

# STEELE BRIGGS SEEDS

Sown Everywhere in Canada

NEW COMET ASTER "EXPRESS" 100. A PACKET

The name of "Steele Briggs" on a package of seeds is a guarantee that the seeds contained therein have been subjected to every known test to make sure of their purity and germinating qualities. We do not rely solely upon the word of the experts who grow our seeds, for the reliability of the seeds. We subject them to severe tests in our own establishment before they are allowed to be placed into stock.

Our seed boxes, filled with pure, fresh seeds are now displayed in thousands of stores in all parts of Canada. The most sure way of growing a good crop is to sow Steele Briggs Seeds.

## The Steele, Briggs Seed Co., Limited

TORONTO HAMILTON WINNIPEG

# POTASH

Is an indispensable ingredient of a "Complete Fertilizer" for all Farm, Orchard and Garden crops, and can be obtained from all leading fertilizer dealers and seedsmen in the highly concentrated forms of

**SULPHATE OF POTASH** and  
**MURIATE OF POTASH.**

**IS YOUR LAND PRODUCING THE MOST PROFITABLE CROPS POSSIBLE?**

If not, write for full particulars of this highly important "plant food," and copies of our free publications, including:—

"Fertilizing Orchard and Garden" "Potato Crop in Canada"  
"Fertilizing Root Crops and Vegetables," etc., etc., etc.
