

harnyard manure mixed with about the same quantity of fine rich soil. By working the mixture for a long time, and carefully, you reduce it to the consistence of whitewash. In this mixture sleep the roots of your plants, just before putting them into the ground; the earth thrown after them into the hole sticks to the roots, which immediately begin to swell. At the very first movement of sap, rootlets appear through this coating, which gives them immediate manure, and not only brings on but secures the further formation of roots. Once fairly started, there is nothing more to fear."— This reminds us of the plan for encrusting seeds with manure in order to give the seedlings a good start, recommended by an ingenious gentleman at New Orleans.—*Scientific American*

PROSPECTUS

OF THE
SECOND VOLUME
OF THE

"Journal of Education and Agriculture."

EDITOR—REV. ALEXANDER FORRESTER, D. D.,
SUPERINTENDENT OF EDUCATION.

THE June number will finish the first year of the existence of this periodical. Though the Journal has not received the support that might have been expected from the parties for whose benefit it was mainly intended, still, taking all things into account, it has had a fair circulation for the first year of its history; and both the Editor and the Publishers would gladly avail themselves of this opportunity of tendering their best thanks to the friends of Education and Agriculture, and especially to the Graduates of the Provincial Normal School, throughout the country, who have exerted themselves so strenuously in obtaining subscribers. It is not our intention to make any material change upon its management during the ensuing year, but should its circulation largely increase, which we hope it may, to add considerably to its bulk without any additional charge.

We trust that the Clerks of the different School Boards will continue as heretofore to act as Agents, as well as those to whom copies of this Circular may be forwarded.

We hereby request and authorize all the Teachers in the Province to act as Agents in their locality;—and in their so doing, and thereby increasing the circulation of the Journal, we are persuaded they are but promoting their own usefulness and comfort.

As the first number of the second volume will be issued on or about the 15th of July next, the present subscribers will require to renew their subscriptions with the Publishers or Agents.
