THE NEIGHBOR'S HENS

When the snow has melted, leaving here and there patches of the garden, and the lawn quite bare, then from all directions, in platoons of tens, starts offensive movement of the neighbor's hens.

To the charge advancing. Come the feathered lines. Scratching up the garden, pecking at the vines, and again returning. Bound their worst to do. Spite of flapping and hiss. Reinforced by "Shoo!"

German are the tactics. That they used to win—See upon the lawn there. How they're digging in. Insolently squawking. German their attack. And their everlasting. Way of edging back.

Sure, it is no wonder. People most concerned. Think the neighbors' hens. Ought to be interned. And to folks be given. Little chance to do. Something else in daylight. Than this howling "Shoo!"

WORLD'S RECORD

BROKEN BY TANLAC

Over One Million Bottles Sold First Ten Weeks of This Year.

Tanlac has brought a new romance to the commercial world. It is the story of an acceptance and appreciation of merit never before attained by a proprietary medicine. Staid business men to whom the actual figures of the production of Tanlac have been presented have scouted them until the proof was shown. The production of Tanlac now stands at a rate of almost four million bottles per year. The exact figures are 3,992,800. The sale of a million bottles in the first nine months, which far exceeded any record ever made by a proprietary medicine, now seems insignificant.

Over 17,000 BOTTLES A DAY

Sales this year bid fair to smash all previous records, as the sales for the first ten weeks of this year amounted to over one million bottles, an average of over one hundred thousand bottles per week, which is at a rate of more than seventeen thousand bottles per day. It seems almost incredible, but these are actual figures and such is the record established by this wonderful medicine.

"One firm alone," said Mr. G. F. Willis, the international distributor of Tanlac, "has given orders for a total of 150,000 bottles within eighteen months. The firm, I refer to is the Spurluck Co. of Nashville, Tenn. Mr. C. S. Martin, president of this great firm who is also president of the Southern Drug Jobbers' Association, will verify this statement."

"Tanlac is the result of many years of arduous study by Mr. Cooper and his principal chemist. In fact, the two of them have carefully watched its development from the beginning of the experimental stage to its present state of efficiency. So remarkable have been the results obtained from this medicine that I doubt seriously if either of these men realize the immensity of their success. Like many other great discoveries, it has required time to prove its far-reaching effects."
