#### OUR GENERAL AGENT

The Roy. A. Milne, M.A., bus, we regret to say, been compelled to sever his connection with the PRESENTERIAN. The changeable and very often inclement weather which he had to encounter in prosecuting his labours, especially at this season of the year, was too much for a delicate constitution, and he could no longer continue the work. Mr. Milne will, for a time at least, fill the pulpit of the Pre-byterian Church at Hammand. St. Lawrence Co., State of New York. Ho has our best wishes for his comfert and usefulness.

#### OUR CANVASS.

The Rev. Mr. Milne, in resigning his position as General Agent for this Journal says: "My idea is that the circulation could a be greatly increased if the minister of the congregation would appoint a local "agent. In that way the country congre-"gations could be worked up, and that is "where your greatest increase must come "from. I find wherever a Minister has "spoken of the paper from the pulpit and "in his visiting that there we have a good "circulation. All it wants is pushing. Get "it introduced into the families of our . Church, and they won't go without it. "Often and often I have heard your sub-"scribers say "We would not be without "it.

In view of Mr. Milno's experience, would it not be well for our ministers to aid us in securing for the Property as more extonded circulation 'v apport 'ng a suitable person . .. hear is an ion to act as agent. dy convice with the best Some 'a results. We way our enlaborers not to lose time. Our general agent having resigned, we have to depend, to a large extent, on voluntary effort. Our friends can help us if they will. Now is the time for renewing and extending subscriptions. We send specimen copies, prepaid, to all who write for them. We are hearing already from active friends, but shall be glad to hear from more. Remember, THREE THOUSAND now subscribers is the figure we want to reach early the coming year. With your assistance, kind reader, this point will be very easily at-

## THE ALDINE,

An Illustrated Monthly Journal, universally admitted to be the Itandsourest Periodical in the World. A Representative and Champien of American Taste.

NOT FOR SALE IN BOOK OR NEWS STORES.

MATFOR SALL IN BOOK OR NEWS STORES,
THE ALDINI, while is such with all the regularity, has none of the temporary or timely interest characteristic of ordinary periodicals. It is an elegant me what yo is purely interest and scale through a cellection of pictures, the rarest specimens of artistic skill, in black and white Atthough each succeeding number affords a fresh; it essure to its friends, the real value and beauty of THE ALDINE will be most appreciated after it has been bound up at the close of theyear. While other publications may claim superior cheapness, ascompared with rivals of a similar class, THE ALDINE is a unique and original conception—alone and unapproached—absolutely without competition in price or character. The possessor of a complete volume cannot duplicate the quantity of fine paper and engravings in my other shape or number of volumes for tentimes its cost; and, then there are the chromos, besides!

#### ART DEPARTMENT, 1874.

The illustrations of THE ALDINE have wen a world-wide reputation, and in the art centres of Europe it is an admitted fact that its wood cuts are examples of the highest perfection ever attained. The common prejudice in favour of "steel plates," is rapidly fielding to a more educated and discriminating taste which recognizes the advantages of superior artistic qualitivity with gracter facility of production. The wood-cuts of THE ALDINI, posses all the delicary and claborate finish of the must costive steel plate, while they afforded a better reind ring of the autist's original.

To fully realize one wenderful work which THE ALDINE is doing for the cause of art culture in America, it is only necessary to consider the cost to the people of any officer decent representations of the productions of great paintors.

In addition to designs of the mombers of the National Academy, and other noted American artists. THE ALDINE will reproduce variefless of the best foreign masters, selected with a view to the dischest artistic successand greatest general interest. Thus the subscriber to THE ALDINE will, at a trifling cost, enjoy in his own home the pleasures and refining influences of true art.

The quarterly-fluted plates for 1874 will be by Thos. Morgan and J. D. Woodward.

The Christmas issue for 1874 will contain special disligns appear riate to the scason, by our bestartists and will surpass in attractions any of its produces
