#### SOME TRADE SUGGESTIONS.

The department of trade and commerce at Ottawa has been flooded with replies to the circular letter sent out a few months ago to exporters and of Canadian trade abroad. While some ing trip, and after breaking up a ball of the answers display either inexcusable ignorance as to Government measures already in force or candid indifference, the department reports itself satisfied, on the whole, with the result of the circular. In the correspondence there is not only some frank criticism, but many suggestions showof the latter include indorsation of plans which the Government has in

contemplation, while ideas of considerable value are advanced in regard to the trade commissioner service. It is pointed out by some of the correspondents that Canada could not be expected to establish efficient foreign Has-Been Thinks He Can Put a Crimp or consular offices in a day, but as it Is a policy in accord with that of other trading nations the Government should not delay in extending this service in so far as the Dominion finances will permit. The Government's course in adding five trade commissioners and one commercial agent to the service within the last year is regarded as a step in the right direction. The suggestion is made that the identification of trade commissioners with advertising the Dominion should be complete in so far as commercial interests are concerned, and a propaganda of education and enlightenment as to Canada's resources and the commodities which enter into this country's growing export trade is advocated. These and many other proposals will doubtless receive the department's careful consideration.

by Strong Ninth Inning Finish.

New York, June 22.-Yale defeated Princeton today at American. League Park by a score of 5 to 2, and thus won the deciding game of the series. The Connecticut collegians were better at the bat, in the field and in the box than their rivals from New Jersey. Princeton played a plucky game however, and was not conquered until the ninth inning.

EASTERN LEAGUE CLUBS.

The clubs which favored the sixteen limit rule are doing fine, perhaps. Providence has fourteen men. Monreal has Cockhill and Jones hurt and pitchers playing in the field. Toronto is crippled. Buffalo has a catcher playing short. Rochester is safe because Ganzel is protected by an extra infielder and outfielder. Newark and Rochester are the only teams which favored no limit and they are the ones getting along the best. Rochester Herald.

WOULDN'T TAKE 'EM AS GIFT. Cincinnati, June 20 .- Lew Moren, the pitcher of the Philadelphia Nationals, positively denied tonight that he has any financial interest in the Boston Nationals. A story to the effect that he owned the club was sent from this city last night. When told of it, Moren was indignant and said that either himself nor his father owned or contemplated trying to secure control of the club.

He was surprised at how the sores healed—"I took your New METHOD TREATMENT for a serious blood disease with which I had been inflicted for twelve years. I had consulted a score of physicians, taken all kinds of blood medicine, visited Hot Springs and other mineral water resorts, but only got temporary relief. They would help me for a time, but after discontinuing the medicines the symptoms would break out again—running sores, blotches, rheumatic pains, looseness of the hair, swellings of the glands, palins of the hands scaling, itchiness of the skin, dyspeptic stomach, etc. I had given up in despair when a friend advised me to consult you, as you had cured him of a similar disease 8 years ago. I had no hope, but took his advice. In three weeks' time the sores commenced to heal up and I became encouraged. I continued the New METHOD TREATMENT for four months and at the end of that time every symptom had disappeared. I was cured 7 years ago and no signs of any disease since. My boy, three years old, is sound and healthy. I certainly can recommend your treatment with all my heart. You can refer any person to me privately, but you can use this testimonial as you wish."
