SUBSTANTIAL INCREASE

A recent despatch from Chatham, N. P. R., says:—There is every reason to believe that the ewill be a substantial increase over last scason's cut of lumber in New Brunswick this year. The Partington Conpany's cut on the Southwest Miramichi and tributaries will be greater than that of last year. On the Restigouche, Tobique and St. Croix the cut will probably be slightly in excess of last year. Those in a position to know state that manufactured lumber is selling at a higher price now than has prevailed for several years.
