

**LET IT RUN,**  
and your cough may end in something serious. It's pretty sure to, if your blood is poor. That is just the time and condition that invites Consumption. The seeds are sown and it has fastened its hold upon you, before you know that it is near.

It won't do to trifle and delay, when the remedy is at hand. Every disorder that can be reached through the blood yields to Dr. Pierce's Golden Medical Discovery. For Severe Coughs, Bronchial, Throat and Lung Diseases, Asthma, Scrofula in every form, and even the Scrofulous affection of the lungs that's called Consumption, in all its earlier stages, it is a positive and complete cure.

It is the only blood-cleanser, strength restorer, and flesh-builder so effective that it can be guaranteed. If it doesn't benefit or cure, in every case, you have your money back. All medicine dealers have it.

## PUBLIC OPINION.

**Brandon Times:** Why cannot the tariff be regulated in some way, so that it will better suit the wants of the greater number of the population. The population is composed essentially of farmers, and it is high time that we were having a little legislation to suit them. The manufacturers have been helped for a number of years, and they should be able now to get along without it.

**Vancouver, News Advertiser:** Now there is no difficulty in arriving at a reasonably accurate conclusion as to the number and distribution of the people of the Province. Examined and checked by various standards which are available, the substantial accuracy of the Dominion Census' returns can be shown. As regards any attempt to separate the whites from the Indians, it cannot be done to give results any more satisfactory than those which can be obtained from the statistics furnished by the Indian.

**St. John Telegraph:** The dinner given to the Hon. Geo. E. Foster last evening, did not differ in any material respect from the usual run of political banquets. There was plenty of enthusiasm, although some of it bore the marks of being made to order, the aspirants for public office being specially noisy in their demonstration. The Conservatives of the Province, far and near, had been collecting for the occasion, hardly a single county being without its representative, and Fredericton turning out a strong contingent of the faithful.

**St. John Gazette:** It will renew the confidence that the people already feel in Hon. Mr. Foster. His speech was one of the best he has ever delivered. It was clear and to the point, and left no room for doubt as to the future policy of the Conservative leaders. Loyal to Canada, loyal to the Empire, seeking alone the development of our beloved country, it was a magnificent answer to the treason of the Opposition party. When such men lead, as the Minister of Finance, and his colleagues in the Government, the success of the Conservative party is assured.

**Brantford Expositor:** There is evidently another big boom in the speed of trans-Atlantic steamships. The Campania has just completed her record-breaking run from Sandy Hook to Queenstown, and established herself the fastest steamer on the sea, when the news comes that the White Star Company has asked Messrs. Harland and Wolff, of Belfast, to build them a steamer that will eclipse the Campania in size and speed. This leviathan will be 800 feet long, that is nearly 120 feet longer than the Great Eastern, and will be built and equipped suitably to her enormous length.

**Montreal Star:** It is our belief that an improvement of the condition of farm life in Canada, would wonderfully decrease the number of country lads who drift into city life anywhere, and of any kind. The majority of them are driven, not drawn, away from home. Make life easier, and a living surer for them on the farm; and, not only will immigration be attracted by the noise of it, but these best sons of ours will be kept at home as well. Canada will then escape the hemorrhage of the exodus; will escape the curse of the American Republic, in that all its vitality is flowing to its cities, there to be vitiated; and will fill its vacant farms and boundless prairies with human beings glad for the breathing space. These results await only the betterment of the farmer's life; and this can be accomplished by simply taxing him less on the things he buys, and helping him to sell to better advantage in his best market.

**Quebec Chronicle:** Neither side will accept the erratic member from North Simcoe, able and brilliant as he undoubtedly is. His hostility to the French and the Roman Catholic religion, will prevent Mr. Laurier from asking him to join his band. The Conservatives cannot afford to take him up, knowing as they do, that

his racial and religious opinions are against him, as a public man. Then, while he has some sensible views to offer on the question of tariff reform, he is restricted from doing anything practical, by his connection with Imperial Federation, which has ideas of its own on fiscal matters. Indeed, Mr. McCarthy has turned himself into a Jonah, and more's the pity, because he is a clever man, a clear-thinking man, and independent enough to do a world of good, if he only had a mind to.

## THREW AWAY HIS CRUTCHES

AFTER YEARS OF TERRIBLE SUFFERING.

AN INTERESTING HISTORY.

### STATEMENT OF MR. WM. MCNEE.

For eight years I was troubled with a sore on my leg which resulted from having it broken. The doctors kept me in bed five months trying to heal it up, but all to no purpose. I tried all sorts of salves, liniments, ointments, pills and blood medicines but with no benefit. In 1883 it became so bad that I had to sit on one chair and keep my foot on another for four months. I could not put my foot on the ground or the blood would rush out in a stream and my leg swelled to twice its natural size.

### ELEVEN RUNNING SORES

developed on it which reduced me to a living skeleton (I lost 70 lbs. in four months). Friends advised me to go to the Hospital; but I would not, for I knew they would take my leg off. The doctor then wanted to split it open and scrape the bone, but I was too weak to stand the operation. One old lady said it had turned to black erysipelas and could never be cured. I had never heard of Burdock Blood Bitters then, but I read of a minister, Rev. Mr. Stout, who had been cured of a severe abscess on the neck by B.B.B., after medical aid had failed, and I thought I would try it. I washed the leg with the Bitters and took them according to directions. After using one bottle I could walk on crutches, after taking three, I threw away the crutches, took a scythe and went to work in the field. At the end of the sixth bottle my leg was entirely healed up; pieces of loose bone had worked out of it and the cords came back to their natural places again. That was nine years ago and it has never broken out since. I can walk five miles to-day as fast as anyone, and all this I owe to B. B. B., which certainly saved my leg, if not my life. I cheerfully recommend it to all sufferers. Give B. B. B. a trial, it will cure you as it did me.

Yours truly,

WM. MCNEE, St. Ives P.O., Ont.

Mr. F. C. Sanderson, the druggist of St. Marys, Ont., certifies to the entire truthfulness of the remarkable statement made by Mr. McNee and says that several other wonderful cures have been made in his district.
