Thousands of extraordinary bargains of a most special nature will be given every day this week. In fact it would be impossible to convey any idea in advertisement like this what are prepared to do for the thousands of customers that come to Powell's old stand. To say we give them cheap goods would be nonsense, the word cheap does not convey an idea of what we do in price of goods. In hundreds of cases the prices are cut right straight in two, and in a great many some elegant goods are sold at one-quarter regular prices. Our daily motto and aim is to give a dollar's worth of goods for 60 cents to everybody; this is the way we have been drawing the immense crowds at Powell's Old Stand. We have allowed nothing to stand in our way to give the citizens of London and those from the surrounding towns the biggest value in Canada. Remember we don't pay regular prices for what we buy, we buy at bankrupt prices, and sell at bankrupt prices. This is the way everybody gets \$1 worth of goods for 60 cents at Powell's Old Stand. As the season advances cheaper goods may be expected. Our prices are talked about all over this western country, not only by the purchasing community, but wholesale and retail merchants wonder where we can get goods for the prices we sell them at. We expect thousands of customers to visit us on Saturday and Sunday night. We invite everybody and ask you to tell your friends and neighbors about the wonderful bargains at Powell's Old Stand. Please remember we keep no books for accounts. We pay cash for what we buy, and sell only for cash, which enables us to sell everything so cheap. Remember and come to the right store. You can't buy cheap goods unless you get into

On Saturday and Sunday night. Up to the time that the last train left London the delighted people from the surrounding parts of Western Ontario were busy buying at Powell's Old Stand. Everybody is simply amazed at the prices, most of which are cut straight in two. No wonder the buyers got excited when they buy \$1 worth of goods for 60c. at Powell's Old Stand.

In hundreds of cases the prices are cut right straight in two, and in a great many some elegant goods are sold at one-quarter regular prices. Our daily motto and aim is to give a dollar's worth of goods for 60 cents to everybody; this is the way we have been drawing the immense crowds at Powell's Old Stand. We have allowed nothing to stand in our way to give the citizens of London and those from the surrounding towns the biggest value in Canada. Remember we don't pay regular prices for what we buy, we buy at bankrupt prices, and sell at bankrupt prices. This is the way everybody gets \$1 worth of goods for 60 cents at Powell's Old Stand. As the season advances cheaper goods may be expected. Our prices are talked about all over this western country, not only by the purchasing community, but wholesale and retail merchants wonder where we can get goods for the prices we sell them at. We expect thousands of customers to visit us on Saturday and Sunday night. We invite everybody and ask you to tell your friends and neighbors about the wonderful bargains at Powell's Old Stand. Please remember we keep no books for accounts. We pay cash for what we buy, and sell only for cash, which enables us to sell everything so cheap. Remember and come to the right store. You can't buy cheap goods unless you get into

On Saturday and Sunday night. Up to the time that the last train left London the delighted people from the surrounding parts of Western Ontario were busy buying at Powell's Old Stand. Everybody is simply amazed at the prices, most of which are cut straight in two. No wonder the buyers got excited when they buy \$1 worth of goods for 60c. at Powell's Old Stand.

Thousands of extraordinary bargains of a most special nature will be given every day this week. In fact it would be impossible to convey any idea in advertisement like this what are prepared to do for the thousands of customers that come to Powell's old stand. To say we give them cheap goods would be nonsense, the word cheap does not convey an idea of what we do in price of goods.
