He shows a new pump, patented by himself. It is called "Worswick's Adjustable Feed Pump." By the eccentric motion the lift can be modified at pleasure, so as to graduate the flow of water. It is the only pump of the kind on the continent, and is patented in Canada and the United States. For engines it is invaluable, and has given great satisfaction.

LADIES' WORK—FANCY GOODS, ETC.
The upper portion of the main building, which is devoted to the exhibition of goods in the above classes, was crowded during Wednesday afternoon, the fair sex as usual on such occasions, being the principal spectators. Altogether, the collection was a truly excellent one, embracing, besides the usual assortment of sewed and embroidery work, many special articles. Among the latter may be classed a collection by the Wellington Orphan Asylum, comprising specimens of petroleum from its refined state, as well as lubricating oil manufactured from petroleum, also wool oil. Samples of paraffine wax—in lump and also loose—made from petroleum, are worthy of remark; also sealings from the material are also exhibited. As agents for the American Oil Company, of Buffalo, the Wellington Oil Company exhibit samples of glue, and as agents for the Brockville Acid Company, they show a sample of sulphuric acid.

W. T. Tolton, Puslinch, has a collection of medicinal herbs, comprising about a dozen specimens. There are no other exhibitions in this class.

P. H. Gibbs, Guelph, exhibits several collections of stuffed birds. In the native class he shows thirteen good specimens, and for a collection of foreign birds and animals, he takes first prize. In this class Thomas Pallister, Guelph, comes second. Mr. Gibbs takes second prize for a single specimen. As an extra, he shows also a stuffed Florida Alligator.

Thos. Richardson, Fergus, shows two lynxes, besides some other fine specimens of taxidermy.

H. Atkinson, shows about twenty-seven birds of the smaller species.

John Ingle, Nassagaweya, has a small case of native stuffed birds, besides a case containing a summer duck and hooved otter. These take first prize.

Sidney Goodfellow, Guelph, exhibits two beautiful specimens of foreign birds. In shells—Wm. Stephenson, Guelph, exhibits a large and excellent collection, ranging from a pea to a pumpkin. He takes second prize, while Miss M. J. Tolton, with a still more beautiful though smaller assortment, takes first.

The collection of native insects is excellent. Mrs. Henry Duffell, Eramosa, Alex. Young, Berlin, Edward Burge, Guelph, and Andrew Jardine, Hespeler, being the exhibitors. Mr. Young takes first prize, with two double and one single case of named insects.

The display of minerals is not large. An amethyst from Thunder Bay attracted considerable attention. John Wilkie, Guelph, contributes a case each of small and large specimens of native minerals, a fine collection. Wm. Dyson, Guelph, is the only competitor, with a case of neatly arranged and named specimens. Mr. Wilkie takes first prize. A collection of geological minerals, fossils and ores, by Dunn and Peterson, of Guelph, takes second prize, and is well worthy of attention. In fancy flowers the display is particularly good. In wax Mrs. Jeffrey, Guelph, takes first prize with a beautiful specimen in the shape of a harp. The second prize is taken by Mrs. B. Ames, Guelph. Other contributors are Miss L. Brown, Brampton, and Miss Heslop, Toronto. Beautiful specimens of feather flowers come from Misses J. & J. Andrews, Guelph—who take first prize; Peter S. Armstrong, Eramosa, who takes second; and Mrs. James Pickard, Miss Jane Choate and Miss S. Choate Ingersoll, show books of pressed native plants. Miss H. Hogg, Guelph, contributes a collection of buttons. Flower wreaths are shown by Mrs. Robert Ballantyne, Guelph, who takes first prize, and Joseph Shaw, Hespeler, who takes second. Mrs. Thomas, Eden Mills, also enters in this class. For hair work, Miss Thomas, Eden Mills, takes first prize, while the specimen of Miss J. Mrs. B. Ames, Guelph, is commended. Miss Lizzie Trimble, shows a wreath in this class. In moss work, Miss S. Strickland, Oshawa, and Miss Lavina Parkinson, Eramosa, contribute specimens, being rural scenes. Several shell picture frames are worthy of attention, the first prize being obtained by Miss Eliza Higgins, Southampton. Specimens of tatting are numerous and very pretty. Miss Strickland carries off a first prize. Miss Shaw, Toronto, exhibits a pair of baby's shoes knitted with No. 150 spool thread. Two patchwork cushions in the box pattern are very pretty.

The water colors show well. Messrs. Griffith, Hamilton; Chapman, London; Smith, Westminster, and Smith, Montreal, are prominent exhibitors. A skating rink scene by Mr. Smith of Montreal, is difficult to handle, owing to the number of figures, but he has done it well. Some of Mr. Griffith's flower and fruit pieces are very fine.

Miss Heslop, of Toronto, shows a very accurate model in wax,

A pen and ink sketch by Charles T. Cotton, Hagar in the wilderness—is really creditable, and is Miss Palmer's Greek head. F. H. Gibbs, Guelph, has a well executed piece—representing old withered trees.

Miss Stevenson has a very good water color, representing a castle and shipping. Miss Palmer's group of terriers and rabbits is remarkably well done.

Miss Patterson, Guelph, has a well executed landscape representing a foaming rapid.

Miss Palmer's Picture of "Grace Darling", is bold, free and life-like.

Miss Strickland and Miss W. Stimaott are large exhibitors of Water Color pictures and crayons, and some of their pieces are really excellent.

Miss K. Macdonald has a spirited sketch in water colors.

Miss F. Saunders has a good crayon, after Rosa Bonheur—going to the horse fair; also two well executed dogs' heads.

C. T. Cotton has an excellent copy of Bonilton Abbey in the olden time.

Miss F. Saunders has a well executed deer's head in crayon, and Miss Murphy a capital storm scene, also in crayon.

Miss M. Leslie has a neatly copied head in pencil.

The specimens of oblique embroidery by Miss M. J. Tolton, Eramosa, is commended. Miss L. Brown, Brampton, shows a specimen of fancy braiding, and Miss E. Higgins, Southampton, a cone picture frame of neat pattern. A model house by Mrs. H. Wilmot, Guelph, attracts and holds the attention of all spectators. The design is unique and the execution admirable in every detail. The arrangement of the figures and the furniture of the house as seen from the front, are worthy a professional. In the moss work class, Mrs. James Pickard, Guelph, shows a somewhat similar specimen in "frame." It takes second prize. Miss Lizzie Torrance, Guelph, shows a well executed specimen of bead work, the pattern being in colors on a cushioned chair. A neat specimen of worked shippers is sent by Miss McMillan, Galt, and takes first prize. Other specimens are contributed by Mrs. James Pickard, and Miss Higgins, Southampton. Shippers complete are sent in by Miss J. Armstrong, Guelph, and Misses Susan T. Wadon, Brampton, the former excellent. We cannot particularize further in this department, suffice it to say the display is truly excellent.

The following is a portion of the
