

PUBLISHERS DEPARTMENT.

LITERARY NOTES.

One of the most thoughtful contributions to the discussion of the questions of propriety involved in the publication of the Browning Love Letters is the article in the Edinburgh Review on discretion and publicity, reprinted in *The Living Age* for June 24.

Blackwood's review of the Autobiography of Mrs. Oliphant is reprinted in *The Living Age* for July 1st.

Arthur Symons' appreciation of Balzac, which *The Living Age* reprints from *The Fortnightly Review*, is one of the freshest and most sympathetic of recent contributions to the study of Balzac.

A subject which is just now uppermost in many minds, The Ethics of War, is the subject of a thoughtful paper by the Rev. Father Ryder in *The Living Age* for July 1.

The serial attraction of *The Living Age* for the summer months will be a story by "Neera" one of best-known of contemporary Italian writers. It is called "The Old House," and the opening chapter, in the number for July 1, is full of color and romantic charm.

LATE LITERARY NEWS.

The Beecher family is one whose branches are very many and whose lines of work are as varied as the individuals. It is a grand-niece of Henry Ward Beecher, Mrs. Charlotte Perkins Stetson, who is at present very much to the fore in relation to the economic emancipation of women. In the July number of *The Cosmopolitan*, Mrs. Stetson will wage a pen warfare with Professor Harry Thurston Pack over an article in the June number of *The Cosmopolitan*, "The Woman of To-day and To-morrow." Mrs. Stetson has something in the June number—a four-line poem on "Queer People." The illustrations by Oliver Herford are themselves queer.

SANMETTO IN ALL FORMS OF VESICAL DISEASE.

I have found the preparation known as Sanmetto a most excellent remedy in all forms of vesical diseases that have come under my observation, especially the cystitis attendant on the presence of stone before and after its removal, and also the vesical tenesmus from colds and urethral inflammation, both specific and non-specific.

SANMETTO IN GENITO-URINARY DISEASES AS A RE-BUILDER.

I have used Sanmetto in a great number of genito-urinary diseases, also as a re-builder of strength throughout the genito-urinary tract, always with the happiest results. This is the first and only testimonial I have ever given in twenty years' active practice of medicine.

MARION, IND.

C. H. ECKERT, M.D.

SANMETTO IN CYSTIC AND URETHRAL-IRRITATION AND INFLAMMATION, AND IN CHRONIC PROSTATIC HYPERTROPHY AND ATROPHY.

I have for years prescribed, as well as taken myself, Sanmetto, and have found it almost universally satisfactory in cystic and urethral irritation and inflammation. I have also used it with marked results in chronic prostatic hypertrophy, and even in atrophy of the prostate I have found it useful.
