FEAST OF THE PASSOVER COMMENCED MONDAY, WILL CONTINUE ALL THE WEEK

Last night the Jewish members of the community commenced services in connection with the passover. Services were conducted according to the Jewish ritual in the House of Jacob, the local tabernacle, and will be continued mornings and evenings until April 29.

The rite of gathering all the leaven in the house was observed in almost all the Hebrew homes in the city last night. This morning it will be destroyed, the head of every orthodox household repeating the following ritual:

"All manner of leaven that is in my possession which I have seen or which I have not seen, which I have removed shall be null and accounted as the dust of the earth."

The date of the commencement of this festival is the fourteenth day of Nisan in the Jewish calendar. It comes later than usual this year on account of the fact that the Jewish year now passing is embolismic and lasts 13 months, and the extra or embolismic month preceded the regular month of Nisan.

During the first day of the Passover the firstborn of the Jews must fast in commemoration of the deliverance of the firstborn of the Israelites when God smote all the firstborn of the Egyptians.

During the first two nights of the Passover the orthodox Jewish table is ordered by the ritual to be decorated in the following manner: The table cloth being laid as usual three plates are placed thereon; in one put three cakes, generally called *matzot*; in another the shank bone of a lamb or of a kid, and in the third, lettuce and celery, or chevril and

City is Meeting With Success in Disposing of Its Four And One Half Per Cents At Ninety

Notwithstanding the intimation of the Bank of Montreal early in the year that only 5 per cent. bonds could be negotiated to advantage the city has succeeded in disposing of half a million dollars of twenty year bonds with accrued interest at 4 1/2 per cent. in the last two weeks, independent of the Bank.

Brent, Noyes & Co., of Toronto, have notified the acting mayor that they will place the purchase of a second block of a quarter of a million at this price, and will take an option on a third block.

Acting Mayor Ross has indicated that the city will grant the option for a week at the price named.

This price is about equal to par at 5 per cent. which is considerably in advance of that obtained by Edmonton for 5 per cent. issues this year.

Had the city complied with the bank's request to convert the issue into 5 per cent. it would have meant the re-submission of bylaws amounting to several millions, to the people, said Acting Mayor Ross yesterday.

Mayor Bennett is still in the east and will probably remain in Toronto until pending negotiations are closed.

MONEY BY-LAWS WHICH WILL BE VOTED UPON NEXT WEDNESDAY

On Wednesday the city council will submit five by-laws to the city. They are:

No. 1472—For \$10,000 for a small-pox hospital and site. The small-pox hospital built last year has been converted into a hospital for general purposes to relieve the congestion of hospitals in the city.

No. 1484—For \$12,000, for annual grants to the board of trade and other worthy philanthropic organizations, as well as for necessary public pamphlets, etc.

No. 1485—For \$64,200 for waterworks extensions made up as follows: \$18,200 for a 24-inch main down 10th avenue for increased fire protection;

ROSS, POWER EXPERT, SUBMITS HIS REPORT

The city council adopted the preliminary report of A. Ross, power expert, last night, and submitted it to the power and development committee for recommendation of action.

The report, submitted to the council, was not complete but owing to the acute situation at present it was deemed advisable to give a partial report dealing only with the question of cost, so that the council might make a decision quickly.

The advice of the expert is that 2,500 k.w. units of steam turbine gas fired boiler plants be installed at once and increases should be prompted by the addition of 1,000 k.w. unit each year, or year and a half as warranted by the increase in load.

Commissioner Gray's summaries of the report are as follows:

COST OF POWER PER KILOWATT HOUR AND HORSEPOWER PER YEAR ON BASIS OF 12 HOURS PER DAY OR 50 PER CENT. LOAD FACTOR

Type of plant—	Per K.W. Hour	Per H.P. Year	Per K.W. Hour	Per H.P. Year
Steam—Coal fired.....	\$27.75	78	\$24.15	68
Hydro—Steam.....	1.00	2.85	1.00	2.85
Gas engine.....	30	87	18.55	53
Hydro—Steam gas, fired.....	7.82	22.50	59	170
Hydro—Steam gas, fired.....	7.82	22.50	59	170
Gas engine.....	30	87	18.55	53

Cost of power per kilowatt hour and horsepower per year on basis of 24 hours.

Type of plant—	Per K.W. Hour	Per H.P. Year	Per K.W. Hour	Per H.P. Year
Steam—Coal fired.....	716	2070	618	1780
Hydro—Steam.....	25.50	73.50	25.50	73.50
Gas engine.....	75	212	45	127

Not complete but owing to the acute situation at present it was deemed advisable to give a partial report dealing only with the question of cost, so that the council might make a decision quickly.

The power costs, according to the curves and tabulation sheets, are based on 50 per cent. load factor, or in other words it is assumed that the average load will equal 50 per cent. of the peak load or maximum demand on the plant.

The increasing of the load factor would increase the horsepower per year costs in practically direct proportion.

To arrive at the cost per horsepower per year delivered to a manufacturing plant, the following items must be considered—and items 2, 3 and 4 added to the cost of power.

1. The cost of the plant and the cost of the fuel.
2. The cost of the transmission lines.
3. The cost of the transformer and transmission losses.
4. The cost of the overhead distribution.

The above three items must be added to the first cost of power.

MARKETERIA, LATEST HELP YOURSELF SCHEME, MAY BE ESTABLISHED IN CALGARIA

Several local investors who have recently returned from a trip through the middle Western States are contemplating the establishment in this city of a marketeria patterned after similar institutions lately opened in Chicago.

The idea is a brand new one in the grocery business. A marketeria is something like a cafeteria, with the difference that groceries instead of foods are displayed around the four sides of the store and marketiers help themselves and receive a check at the end, which must be presented before the marketier leaves the building. There are no telephone orders, no delivery wagons, and only a few clerks. For those counters where goods are sold in bulk, thus cutting expenses to the minimum. Customers bring their own baskets and help themselves to what they want from the shelves.

The local grocers who have the idea in hand are searching for a suitable building to be converted into a marketeria, in which they purpose to have shelves and runways built on the approved plan, with accessible refrigerators for butter, etc., arranged somewhat after the fashion of a slot machine. Sugar, flour, salt and similar commodities will be parcelled in various-sized bags; vegetables will be displayed on fountain trays with waxed paper coverings alongside. A special delicatessen department may be included.

CRANE FOR ENVOY TO RUSSIA

Wilson Considering Man Tatt Recalled to China

Washington, April 21—Charles E. Crane of Chicago is being considered by President Wilson for appointment as ambassador to Russia to succeed Curtis Guild.

Mr. Crane is a prominent industrialist and a close personal friend of the president. He has been active in the promotion of a campaign, but later transferred his allegiance to Mr. Wilson.

Crane was selected as minister to China under the Taft administration. He recalled before he had recalled because of his recall by Mr. Wilson.

ACTOR IN LION'S SKIN HURT BY REAL LION

Kansas City, April 21—Cleve Brown, actor, who has been portraying a lion in a sketch founded on the "Beauty and the Beast" tale, narrowly escaped death last night at Kansas City, Kan.

Brown, in his make-up, replaced on the stage a real lion that is shown to the audience. The change is made by a by-stander in a corner by a helper. This helper pulled a lever to hold, and Brown was tumbled to the stage with the lion.

The real lion seized him, and out of the skin he was rescued. Brown, but not until he was severely injured by the animal's claws.

Grading to Commence on The Dunvegan Railroad

Grading is about to commence of the Edmonton, Dunvegan & British Columbia railway, according to the statement of W. H. Kelley, a civil engineer, who is familiar with the plans of the road, and who was in the city yesterday.

"Work will commence along the Little Slave river and the Lesser Slave Lake," said Mr. Kelley yesterday, "just as soon as the frost is out of the ground. Supplies have been shipped to various points along the river, and will be distributed with the opening of navigation. The general contractors anticipate that a great deal of work will be done during the present season."

FORMER CITY CLERK GILLIS IS CLEARED OF STIGMA BY MAGISTRATE SAUNDERS STATEMENT

When Magistrate Saunders dismissed the charge of theft preferred against former City Clerk Gillis in police court yesterday, he observed that there was no charge, however against the man, that he was sorry Mr. Gillis had been given so much prominence in the affair.

Crown Prosecutor Shaw admitted also that there was no charge. It appears that Mr. Gillis had been negotiating two loans for Mr. Gray with the Trusts and Guaranty Co. in connection with a purchase effected last July, but Mr. Gray had already received all that was due him from Mr. Gillis; and the checks verifying this were produced.

DR. MAHOOD AFTER DAIRIES

A sign of spring is spring cleaning, part of which is being effectually done by Dr. Mahood and Sanitary Inspector Dumb.

For the past two weeks Dr. Mahood has issued warnings with regard to the condition of dairies and this week a tour of inspection has proved many unpleasant facts.

Diagnosed with the state of affairs, orders were issued for two dairies to close down immediately, while others received a final warning, whose closure were the Hansen dairy in Mount Royal and J. Graham's dairy in Louis Park. Among those warned were Messrs. Fallson & Anderson's place and the Jensen dairy, while the cleanest one visited was that of J. Shepherd at Brookside. Everywhere conditions were vile, the bodies of chickens, calves, lambs, sheep and swine lying about the yard while the drinking troughs for the cows were thick with manure. Although more care should be taken with milk than with almost any other food, a criminal amount of carelessness seems to exist in places where cows and where milk were kept.

Dr. Mahood's cleaning up in only in its initial stage and dairymen had better prepare for his visit. Those who do not come up to his required standard of cleanliness will be called upon to appear in court and answer why.
