ACROLOZONE

A newer remedy, valuable in fermentation of the food in the stomach, etc.

Liq. Ammon. fort. 880,

Anhydrous Ammonia for Ice Machines, etc.

JOHN C. HARVEY, Manufacturing Chemist,
TODMORDEN, ONT.

Antitoxine

(Strengthens the Heart's Action),

is a Compound Coal Tar product, and is in no way connected with the Diphtheria Antitoxic Serum. In hospital practice it has been demonstrated to be a powerful heart stimulant as well as a most efficient antipyretic and antineuralgic. It may with absolute safety be placed in the hands of chronic sufferers from Neuralgia or Headache, as, unlike other antipyretics, it is never known to depress the heart's action in the slightest degree, but, on the other hand, adds tone and strength to the action of a weak heart, when administered for the reduction of fever or the relief of pain. Hundreds of British Physicians have written us concerning its power in stimulating the heart's action in a great variety of cases. **There is no substitute for Antitoxine.**

\$1.50 per oz.

FOR DISPENSING ONLY.

Years before the new Diphtheria Cure was discovered, this antipyretic was known and prescribed in London as "Antitoxine." Please note and remember this, as we are wrongly accused of appropriating the name.

All samples are forwarded to Physicians and Surgeons on application to the Sole Importers and Agents:

LYMAN, KNOX & CO., MONTREAL.
