Mercantile Summary.

THERE are several vessels loading lumber at Burrard Inlet for the Cape of Good Hope.

Mr. Jas. KENNEDY, of London, has purchased the bankrupt stock of C. J. Ellison, druggist at Sarnia, for 40½ cents on the dollar.

On the Pacific coast deep water freights are improving. At Portland the other day, says the *Victoria Times* of Jan. 29th, an iron vessel was taken at 55s. for the U. K. with grain. Wooden bottoms are asking 45s. for orders. Lumber vessels are also receiving better rates.

THE grain commission firm of Crane & Baird was dissolved on the 4th instant by the retirement of Mr. James Carruthers, who has been connected with the firm for ten years, during the last six of which he was a partner. The remaining partners continue.

THE statement of liabilities in the case T Phillips, Jr., wholesale hardware, Montreal, shows a direct indebtedness of \$37,770, \$43,840 indirect, privileged about \$1,000; assets about \$30,000, Messrs. Sanderson, Nash, McMaster, Robertson and McPherson, have been named inspectors.

"STAGING over the missing link" is what the *Winnipeg Sun* calls it when announcing the intended arrangement by which the Canadian Pacific Railroad Company will provide a line of stage coaches to ply between the eastern and western termini of the road in the mountains.

THE Kingston and Montreal Forwarding company held a meeting at Ottawa a week ago. A satisfactory dividend was declared and the following officers were elected for the current year: President, A. Gunn, M.P., Kingston; vice-president, Hon. J. G. Ross, Quebec; managing director, William Stewart, Montreal; additional directors, James Swift, Kingston, Thomas Cramp.

At Nanaimo, B. C., the coal mining industry is not looking very healthy; the demand has been very small. "There were two vessels in Nanaimo loading on the 27th ult., while Wellington is paralyzed by the late accident. Coal prospecting in the district is not progressing as satisfactorily as might be expected, while the heavy weather of late has stopped all outside work for a time."

INSTEAD of five or six engines to drive six or seven dynamos, the directors of the Toronto Electric Light Company have decided to drive all their machinery by one good steam engine. After examining the different engines a contract has been awarded to Thos. Worswick, of Guelph, for a pair of engines of 300 h.p. nominal, which will work up to 450 h.p. These engines are well-known for steadiness of power and economy of fuel.
